

small relative to the relevant stocks (*e.g.*, less than one-third the abundance of all stocks). The mitigation measures and monitoring and reporting requirements as described above are substantially similar to those required through the initial IHA, although some shutdown zones for Otariids have undergone slight revisions due to the Updated 2024 Technical Guidance. The abundance of a single species (OR/WA coast stock of harbor seals) has also changed since the initial IHA, but none of this new information affects NMFS' determinations supporting issuance of the initial IHA. The piles planned to be driven in the subset of work and any minor changes described above do not affect the least practicable adverse impact determinations.

NMFS has concluded that there is no new information suggesting that our analysis or findings should change from those reached for the initial IHA. Based on the information and analysis contained here and in the referenced documents, NMFS has determined the following: (1) the required mitigation measures will effect the least practicable impact on marine mammal species or stocks and their habitat; (2) the authorized takes will have a negligible impact on the affected marine mammal species or stocks; (3) the authorized takes represent small numbers of marine mammals relative to the affected stock abundances; (4) the Port's activities will not have an unmitigable adverse impact on taking for subsistence purposes as no relevant subsistence uses of marine mammals are implicated by this action, and; (5) appropriate monitoring and reporting requirements are included.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216-6A, NMFS must review our proposed action (*i.e.*, the issuance of a renewal IHA) with respect to potential impacts on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (incidental take authorizations with no anticipated serious injury or mortality) of the Companion Manual for NOAA Administrative Order 216-6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS determined that the issuance of the initial IHA qualified to be categorically

excluded from further NEPA review. NMFS has determined that the application of this categorical exclusion remains appropriate for this renewal IHA.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA; 16 U.S.C. 1531 *et seq.*) requires that each Federal agency ensure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally whenever we propose to authorize take for endangered or threatened species.

No incidental take of ESA-listed species is authorized or expected to result from this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required.

Renewal

NMFS has issued a renewal IHA to the Port of Grays Harbor for the take of marine mammals incidental to conducting construction activities as part of the T4 Expansion and Redevelopment Project at the Port of Grays Harbor, Washington from the date of issuance through July 15, 2026.

Dated: July 25, 2025.

Kimberly Damon-Randall,

*Director, Office of Protected Resources,
National Marine Fisheries Service.*

BILLING CODE 3510-22-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

[RTID 0648-XF047]

Fisheries of the Gulf of America; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 100 Data Workshop for Gulf Gray Triggerfish.

SUMMARY: The SEDAR 100 assessment process of Gulf gray triggerfish will consist of a Data Workshop, a series of assessment webinars, and a Review Workshop. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 100 Data Workshop will be held from 9 a.m. on August 19, 2025, until 1 p.m. on August 22, 2025.

ADDRESSES:

Meeting address: The SEDAR 100 Data Workshop will be held at the Hilton Tampa Airport Westshore, 2225 N Lois Avenue, Tampa, FL 33607. Plenary sessions held during the workshop will be live streamed for listening purposes only. Registration is available <https://sedarweb.org>.

The established times may be adjusted as necessary to accommodate the timely completion of discussion relevant to the assessment process. Such adjustments may result in the meeting being extended from or completed prior to the time established by this notice.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Julie A. Neer, SEDAR Coordinator; (843) 571-4366. Email: Julie.neer@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with the National Marine Fisheries Service and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data/Assessment Workshop, and (2) a series of webinars. The product of the Data and Assessment Workshops is a report which compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses, and describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. Participants for SEDAR Workshops are appointed by the Gulf, South Atlantic, and Caribbean Fishery Management Councils and National Marine Fisheries Service Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion in the Data Workshop are as follows:

An assessment data set and associated documentation will be developed

during the workshop. Participants will evaluate proposed data and select appropriate sources for providing information on topics such as life history characteristics, catch statistics, discard estimates, length and age composition, and fishery dependent and fishery independent measures of stock abundance.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: July 28, 2025.

Key Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

BILLING CODE 3510-22-P

DEPARTMENT OF ENERGY

Agency Information Collection Extension

AGENCY: U.S. Department of Energy.

ACTION: Notice of request for comments.

