

DEPARTMENT OF THE INTERIOR**National Park Service****Notice of Inventory Completion: Alaska State Museum, Juneau, AK****AGENCY:** National Park Service, Interior.**ACTION:** Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains in the possession of the Alaska State Museum, Juneau, AK. The human remains were removed from Steilacoom Creek, Pierce County, WA, and from an unrecorded site probably in the vicinity of Tacoma, Pierce County, WA.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of the Native American human remains. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by Alaska State Museum professional staff, a physical anthropologist, and a medical examiner with the State of Alaska, in consultation with the Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; Nisqually Indian Tribe of the Nisqually Reservation, Washington; Puyallup Tribe of the Puyallup Reservation, Washington; and Tulalip Tribes of the Tulalip Reservation, Washington.

In 1957, two human crania representing a minimum of two individuals were donated to the Alaska Historical Library and Museum (now the Alaska State Museum), Juneau, AK, by Belle Simpson of Juneau, AK. The human remains were originally collected by Judge James Wickersham during his residence in Tacoma, WA, in 1883-1900. Museum records indicate that one cranium was removed from a canoe burial on Steilacoom Creek, Pierce County, WA, in 1892, and that the other cranium came from an unspecified location in the State of Washington. Since Judge Wickersham excavated in areas vacated as a result of the 1854 Medicine Creek Treaty, it is likely that the second cranium, listed in museum records as coming from "Washington state," also came from the area around Tacoma, and that both human remains derive from 19th-century contexts. No known individuals

were identified. No associated funerary objects are present.

Dr. Joel Irish, a physical anthropologist with the U.S. Department of Agriculture, Forest Service, examined the human remains in 1990. Both crania display an identical form of forehead flattening that was practiced by tribes of western Washington through the late 19th century. On the basis of the cranial modification exhibited by both sets of human remains, as well as other traits, Dr. Irish concluded that the human remains represented two Native American individuals.

On the basis of ethnohistorical, archeological, and geographic evidence presented at the time of consultation, the human remains are most likely affiliated with the Puyallup Tribe of the Puyallup Reservation, Washington. Archeological evidence from the area around Tacoma, WA, demonstrates a long uninterrupted occupation through the Prehistoric and Historic periods. The area where the human remains were collected falls within the historical territory of the Southern Lushootseed Salish and the Steilacoom people, who were consolidated on the Puyallup and Nisqually reservations as a result of the 1854 treaty. The present-day tribes most closely affiliated with the Southern Lushootseed Salish and the Steilacoom people are the Puyallup Tribe of the Puyallup Reservation, Washington and the Nisqually Indian Tribe of the Nisqually Reservation, Washington. The Nisqually Indian Tribe of the Nisqually Reservation, Washington supports the affiliation of the human remains to the Puyallup Tribe of the Puyallup Reservation, Washington.

Officials of the Alaska State Museum have determined that, pursuant to 25 U.S.C. 3001 (9-10), the human remains described above represent the physical remains of two individuals of Native American ancestry. Officials of the Alaska State Museum also have determined that, pursuant to 25 U.S.C. 3001 (2), there is a relationship of shared group identity that can be reasonably traced between the human remains and the Puyallup Tribe of the Puyallup Reservation, Washington.

Representatives of any other Indian tribe that believes itself to be culturally affiliated with the human remains should contact Bruce Kato, Chief Curator, Alaska State Museum, 395 Whittier Street, Juneau, AK 99801-1718, telephone (907) 465-4866, before June 2, 2003. Repatriation of the human remains to the Puyallup Tribe of the Puyallup Reservation, Washington may proceed after that date if no additional claimants come forward.

The Alaska State Museum is responsible for notifying the Muckleshoot Indian Tribe of the Muckleshoot Reservation, Washington; Nisqually Indian Tribe of the Nisqually Reservation, Washington; Puyallup Tribe of the Puyallup Reservation, Washington; and Tulalip Tribes of the Tulalip Reservation, Washington that this notice has been published.

Dated: March 20, 2003.

John Robbins,

Assistant Director, Cultural Resources.

DEPARTMENT OF THE INTERIOR**National Park Service****Notice of Inventory Completion: Bernice Pauahi Bishop Museum, Honolulu, HI****AGENCY:** National Park Service, Interior.**ACTION:** Notice.

Notice is hereby given in accordance with provisions of the Native Graves Protection and Repatriation Act, 25 U.S.C. 3003, Sec. 5, of the completion of an inventory of human remains from Moloka'i, HI, in the possession of the Bernice Pauahi Bishop Museum, Honolulu, HI.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003, Sec. 5 (d)(3). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of these human remains has been made by the Bishop Museum's professional staff in consultation with representatives from the Moloka'i Island Burial Council.

In 1952, human remains representing one individual were collected for the museum by Dr. K.P. Emory at the Makai Sink Shelter-Sand bluff area (50-Mo-B06-002; Mo site 9), Kaluakoi, Moloka'i, HI. The human remains are one human tooth. No known individual was identified. No associated funerary objects are present.

In 1952, human remains representing one individual were collected for the museum by Dr. K.P. Emory at the Mo'omomi Shelter/Kaiehu (50-Mo-B06-003; Mo Site 1), Kaluakoi, Moloka'i, HI. The human remains are one human tooth and a bag of human tooth

fragments. No known individual was identified. No associated funerary objects are present.

In 1971, human remains representing one individual were collected for the museum at the Kaupikiawa Cave (site Mo-B09-001), Kalaupapa, Moloka'i, HI. The human remains are one human tooth. No known individual was identified. No associated funerary objects are present.

