DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[Program Announcement Open Season 02060-FY04]

National Cancer Prevention and Control Program; Notice of Availability of Open Season Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2004 funds for an Open Season for the National Cancer Prevention and Control Program (NCCCP) cooperative agreement program previously announced under Program Announcement 02060 (Henceforth referred to as "PA 02060"). This program addresses the "Healthy People 2010" focus area(s) related to cancer.

PA02060 was published in the **Federal Register** on April 23, 2002, Volume 67, Number 78, pages 19932-19950. Amendment 1 was published May 23, 2002, and Amendment 2 was published January 2, 2003. Applicants may access the amended version of PA 02060, along with this Open Season announcement, on the CDC Web site, Internet address: <http://www.cdc.gov>. Click on "Funding," then "Grants and Cooperative Agreements."

Sections A.-F. of original PA 02060 are superseded by the Sections A.-F. published in this announcement.

The NCCCP will assist States/District of Columbia/Tribes/Territories in developing, implementing, maintaining, enhancing, integrating, and evaluating a cancer program inclusive of cancer surveillance, prevention and early detection programs, and which focuses on eliminating health disparities. The purpose of each of the three

programmatic components within the NCCCP follows.

A.1. National Comprehensive Cancer Control Programs (NCCCP)

The NCCCP component supports the planning and implementation of comprehensive cancer control activities. CDC defines comprehensive cancer control as an integrated and coordinated approach to reduce the incidence, morbidity and mortality of cancer through prevention, early detection, treatment, rehabilitation, and palliation.

A.2. National Breast and Cervical Cancer Early Detection Program (NBCCEDP)

The NBCCEDP component supports the development of systems to assure breast and cervical cancer screening for low income, underserved, and uninsured women with special emphasis on reaching those who are geographically or culturally isolated, older, or members of racial/ethnic minorities. Components of the NBCCEDP include surveillance, partnership development, screening, referral and follow-up, quality assurance, public and provider education, and evaluation. These components are carried out at the local, State and national levels through collaborative partnerships with State health agencies, community-based organizations, tribal governments, universities, a variety of medical care providers and related agencies and institutions, and the business and voluntary sectors. These partners work together to develop, implement and evaluate strategies to promote breast and cervical cancer prevention and early detection, to increase access to related services and to improve the quality and timeliness of the services.

A.3. National Program of Cancer Registries (NPCR)

The NPCR component supports efforts to establish population-based cancer registries where they do not exist and to improve existing cancer registries.

PA 02060 and applicable amendments, contain information that is specific to the three individual components. Section G "Specific Guidance for NCCCP" addresses the National Comprehensive Cancer Control Program; Section H "Specific Guidance for NBCCEDP" addresses the National Breast and Cervical Cancer Early Detection Program; and Section I "Specific Guidance for NPCR" addresses the National Program of Cancer Registries. These component sections include specific guidance regarding:
