Title: NESHAP for Plastic Parts and Products Surface Coating (Renewal).

ICR Numbers: EPA ICR Number 2044.05, OMB Control Number 2060-0537.

ICR Status: This ICR is scheduled to expire on June 30, 2013. Under OMB regulations, the Agency may continue either to conduct or sponsor the collection of information while this submission is pending at OMB.

Abstract: The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the

Provisions specified at 40 CFR part 63, subpart PPPP. Owners or operators of the affected facilities must submit an initial notification report, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

Burden Statement: The annual public reporting and recordkeeping burden for this collection of information is estimated to average 91 hours per response. "Burden" means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously-applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

Respondents/Affected Entities: Plastic parts and products surface coating facilities.

Estimated Number of Respondents: 832.

Frequency of Response: Initially, occasionally, and semiannually.

Estimated Total Annual Hour Burden: 322,467.

Estimated Total Annual Cost: \$31,489,594, which includes \$31,223,994 in labor costs, \$16,000 in capital/startup costs, and \$249,600 in operation and maintenance (O&M) costs.

Changes in the Estimates: There is an increase in the total estimated burden as currently identified in the OMB Inventory of Approved Burdens. The adjustment increase in burden from the most-recently approved ICR is due to an increase in the number of sources subject to the NESHAP, as well as to an adjustment increase in labor rates. This ICR uses the most recent labor rates in calculating all burden costs. The growth in the respondent universe also results

in a corresponding increase in the total O&M costs.

Director, Collection Strategies Division.