Officials of the Bishop Museum have determined that, pursuant to 25 U.S.C. 3001, Sec. 2 (9) and 2 (10), the human remains listed above represent the physical remains of three individuals of Native American ancestry. Officials of the Bishop Museum also have determined that, pursuant to 25 U.S.C. 3001, Sec. 2 (2), there is a relationship of shared group identity that can be reasonably traced between these Native American human remains and associated funerary objects and the Moloka'i Island Burial Council, Hui Malama I Na Kupuna O Hawai'i Nei, and Office of Hawaiian Affairs.

Representatives of any other Native Hawaiian organization that believes itself to be culturally affiliated with these human remains should contact Dr. Guy Kaulukukui, Vice President of Cultural Studies, Bishop Museum, 1525 Bernice Street, Honolulu, HI, 96718-2704, telephone (808) 848-4126 before June 2, 2003. Repatriation of these human remains to the Moloka'i Island Burial Council, Hui Malama I Na Kupuna O Hawai'i Nei, and Office of Hawaiian Affairs may begin after that date if no additional claimants come forward.

The Bishop Museum is responsible for notifying the Moloka'i Island Burial Council, Hui Malama I Na Kupuna O Hawai'i Nei, and the Office of Hawaiian Affairs that this notice has been published.

Dated: October 8, 2002.

Robert Stearns,

Manager, National NAGPRA Program.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Intent to Repatriate Cultural Items: Bernice Pauahi Bishop Museum, Honolulu, HI

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is hereby given in accordance with provisions of the Native Graves Protection and Repatriation Act, 25

U.S.C. 3005, Sec. 7, of the intent to repatriate cultural items from Moloka'i, HI, in the possession of the Bernice Pauahi Bishop Museum, Honolulu, HI, that meet the definition of "unassociated funerary objects" under Section 2 of the Act.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003, Sec. 5 (d)(3). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these cultural items. The National Park Service is not responsible for the determinations within this notice.

In the 1890s or early 1900s, Dr. C.M. Hyde purchased a small wooden image carved into a human form for the museum. According to accession records, Dr. Hyde purchased the carved human image on the island of Moloka'i from a "native who found this idol wrapped in tapa with awa & bones of red fish in a cave." The cave is believed to have been a burial site.

In February, 1941, Jack Porteus collected a cowrie shell from Mo'omomi Sand Burials, Moloka'i, HI.

Excavation records indicate that the human remains with whom these funerary objects were associated were not collected, or were collected but are no longer within the Bishop Museum's collection.

A detailed assessment of these unassociated funerary objects was made by Bishop Museum's professional staff in consultation with representatives from the Moloka'i Island Burial Council.

Officials of the Bishop Museum have determined that, pursuant to 25 U.S.C. 3001, Sec 2 (3)(B), these two cultural items are reasonably believed to have been placed with or near individual human remains at the time of death or later as part of the death rite or ceremony and are believed, by a preponderance of the evidence, to have been removed from a specific burial site of a Native American individual.

Officials of the Bishop Museum also have determined that, pursuant to 25 U.S.C. 3001, Sec. 2 (2), there is a relationship of shared group identity that can be reasonably traced between these unassociated funerary objects and the Moloka'i Island Burial Council, Hui Malama I Na Kupuna O Hawai'i Nei, and the Office of Hawaiian Affairs.

Representatives of any other Native Hawaiian organization that believes itself to be culturally affiliated with these unassociated funerary objects should contact Dr. Guy Kaulukukui, Vice President of Cultural Studies, Bishop Museum, 1525 Bernice Street,

Honolulu, HI 96718-2704, telephone (808) 848-4126 before June 2, 2003. Repatriation of these unassociated funerary objects to the Moloka'i Island Burial Council, Hui Malama I Na Kupuna O Hawai'i Nei and Office of Hawaiian Affairs may begin after that date if no additional claimants come forward.

The Bishop Museum is responsible for notifying the Moloka'i Island Burial Council, Hui Malama I Na Kupuna O Hawai'i Nei, and Office of Hawaiian Affairs that this notice has been published.

Dated: October 8, 2002.

DEPARTMENT OF THE INTERIOR

National Park Service

Notice of Inventory Completion: Burke Museum, University of Washington, Seattle, WA

AGENCY: National Park Service, Interior.

ACTION: Notice.

Notice is here given in accordance with the Native American Graves Protection and Repatriation Act (NAGPRA), 25 U.S.C. 3003, of the completion of an inventory of human remains and associated funerary objects in the possession of the Burke Museum, University of Washington, Seattle, WA. The human remains and associated funerary objects were removed from the Fort Rock Valley area, Lake County, OR.

This notice is published as part of the National Park Service's administrative responsibilities under NAGPRA, 25 U.S.C. 3003 (d)(3). The determinations within this notice are the sole responsibility of the museum, institution, or Federal agency that has control of these Native American human remains and associated funerary objects. The National Park Service is not responsible for the determinations within this notice.

A detailed assessment of the human remains was made by the Burke Museum professional staff in consultation with representatives of the Burns Paiute Tribe of the Burns Paiute Indian Colony of Oregon, Confederated Tribes of the Warm Springs Reservation of Oregon, Klamath Indian Tribe of Oregon, and Modoc Tribe of Oklahoma.

Between 1971 and 1972, human remains representing a minimum of one adult individual were removed by Dr. Harold G. Bergen from a site in Lake
