

Geological Survey (USGS) National Geospatial Program (NGP) project that encourages citizen participation in volunteer map data collection activities. TNMCorps uses crowdsourcing—new technologies and internet services to georeference and update structure points and related data and share this information with others on map-based internet platforms—to produce volunteered geographic information (VGI). People participating in the crowdsourcing are considered part of the TNMCorps.

In general, the National Structures Dataset (NSD) has been populated with the best available national data. This data has been exposed for initial improvement by TNMCorps volunteers via the online Map Editor (the instrument). In addition, the data goes through a tiered-editing process, which includes peer review and advanced editors. At each stage the data is passed through an automatic “magic filter” to look for data issues before being submitted into the NSD. In addition, data goes through sampling for quality assurance procedures.

Data within the NSD is available to the USGS as well as to the public at no cost via The National Map and US Topo.

Data quality studies in 2012, 2014, and 2018 showed that the volunteers’ actions were accurate and exceeded USGS quality standards. Volunteer-collected data showed an improvement in both location and attribute accuracy for existing data points. Completeness, or the extent to which all appropriate features were identified and recorded, was also improved.

Title of Collection: The National Map Corps—Volunteered Geographic Information Project.

OMB Control Number: 1028–0111.

Form Number: None.

Type of Review: Renewal of a currently approved collection.

Respondents/Affected Public: General Public.

Total Estimated Number of Annual Respondents: 665.

Total Estimated Number of Annual Responses: 100,000.

Estimated Completion Time per Response: 12 minutes on average.

Total Estimated Number of Annual Burden Hours: 20,000 hours.

Respondent’s Obligation: Voluntary.

Frequency of Collection: on occasion.

Total Estimated Annual Nonhour Burden Cost: None.

An agency may not conduct or sponsor, nor is a person required to respond to, a collection of information unless it displays a currently valid OMB control number.

The authority for this action is the PRA (44 U.S.C. 3501 *et seq.*).

Leslie D. Hansmann,

Supervisory Cartographer, Core Science Systems, USGS.

Notice of Realty Action: Non-Competitive (Direct) Sale of Public Lands in Sweetwater County, Wyoming

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of realty action.

SUMMARY: The Bureau of Land Management (BLM) proposes a non-competitive (direct) sale of 307.5 acres of public lands in Sweetwater County, Wyoming, to PacifiCorp. The sale would allow PacifiCorp to gain ownership of the property, which is adjacent to the PacifiCorp Jim Bridger power plant and property owned by PacifiCorp. The sale would be subject to applicable provisions of the Federal Land Policy and Management Act of 1976, as amended (FLPMA), and BLM regulations. The appraised fair market value for the sale parcel is \$115,000.

DATES: Interested parties must submit written comments no later than June 3, 2024.

ADDRESSES: Mail written comments to the BLM Rock Springs Field Office, Field Manager, 280 Highway 191 N., Rock Springs, Wyoming, 82901.

FOR FURTHER INFORMATION CONTACT: Lisa Aleshire, Realty Specialist, BLM, Rock Springs Field Office, at the above address, by telephone 307–352–0238 or by email laleshire@blm.gov. Individuals in the United States who are deaf, deafblind, hard of hearing, or have a speech disability may dial 711 (TTY, TDD, or TeleBraille) to access telecommunications relay services. Individuals outside the United States should use the relay services offered within their country to make international calls to the point-of-contact in the United States. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The following public lands have been examined and found suitable for sale in accordance with criteria established in Section 203 of FLPMA:

Sixth Principal Meridian, Wyoming

T. 21 N., R. 101 W., sec. 36, E1/2NE1/4, W1/2SW1/4NE1/4SW1/4, SW1/4NW1/4NW1/4SW1/4, S1/2NW1/4SW1/4, S1/2SW1/4, E1/2SE1/4, SW1/4SE1/4.

The area described contains 307.5 acres, according to the official plat of survey of the said land on file with the BLM.

The sale of the parcel is in conformance with the BLM Rock Springs Field Office approved Green River Resource Management Plan (August 8, 1997), which identifies the parcel as suitable for disposal in Appendix 8–1.

A parcel-specific Environmental Assessment (EA) numbered DOI–BLM–WY–D040–2022–0013–EA has been conducted in connection with this sale. A copy of the EA is available online at: <https://eplanning.blm.gov/eplanning-ui/project/2016696/510>.

Regulations at 43 CFR 2711.3–3(a) allow the direct sale of public lands without competition when a competitive sale is not appropriate and the public interest would best be served by a direct sale. In this case, a competitive sale is not appropriate because the subject lands contain BLM authorized rights-of-way and improvements that directly support the Jim Bridger Power Plant owned by PacifiCorp, rendering the land unusable by the public.

Upon publication of this notice in the **Federal Register**, the public lands described above will be segregated from all forms of appropriation under the public land laws, including the mining laws, except for the sale provisions of FLPMA.

The temporary segregation will terminate upon: (1) issuance of a conveyance document, (2) publication
