On March 29, 2022, Ampersand Gilman Hydro, LP filed a relicense application for the 4.95-megawatt Gilman Hydroelectric Project No. 2392 (project). The project is located on the Connecticut River and straddles the Village of Gilman, within the Town of

Lunenburg, Essex County, Vermont, and the Town of Dalton, Coos County, New Hampshire.

In accordance with the Commission's regulations, on November 27, 2024, Commission staff issued a notice that the project was ready for environmental analysis (REA notice). The EA will be issued and circulated for review by all interested parties. All comments filed on the EA will be analyzed by staff and considered in the Commission's final licensing decision.

The Commission's Office of Public Participation (OPP) supports meaningful public engagement and participation in Commission proceedings. For public inquiries and assistance with making filings such as interventions, comments, or requests for rehearing, the public is encouraged to contact OPP at (202) 502-6595 or OPP@ferc.gov.

The application will be processed according to the following schedule. The EA will be issued for a 30-day comment period. Revisions to the schedule may be made as appropriate.
