

RMPA was developed with broad public participation through a two-year collaborative planning process. This ROD/CMP/RMPA addresses management along a 10-mile wide corridor crossing approximately 60 miles of public land in the planning area. El Camino Real de Tierra Adentro NHT ROD/CMP/RMPA is designed to achieve or maintain desired future conditions developed through the planning process. It includes a series of management actions to meet the desired resource conditions for the historic trail route and trail resources, including the visual resources within the trail corridor, recreation opportunities associated with the trail and other uses, energy and minerals, land and realty uses, livestock grazing, vegetation, noxious weeds, soils, water, and air quality.

The approved El Camino Real de Tierra Adentro NHT CMP/RMPA is essentially the same as the Preferred Alternative in the Proposed El Camino Real de Tierra Adentro NHT CMP/RMPA/Final Environmental Impact Statement (PCMP/FEIS), published in April 2004. BLM received no protests to the PCMP/RMPA/FEIS. No inconsistencies with State or local plans, policies, or programs were identified during the Governor consistency review of the PCMP/RMPA/FEIS. As a result, only minor editorial modifications were made in preparing the ROD/CMP/RMPA. These modifications corrected errors that were noted during review of the PCMP/RMPA/FEIS and provide further clarification for some of the decisions.
