[Docket No. 031203305-3305-01]

Privacy Act New System of Records

AGENCY: Department of Commerce.

ACTION: Notice of a New Privacy Act System of Records, COMMERCE/ITA-7, "Export.gov Community Registration".

SUMMARY: This notice announces the Department's proposal for a new system of records under the Privacy Act. The system is entitled "Export.gov Community Registration". The International Trade Administration is creating a new system of records that would enable visitors to Export.gov to register for the site in order to access specific types of market research and counseling services, and to have this basic information automatically populate web forms and registrations across the Trade Promotion Coordination Committee web domains that comprise or directly link to Export.gov. The registration database (system of records) would be accessible by other partner agencies and would act as a common, multi-agency registration database. The registrants would have the ability to opt-in to receive e-mailed updates of upcoming trade leads, trade events, new market reports, foreign standards notifications, and/or whether they wanted to be contacted for exporter assistance. This system of records is

designed to: (1) reduce the amount of time required for exporters to fill out numerous online forms and export documentation; and (2) enable exporters to opt to receive information of interest to better utilize the products and services available through the federal government.

DATES: *Comment Date:* To be considered, written comments must be submitted on or before January 16, 2004.

Effective Date: Unless comments are received, the new system of records will become effective as proposed on the date of publication of a subsequent notice in the **Federal Register**.

ADDRESSES: Comments may be mailed to Gordon Keller, U.S. Department of Commerce, International Trade Administration, Room 1850, 1401 Constitution Avenue, NW., Washington, DC 20230.

FOR FURTHER INFORMATION CONTACT: Gordon Keller at 202-482-3801.

SUPPLEMENTARY INFORMATION:

Information collected in this system of records is basic, non-proprietary business and personal contact information. No private or proprietary data will be collected and/or stored by this system.
