### Federal Energy Regulatory Commission

[Docket No. CP17-14-000]

#### UGI LNG, Inc.; Notice of Request for Extension of Time

Take notice that on September 21, 2020, and amended on September 24, 2020, UGI LNG, Inc. (UGI) requested that the Federal Energy Regulatory Commission (Commission) grant an extension of time, until June 21, 2021, to complete construction of its Temple Truck Rack Expansion Project (Project) at its Temple liquefied natural gas (LNG) storage facility located in Ontelaunee Township, Berks County, Pennsylvania, as authorized in the October 18, 2018 Order Issuing Certificate (Certificate Order).<sup>1</sup> Ordering Paragraph B(1) of the Certificate Order required UGI to complete the construction of the proposed Project

facilities and make them available for service within one year from of issuance, or by October 18, 2019.<sup>2</sup>

UGI states that it submitted its Implementation Plan for the Project in January 2019, but was unable to request notice to proceed with project construction activities until late June of 2019, as the Commission's Division of LNG Facility Review & Inspection required UGI LNG to submit a significant amount of additional information via phone calls and in-person meetings before work could begin on the Project. After submitting its initial request for notice to proceed, UGI submitted supplemental requests for notices to proceed and supplements to its Implementation Plan on July 10, August 16, and September 5, 2019. UGI LNG was granted full authorization to proceed with construction activities on September 18, 2019. In March 2020, UGI stopped work on the Project due to the Novel Coronavirus Disease (COVID-19) pandemic.

UGI states that it intended to request to extend its certificate authorization prior to October 18, 2019, but failed to do so due to an internal administrative oversight. UGI now belatedly requests an additional nine months, or until June 21, 2020, to complete the authorized construction of the Project facilities and make facilities available for service.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on UGI's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (18 CFR 157.10).<sup>3</sup>

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for Natural Gas Act facilities when such requests are contested before order issuance. For those extension requests that are contested,<sup>4</sup> the Commission will aim to issue an order acting on the request

within 45 days.<sup>5</sup> The Commission will address all arguments relating to whether the applicant has demonstrated there is good cause to grant the extension.<sup>6</sup>

The Commission will not consider arguments that re-litigate the issuance of the April 15th Certificate order, including whether the Commission properly found the project to be in the public convenience and necessity and whether the Commission's environmental analysis for the certificate complied with the National Environmental Policy Act.<sup>7</sup> At the time a pipeline requests an extension of time, orders on certificates of public convenience and necessity are final and the Commission will not re-litigate their issuance.<sup>8</sup> The OEP Director, or his or her designee, will act on those extension requests that are uncontested.

### Federal Energy Regulatory Commission

[Docket No. RM98–1–000]

#### Records Governing Off-the-Record Communications; Public Notice

This constitutes notice, in accordance with 18 CFR 385.2201(b), of the receipt of prohibited and exempt off-the-record communications.

Order No. 607 (64 FR 51222, September 22, 1999) requires Commission decisional employees, who make or receive a prohibited or exempt off-the-record communication relevant to the merits of a contested proceeding, to deliver to the Secretary of the Commission, a copy of the

communication, if written, or a summary of the substance of any oral communication.

Prohibited communications are included in a public, non-decisional file associated with, but not a part of, the decisional record of the proceeding. Unless the Commission determines that the prohibited communication and any responses thereto should become a part of the decisional record, the prohibited off-the-record communication will not be considered by the Commission in reaching its decision. Parties to a proceeding may seek the opportunity to respond to any facts or contentions made in a prohibited off-the-record communication and may request that the Commission place the prohibited communication and responses thereto in the decisional record. The Commission will grant such a request only when it determines that fairness so requires. Any person identified below as having made a prohibited off-the-record communication shall serve the document on all parties listed on the official service list for the applicable

proceeding in accordance with Rule 2010, 18 CFR 385.2010.

Exempt off-the-record communications are included in the decisional record of the proceeding, unless the communication was with a cooperating agency as described by 40 CFR 1501.6, made under 18 CFR 385.2201(e)(1)(v).

The following is a list of off-the-record communications recently received by the Secretary of the Commission. The communications listed are grouped by docket numbers in ascending order. These filings are available for electronic review at the Commission in the Public Reference Room or may be viewed on the Commission's website at <http://www.ferc.gov> using the eLibrary link. ## ENVIRONMENTAL PROTECTION AGENCY

[EPA–HQ–OPP–2016–0093; FRL–10015–11]

### Pesticides; Draft Guidance for Waiving Acute Dermal Toxicity Tests for Pesticide Technical Chemicals and Supporting Retrospective Analysis; Notice of Availability and Request for Comment

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The Environmental Protection Agency (EPA) is announcing the availability of and seeking public comment on a draft guidance document entitled “Guidance for Waiving Acute Dermal Toxicity Tests for Pesticide Technical Chemicals & Supporting Retrospective Analysis.” Guidance documents are issued by the Office of Pesticide Programs (OPP) to inform

pesticide registrants and other interested persons about important policies, procedures, and registration related decisions, and serve to provide guidance to pesticide registrants and OPP personnel. This draft guidance document provides information to pesticide registrants concerning the Agency's consideration to expand the potential for data waivers for acute dermal studies to single technical active ingredients (technical AIs) used to formulate end use products. The reasoning and analysis in this dermal waiver guidance for technical active ingredients is similar to what was presented in the 2016 guidance for end-use products. While more acute toxicity studies are submitted to OPP annually for formulated pesticide products than for technical AIs, there is still the potential for animal and resource savings from waivers for acute toxicity studies.

**DATES:** Comments must be received on or before November 9, 2020.

**ADDRESSES:** Submit your comments, identified by docket identification (ID) number EPA–HQ–OPP–2016–0093, though the Federal eRulemaking Portal at <http://www.regulations.gov>. Follow

the online instructions for submitting comments. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.
