[Program Announcement 01077]

Grant for a Program to Promote A Hospital-Based Trauma Support Program; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a grant program to promote a hospital-based trauma support program at a level 1 trauma center delivered in a suburban community that is both culturally and economically diverse. This program addresses the "Healthy People 2010" focus area of Injury and Violence Prevention. The purpose of this program is to provide a continuum of support services including prevention messages to reduce morbidity and mortality to those who have suffered traumatic injuries.

B. Eligible Applicant

Assistance will be provided only to the Inova Fairfax Hospital. No other applications are solicited. Eligibility is limited to the Inova Fairfax Hospital, Falls Church, Virginia, because fiscal year (FY) 2001 Federal appropriations specifically directs CDC to award this hospital funds to promote a hospital-based trauma support program at a level 1 trauma center.

C. Availability of Funds

Approximately \$87,201 is available in FY 2001 to fund one award. It is expected that the award will begin on or about September 1, 2001, and will be made for a 12-month budget period within a project period of one year. Funding estimates may change.

D. Where to Obtain Additional Information

This and other CDC announcements can be found on the CDC home page on the Internet: <http://www.cdc.gov> Click

on "Funding" then "Grants and Cooperative Agreements."

To obtain business management technical assistance, contact: Ty Weaver, Grants Management Specialist, Grants Management Branch, Procurement and Grants Office, Announcement 01077, Centers for Disease Control and Prevention (CDC), 2920 Brandywine Road, Suite 3000, Atlanta, GA 30341-4146, Telephone: (770) 488-2710, Email address: tmw9@cdc.gov.

For program technical assistance, contact: Paul Burlack, Centers for Disease Control and Prevention, National Center for Injury Prevention and Control, 4770 Buford Highway N.E., Mailstop F42, Atlanta, GA 30341-3724, Telephone: (770) 488-4713, Email: PBurlack@cdc.gov.

Dated: May 2, 2001.

John L. Williams,

[Program Announcement 01070]

Urban Commensal Rodent Control and Environmental Improvement and Safety Project; Notice of Availability of Funds

A. Purpose

The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2001 funds for a cooperative agreement program to undertake an Urban Commensal Rodent Control and Environmental Improvement and Safety Project. This project addresses the "Healthy People 2010" focus areas of: (1) Environmental Health, (2) Public Health Infrastructure, (3) Educational and Community-Based Programs, and (4) Injury and Violence Prevention. The purpose of this project is to demonstrate that a comprehensive approach to eliminating commensal rodent infestation also will prevent, eliminate, or reduce the consequences of diseases and injuries that are associated with unhealthy home environments; and it will serve as a model to stimulate the development of similar programs at state and local levels.

B. Eligible Applicants

Applications will only be accepted from the top five Standard Metropolitan Statistical Areas (SMSA)/largest cities (i.e., New York City, Los Angeles, Chicago, Houston, and Philadelphia). Eligible applicants in these SMSA are local health departments or their bona fide agents. Competition has been limited to the nation's five largest cities where: (1) commensal rodent infestation and environmental conditions are generally regarded as the most severe (e.g., densely populated areas, poverty, old deteriorated or unsafe housing, exposed garbage and unapproved refuse storage, inadequate municipal services, etc.); and (2) a target area can be readily identified that consists of up to 50-contiguous residential blocks with high-population density, significant commensal rodent infestation, and risk factors that support infestation and promote the spread of disease and injury. Applicants must be able to substantiate that at least six percent of the premises in the selected target area have active exterior and/or interior rat/mouse infestation based on a random or comprehensive premises survey.

Note: Public Law 104-65 states that an organization described in section 501(c)(4) of the Internal Revenue Code of 1986 that engages in lobbying activities is not eligible to receive Federal funds constituting an award, grant, cooperative agreement, contract, loan, or any other form.

Definition: For the purpose of this announcement, commensal rodents specifically refer to the Norway rat (*Rattus norvegicus*), roof rat (*Rattus rattus*), and house mouse (*Mus musculus*).

C. Availability of Funds

Approximately \$500,000 is available in FY 2001 to fund two awards. It is expected that the award will begin on or about September 30, 2001, and will be made for a 12-month budget period within a project period of up to three years. Funding estimates may change.

Continuation awards within an approved project period will be made on the basis of satisfactory progress to reduce commensal rodent infestation and environmental hazards and deficiencies in the target area and the availability of funds.

D. Program Requirements

In conducting activities to achieve the purpose of this program, the recipient will be responsible for the activities under 1. (Recipient Activities), and CDC will be responsible for the activities under item 2. (CDC Activities).
