

(A) Inspection of and Certification Records for Cranes (§ 1910.180(d)(4), (6))

Paragraph 1910.180(d) specifies that employers must prepare a written record to certify that the monthly inspection of critical items in use on cranes (such as brakes, crane hooks, and ropes) has been performed. The certification record must include the inspection date, the signature of the person who conducted the inspection, and the serial number (or other identifier) of the inspected crane. Employers must keep the certificate readily available. The certification record provides employers, workers, and OSHA compliance officers with assurance that critical items on cranes have been inspected, and that the equipment is in good operating condition so that the crane and rope will not fail during material handling. These records also enable OSHA to determine that an employer is complying with the Standard.

(B) Rated Load Tests (§ 1910.180(e)(2))

This provision requires employers to make available written reports of load-rating tests showing test procedures and confirming the adequacy of repairs or alterations, and to make readily available any rerating test reports. These reports inform the employer, workers, and OSHA compliance officers of a crane's lifting limitations, and provide information to crane operators to prevent them from exceeding these limits and thereby causing crane failure.

(C) Inspection and Certification Records for Ropes (§ 1910.180(g)(1), (g)(2)(ii))

Paragraph (g)(1) requires employers to thoroughly inspect any rope in use at least once a month. The authorized person conducting the inspection must observe any deterioration resulting in appreciable loss of original strength and determine whether or not the condition is hazardous. Before reusing a rope that has not been used for at least a month because the crane housing the rope is shut down or in storage, paragraph (g)(2)(ii) specifies that employers must have an appointed or authorized person inspect the rope for all types of deterioration. Employers must prepare a certification record for the inspections required by paragraphs (g)(1) and (g)(2)(ii). These certification records must include the inspection date, the signature of the person conducting the inspection, and the identifier for the inspected rope; paragraph (g)(1) states that employers must keep the certificates "on file where readily available," while paragraph (g)(2)(ii)

requires that certificates "be . . . kept readily available." The certification records assure employers, workers, and OSHA that the inspected ropes are in good condition.

II. Special Issues for Comment

OSHA has a particular interest in comments on the following issues:

- Whether the proposed information collection requirements are necessary for the proper performance of the agency's functions to protect workers, including whether the information is useful;
- The accuracy of OSHA's estimate of the burden (time and costs) of the information collection requirements, including the validity of the methodology and assumptions used;
- The quality, utility, and clarity of the information collected; and
- Ways to minimize the burden on employers who must comply; for example, by using automated or other technological information collection, and transmission techniques.

III. Proposed Actions

OSHA is requesting that OMB extend the approval of the information collection requirements contained in the Standard on Crawler, Locomotive, and Truck Cranes. The agency is requesting a burden hour adjustment decrease of 1,872 hours, from 30,511 hours to 28,639 hours. This decrease is due to the decrease in operational cranes used for general industry purposes.

OSHA will summarize the comments submitted in response to this notice and will include this summary in the request to OMB to extend the approval of the information collection requirements.

Type of Review: Extension of a currently approved collection.

Title: Crawler, Locomotive, and Truck Cranes Standard.

OMB Control Number: 1218–0221.

Affected Public: Business or other for-profits.

Number of Respondents: 3,399.

Number of Responses: 78,584.

Frequency of Responses: On occasion.

Average Time per Response: Varies.

Estimated Total Burden Hours: 29,639.

Estimated Cost (Operation and Maintenance): \$0.

- I. Introduction
- II. Docketed Proceeding(s)

I. Introduction

The Commission gives notice that the Postal Service filed request(s) for the Commission to consider matters related to negotiated service agreement(s). The request(s) may propose the addition or removal of a negotiated service agreement from the Market Dominant or the Competitive product list, or the modification of an existing product currently appearing on the Market Dominant or the Competitive product list.

Section II identifies the docket number(s) associated with each Postal Service request, the title of each Postal Service request, the request's acceptance date, and the authority cited by the Postal Service for each request. For each request, the Commission appoints an officer of the Commission to represent the interests of the general public in the proceeding, pursuant to 39 U.S.C. 505 (Public Representative). Section II also establishes comment deadline(s) pertaining to each request.

The public portions of the Postal Service's request(s) can be accessed via the Commission's website (<http://www.prc.gov>). Non-public portions of the Postal Service's request(s), if any, can be accessed through compliance
