

Respondents: Business or other for-profit, not-for-profit institutions, and state, local or tribal government.

Number of Respondents and Responses: 3,788 respondents; 3,788 responses.

Estimated Time per Response: .25 minutes.

Frequency of Response: One time reporting requirement.

Total Annual Burden: 947 hours.

Total Annual Cost: N/A.

Privacy Act Impact Assessment: N/A.

Nature and Extent of Confidentiality: No questions of a confidential nature are asked.

Needs and Uses: The Commission will submit this expiring information collection to the Office of Management and Budget during this comment period under delegated authority. The Commission inadvertently published a regular notice rather than a delegated notice announcing submission of this information collection at the end of the 60 day comment period which was March 29, 2010 (75 FR 4077, January 26, 2010). Therefore, the Commission is required to publish a 30 day notice following a regular notice. The Commission is reporting no change to the reporting requirement. However, there is a 1,436 hour reduction adjustment to the total annual burden hours since the last submission to the OMB in 2007. This reduction is due to 5,743 fewer respondents.

This rule section requires that affected applicants to submit a list of any radio facilities they hold within 40 miles of the base station transmitter site being applied for. This information is used to determine if an applicant's proposed system is necessary in light of communications facilities it already owns. Such a determination helps the Commission to equitably distribute limited spectrum and prevents spectrum warehousing. The information is collected only once – upon initial license application.

Federal Communications Commission.
