(MCSC) in three TRICARE regions within the United States (North, West, and South) and three regions internationally (Europe, Pacific and Latin America). The survey will obtain provider opinions regarding claims processing, customer service, and administrative support by the TRICARE regional contractors. The reports of findings from these surveys, coupled with performance criteria from other sources, will be used by the TRICARE Regional Administrative Contracting Officers to determine award fees.

Affected Public: Individuals or households; businesses or other for-profit; not for-profit institutions.

The Defense Health Cost Assessment & Program Evaluation (DHCAPE) Office under the authority of the Office of the Assistant Secretary of Defense (Health Affairs)/Defense Health Agency will undertake a survey of TRICARE network providers to ask a series of questions regarding satisfaction with the TRICARE Health Plan. For these purposes, a provider is defined as a person, business, or institution that provides health care. For example, a doctor, hospital, or ambulance company is a provider. Providers must be authorized under TRICARE regulations and have their status certified by the regional contractors to provide services to TRICARE beneficiaries.

Defense Health Agency (DHA), the Defense Department activity that administers the health care plan for the uniformed services, retirees and their families, serves more than 9.6 million eligible beneficiaries worldwide in the Military Health System. TRICARE supplements the health care resources of the uniformed services with networks of civilian professionals to provide high-quality health care services while maintaining the capability to support military operations. DHA has partnered with civilian regional contractors in the three U.S. and three international regions to provide these health care services and support to beneficiaries.

DOD has delegated oversight of the civilian provider network to the TRICARE Regional Offices. To improve DOD's oversight of the civilian provider network, GAO (Defense Health Care: Oversight of the Tricare Civilian Provider Network Should Be Improved; GAO-03-928; July 31, 2003) has recommended the Assistant Secretary of Defense for Health Affairs to explore options for improving the civilian
