ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OECA-2005-0062; FRL-9534-6]

Information Collection Request Submitted to OMB for Review and Approval; Comment Request: Procedures for Implementing the National Environmental Policy Act and Assessing the Environmental Effects Abroad of EPA Actions (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency has submitted an information

collection request (ICR), "40 CFR Part 6: Procedures for Implementing the National Environmental Policy Act and Assessing the Environmental Effects Abroad of EPA Actions" (EPA ICR No. 2243.07, OMB Control No. 2020-0033) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*). This is a proposed extension of the ICR, which is currently approved through August 31, 2013. Public comments were previously requested via the **Federal Register** (78 FR 12308) on February 22, 2013 during a 60-day comment period. This notice allows for an additional 30 days for public comments. A fuller description of the ICR is given below, including its estimated burden and cost to the public. An Agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

DATES: Additional comments may be submitted on or before August 21, 2013.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OECA-2005-0062, to (1) EPA online using www.regulations.gov (our preferred method) or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW., Washington, DC 20460, and (2) OMB via email to oira_submission@omb.eop.gov. Address comments to OMB Desk Officer for EPA.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Abstract: The National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321-4347 establishes a national policy for the environment. The Council on Environmental Quality (CEQ) oversees the NEPA implementation. CEQ's Regulations at 40 CFR parts 1500 through 1508 set the standard for NEPA compliance. They also require agencies to establish their own NEPA implementing procedures. EPA's procedures for implementing NEPA are found in 40 CFR Part 6. Through this part, EPA adopted the CEQ Regulations and supplemented those regulations for actions by EPA that are subject to NEPA requirements. EPA actions subject to NEPA include the award of wastewater treatment construction grants under Title II of the Clean Water Act, EPA's issuance of new source National Pollutant Discharge Elimination System (NPDES) permits under section 402 of the Clean Water Act, certain research and development projects, development and issuance of regulations, EPA actions involving renovations or new construction of facilities, and certain grants awarded for projects authorized by Congress through the Agency's annual Appropriations Act. EPA is collecting information from certain applicants as part of the process of complying with either NEPA or Executive Order 12114 ("Environmental Effects Abroad of Major Federal Actions"). EPA's NEPA regulations apply to the actions of EPA that are subject to NEPA in order to ensure that environmental information is available to the Agency's decision-makers and the public before decisions are made and before actions are taken. When EPA conducts an environmental assessment pursuant to its Executive Order 12114 procedures, the Agency generally follows its NEPA procedures. Compliance with the procedures is the responsibility of EPA's Responsible Officials, and for applicant proposed actions applicants may be required to provide environmental information to EPA as part of the environmental review process. For this Information Collection Request (ICR), applicant-proposed projects subject to either NEPA or Executive Order 12114 (and that are not addressed in other EPA programs' ICRs) are addressed through the NEPA process.

Form Numbers: None.

Respondents/affected entities: Entities potentially affected by this action are certain grant or permit applicants who must submit environmental information documentation to EPA for their projects to comply with NEPA or Executive

Order 12114, including Wastewater Treatment Construction Grants Program facilities, State and Tribal Assistance Grant recipients and new source National Pollutant Discharge Elimination System permittees.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 312 (total).

Frequency of response: On occasion.

Total estimated burden: 38,472 hours (per year). Burden is defined at 5 CFR 1320.3(b).

Total estimated cost: \$3,607,085 (per year), includes \$8,452 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is no change in the total estimated respondent burden compared with the ICR currently approved by OMB. However, a slight increase to the estimated O&M costs has occurred related to CE documentation and have been adjusted in the renewal ICR based on inflationary changes.

Director, Collection Strategies Division.

Abstract: The affected entities are subject to the General Provisions of the NESHP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart YYYYY.

Owners or operators of the affected facilities must submit an initial notification report, performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is

inoperative. Reports are required semiannually at a minimum.

Form Numbers: None.

Respondents/affected entities: Stationary combustion turbines.

Respondent's obligation to respond: Mandatory (63 CFR part 63, subpart YYYYY).

Estimated number of respondents: 105 (rounded).

Frequency of response: Initially, annually, and semiannually.

Total estimated burden: 1,338 hours (per year). "Burden" is defined at 5 CFR 1320.3(b).

Total estimated cost: \$165,056 (per year), includes \$10,750 annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 903 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This increase is due to several adjustments, which are stated below:

First, we have revised the number of respondents to make ICR estimates consistent with the economic impact analysis, which contains the most recent information on existing and new sources. Based on the analysis, an average of 96 existing and 8.7 new sources per year will be subject to the standard. By contrast, the most recently approved ICR estimated 22 existing and 9 new sources per year, and did not provide a clear basis for its estimates and underlying assumptions. The increase in labor burden and cost for both respondents and the Agency is primarily due to the revised number of sources, particularly existing sources which accounts for industry growth.

Second, we have revised both respondent and Agency labor burdens and costs so that they accurately reflect the reporting and recordkeeping requirements associated with each subcategory. The previous ICR only reflected burdens attributed to new sources in the gas-fired and oil-fired subcategories, and did not account for any sources in the landfill/digester gas-fired subcategory.

Finally, there is an increase in the capital/startup cost as compared to the previous ICR. This increase is the result of including contractor labor associated with catalyst inlet temperature monitor installation. This labor was presented in the previous ICR as a respondent burden rather than a capital cost. Since the contractor labor applies solely to a capital/startup activity, it should be presented it as a capital/startup cost rather than a respondent burden. We
