

extent possible. The most important of these rules imposes responsibility on the interfering carriers to remedy interference in a timely manner.

In the long-term, the Commission concluded that the entire 800 MHz band must be restructured. Band restructuring or reconfiguration refers to spectrally segregating public safety and ESMR operators as far as technically possible. To this end, Nextel Communications Inc. (Nextel) will secure a \$2.5 billion letter (letters) of credit to pay for band reconfiguration. Without Nextel's support, public safety licensees could not afford the costs of relocating their systems. This information collection includes the following requirements: (1) Prior notification; (2) electronic database; (3) response to interference complaints; (4) clear and imminent danger; (5) relocation agreements; and (6) Transition Administrator.

The information collection requirements and third party disclosure requirements will be used by the Commission to ensure that Cellular/ESMR, Public Safety, Critical Infrastructure Industry (CII), and other 800 MHz licensees comply with interference mitigation and frequency relocation requirements in an orderly, timely, comprehensive fashion with no unnecessary delay.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

BILLING CODE 6712-01-P

FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collection(s) Being Reviewed by the Federal Communications Commission for Extension Under Delegated Authority

June 3, 2005.

SUMMARY: The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following information collection(s), as required by the Paperwork Reduction Act (PRA) of 1995, Pub. L. No. 104-13. An agency may not conduct or sponsor a collection of information unless it displays a currently valid control number. No person shall be subject to any penalty for failing to comply with a collection of information subject to the Paperwork Reduction Act that does not display a valid control number. Comments are requested concerning (a)

Whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimate; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

DATES: Written Paperwork Reduction Act (PRA) comments should be submitted on or before August 15, 2005. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

ADDRESSES: Direct all Paperwork Reduction Act (PRA) comments to Cathy Williams, Federal Communications Commission, Room 1-C823, 445 12th Street, SW., Washington, DC 20554 or via the Internet to pra@fcc.gov.

FOR FURTHER INFORMATION CONTACT: For additional information or copies of the information collection(s), contact Cathy Williams at (202) 418-2918 or via the Internet at pra@fcc.gov.

SUPPLEMENTARY INFORMATION:

OMB Control Number: 3060-0707.

Title: Over-the-Air Reception Devices (OTARD).

Form Number: Not applicable.

Type of Review: Extension of a currently approved collection.

Respondents: State, local or tribal government.

Number of Respondents: 60.

Estimated Time per Response: 2-6 hours.

Frequency of Response: On occasion reporting requirement; Third party disclosure requirement.

Total Annual Burden: 224 hours.

Total Annual Cost: \$9,050.

Privacy Impact Assessment: No impact(s).

Needs and Uses: Petitions for waivers of Section 207 rules are used by the Commission to determine whether the state, local or non-governmental regulation or restriction is unique in a way that justifies waiver of our rules prohibiting restrictions to the use of the over-the-air reception devices.

Federal Communications Commission.

Marlene H. Dortch,

Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[WT Docket No. 02-55; DA 05-1546]

NPSAC Regions Assigned to Wave 1 and Specific 800 MHz Reconfiguration Benchmark Compliance Dates

AGENCY: Federal Communications Commission.

ACTION: Notice.

SUMMARY: As part of the 800 MHz band reconfiguration process, the Commission stated that it would issue a public notice thirty days before reconfiguration is scheduled to start in each NPSAC region. Each such public notice will specify a three-month voluntary negotiation period during which time identified licensees in the regions being reconfigured are encouraged to reach agreement with Nextel on the details of relocating. The voluntary negotiation period would be followed by a three-month mandatory negotiation period, if necessary. The Commission also stated that it would freeze the filing of certain 800 MHz applications for the regions being reconfigured when it issued a public notice announcing the date when voluntary negotiation of relocation agreements must be concluded. The Commission explained that this freeze is necessary in order to maintain a stable spectral landscape during the reconfiguration process in each region. Finally, the Commission noted that the start date for reconfiguration in the first NPSAC region will also be the start date for computation of two interim reconfiguration benchmarks (eighteen and thirty months) and the start date for determining when reconfiguration must be completed (thirty-six months).

DATES: This notice announces that 800 MHz band reconfiguration shall commence on June 27, 2005.

FOR FURTHER INFORMATION CONTACT:

Roberto Mussenden,
Roberto.Mussenden@FCC.gov, Public Safety and Critical Infrastructure Division, Wireless Telecommunications Bureau, (202) 418-0680, TTY (202) 418-7233.

SUPPLEMENTARY INFORMATION: This is a summary of a public notice released on May 27, 2005.

1. In July 2004, the Federal Communications Commission (FCC) adopted a *Report and Order* (69 FR 67823, November 22, 2004), which reconfigured the 800 MHz band to eliminate interference to public safety and other land mobile communication systems operating in the band. As specified in the *Report and Order*, the