SUMMARY: The Department of Energy (DOE) invites public comments on a proposed collection of information that DOE is developing for submission to the Office of Management and Budget (OMB) pursuant to the Paperwork Reduction Act of 1995.

DATES: Comments regarding this proposed information collection must be received on or before September 29, 2025. If you anticipate any difficulty in submitting comments within that period, contact the person listed in the **FOR FURTHER INFORMATION CONTACT** section as soon as possible.

ADDRESSES: Written comments may be sent to Jeremy Simpson, 1000

Independence Avenue SW, Washington, DC 20585, or by email at Jeremy.simpson@ee.doe.gov.

FOR FURTHER INFORMATION CONTACT: Jeremy Simpson, Office of Integrated Strategies, (240) 446-0003, Jeremy.simpson@ee.doe.gov.

SUPPLEMENTARY INFORMATION: Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

This information collection request contains:

(1) *OMB No.:* 1910-NEW;

(2) *Information Collection Request*

Title: EERE Small Businesses and Startups Impact Evaluation Data Collection.

(3) *Type of Request:* New.

(4) *Purpose:* The information collected through this effort is needed as an input to an evaluation study that will produce an analysis of the impact EERE's funding has had on small businesses between 2008 and 2024. The results of this evaluation study will be used by DOE leadership to understand the impact to date and opportunities for improvement in financial awards provided to small businesses. Respondents to this data collection effort will small businesses and startup companies that have applied for financial assistance, SBIR/STTR grants and prize funding from EERE between 2008 and 2024, and will include both award recipients and applicants who did not receive funding. This is planned to be a one-time data collection effort.

(5) *Annual Estimated Number of Respondents:* 9,000;

(6) *Annual Estimated Number of Total Responses:* 9,000;

(7) *Annual Estimated Number of Burden Hours:* 13,500;

(8) *Annual Estimated Reporting and Recordkeeping Cost Burden:* \$751,275.

Statutory Authority: Foundations for Evidence-based Policymaking Act of 2018 (Pub. L. 115-435; Jan. 14, 2019).

Signing Authority

This document of the Department of Energy was signed on July 25, 2025, by

Lou Hrkman, Principal Deputy Assistant Secretary of the Office of Energy Efficiency and Renewable Energy, pursuant to delegated authority from the Secretary of Energy. That document with the original signature and date is maintained by DOE. For administrative purposes only, and in compliance with requirements of the Office of the Federal Register, the undersigned DOE Federal Register Liaison Officer has been authorized to sign and submit the document in electronic format for publication, as an official document of the Department of Energy. This administrative process in no way alters the legal effect of this document upon publication in the **Federal Register**.

Signed in Washington, DC on July 25, 2025.

Treena V. Garrett,

Federal Register Liaison Officer, U.S. Department of Energy.

BILLING CODE 6450-01-P

DEPARTMENT OF ENERGY

Environmental Management Site-Specific Advisory Board, Nevada

AGENCY: Office of Environmental Management, Department of Energy.

ACTION: Notice of open meeting.

SUMMARY: This notice announces an in-person/virtual meeting of the Environmental Management Site-Specific Advisory Board (EM SSAB), Nevada. The Federal Advisory Committee Act requires that public notice of this meeting be announced in the **Federal Register**.

DATES: Wednesday, September 10, 2025; 4-8:45 p.m. PDT.

ADDRESSES: Molasky Corporate Center, 15th Floor Conference Room, 100 North City Parkway, Las Vegas, Nevada 89106. This meeting will be held in-person at the Molasky Corporate Center and virtually. To receive the virtual access information, please contact the Nevada Site Specific Advisory Board (NSSAB) Administrator at the telephone number or email listed below at least two days prior to the meeting.

FOR FURTHER INFORMATION CONTACT: Barbara Ulmer, NSSAB Administrator, NSSAB Office, by phone: 702-523-0894 or email: nssab@emcbc.doe.gov.

SUPPLEMENTARY INFORMATION:

Purpose of the Board: The purpose of the Board is to provide advice and recommendations concerning the following EM site-specific issues: clean-up activities and environmental restoration; waste and nuclear materials
