This proposed sale will contribute to the foreign policy and national security of the United States by helping to improve the security of a friendly country. This proposed sale directly supports the Iraqi government and serves the interests of the Iraqi people and the United States.

This proposed sale of Ground Based Air Defense Systems will help the Government of Iraq to modernize its armed forces. The proposed air defense system will provide the Iraqi Air Defense Command situational awareness of the country's airspace and a baseline tactical radar and threat intercept capability. This capability will provide Iraq with the ability to contribute to regional air defenses and reduce its vulnerability to air attacks and also enhance interoperability between the Government of Iraq, the U.S., and other allies.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractors involved in this program are: Lockheed Martin Corporation, San Diego, California; Thales Raytheon Systems, Fullerton, California; Boeing Company and American General, Letterkenny Army

Depot, Chambersburg, Pennsylvania; Raytheon Integrated Defense Systems, Andover, Massachusetts; Northrop Grumman, Rolling Meadows, Illinois; and Kratos Defense and Aerospace, Huntsville, Alabama. There are no known offset agreements proposed in connection with this potential sale.

Implementation of this proposed sale will require 20–25 U.S. Government or contractor representatives to travel to Iraq for a period of 8–10 weeks for equipment checkout and training.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.
