SUPPLEMENTARY INFORMATION: The Digital Television Transition and Public Safety Act of 2005 directed NTIA, in consultation with the Department of Homeland Security (DHS), to establish and administer a grant program to assist public safety agencies in the advancement of interoperable communications.¹ The Act authorized NTIA to make payments not to exceed \$1 billion, in the aggregate, through fiscal year 2010 to carry out the PSIC program. The grant program assisted public safety agencies in the acquisition of, deployment of, or training for the use of interoperable communications systems that can utilize reallocated public safety spectrum in the 700 MHz band for radio communication.²

On September 30, 2007, the Public Safety Interoperable Communications (PSIC) Grant Program awarded \$968,385,000 to fund interoperable communications projects from the 56 States and Territories.³ These awards represent the largest single infusion of Federal funding ever provided for State, Territory, and local agencies to implement communications solutions.

NTIA prepared the final PEA and draft FONSI in accordance with the requirements of the National Environmental Policy Act of 1969 (NEPA) and the Council on Environmental Quality (CEQ) regulations for implementing NEPA.⁴

Low Power Television and Translator Digital-to-Analog Conversion Program: Extension of Closing Date

AGENCY: National Telecommunications and Information Administration (NTIA), U.S. Department of Commerce.

ACTION: Notice of Amended Solicitation of Applications.

SUMMARY: The National Telecommunications and Information Administration (NTIA) announces that it is extending the solicitation period for grant applications for the Low Power Television and Translator Digital-to-Analog Conversion Program. Applications must be postmarked on or before Friday, June 12, 2009.

DATES: Applications for Low Power Television and Translator Digital-to-Analog Conversion Program must be postmarked on or before Friday, June 12, 2009. Applications submitted by facsimile will not be accepted.

ADDRESSES: Application forms and instructions are available on the Internet at <http://www.ntia.doc.gov/lptv>. To submit completed applications, or send any other correspondence, write to the Low-Power Conversion Program at the following address: LPTV, Room H-4812, U.S. Department of Commerce, 1401 Constitution Avenue, N.W., Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: William Cooperman, Director, Broadcasting Division, telephone: (202) 482-5802; fax: (202) 482-2156. Information about the Low-Power Television and Translator Digital-to-

Quality for Implementing the Procedural Provisions of NEPA, 40 C.F.R. parts 1500-1508 (2008).

Analog Conversion Program can also be obtained electronically via the Internet at <http://www.ntia.doc.gov/lptv>.

SUPPLEMENTARY INFORMATION: NTIA has established the Low-Power Television and Translator Digital-to-Analog Conversion Program through which each eligible low-power television broadcast station may receive compensation toward the cost of the purchase of a digital-to-analog conversion device that enables it to convert the incoming digital signal of its corresponding full-power television station to analog format for transmission on the low-power television station's analog channel. The conversion devices are necessary so the eligible stations can continue to broadcast in analog after the digital conversion of the full-power station occurs. Without converter devices, the eligible facilities will be unable to receive the incoming off-air digital signal for conversion and rebroadcast to consumers within their coverage area. On October 29, 2007, NTIA publish a notice announcing the availability of funds for this program.¹

The DTV Delay Act, enacted on February 11, 2009, extended the deadline for submission of Low-Power Television and Translator Digital-to-Analog Conversion Program grant applications from February 17, 2009, to June 12, 2009.² This provision amended section 3008(a)(1) of Digital Television Transition and Public Safety Act of 2005.³ Accordingly, NTIA publishes this notice to announce that it is extending the solicitation period for applications for the Low Power Television and Translator Digital-to-Analog Conversion Program. Any applications postmarked between February 18, 2009, and June 12, 2009, will be considered timely and will be given full consideration.

Applications submitted by June 12, 2009, will utilize the same forms, and undergo the same review and evaluation process contained in the Notice of Availability of Funds of October 29, 2007, as amended.⁴ NTIA has approximately \$1 million available for

award and will process applications on a first-come, first-served basis until the \$1 million is exhausted.

Dated: February 13, 2009.

Associate Administrator, Office of Telecommunications and Information Applications.
