Animal Plant and Health Inspection Service

Title: Environmental Monitoring Form.

OMB Control Number: 0579–0117.

Summary of Collection: The mission of the Animal and Plant Health Inspection Service (APHIS) is to provide leadership in ensuring the health and care of animals and plants, to improve the agricultural productivity and competitiveness, and to contribute to the national economy and the public health. The National Environmental Policy Act (NEPA), 42 U.S.C. 4321 *et seq.*, and the regulations of the Council on Environmental Quality, which implements the procedural aspects of NEPA (40 CFR 1500–1508). APHIS' regulations require APHIS to implement environmental monitoring for certain activities conducted for pest and disease, control and eradication programs. APHIS Form 2060, Environmental Monitoring Form, will be used to collect information concerning the effects of pesticide used in sensitive habitats.

Need and Use of the Information: APHIS will collect information on the number of collected samples, description of the samples, the environmental conditions at the collection site including wind speed and direction, temperature, humidity of rainfall, and topography. The supporting information contained on the APHIS form 2060 is vital for interpreting the laboratory tests APHIS conducts on its collected samples. If a sample was not accompanied by this form APHIS would have no way of knowing from which site the sample was taken. Failure to collect this information would prevent APHIS from actively monitoring the effects of pesticides in areas where the inappropriate use of these chemicals could eventually produce disastrous results for vulnerable habitats and species.

Description of Respondents: State, Local or Tribal Government; Individuals or households; Farms.

Number of Respondents: 150.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 1,500.

Departmental Information Collection Clearance Officer.
