Approval and Promulgation of Implementation Plans and Operating Permits Program; State of Missouri

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed action.

SUMMARY: EPA proposes to approve a revision to the Missouri State Implementation Plan (SIP) and Operating Permits Program. This revision pertains to the state's part 70 operating permits rule. Approval of this revision will ensure consistency between the state and Federally-approved rules, and ensure Federal enforceability of the state's air program rule revision.

In the final rules section of the **Federal Register**, EPA is approving the

state's submittal as a direct final rule without prior proposal because the Agency views this as a noncontroversial revision amendment and anticipates no relevant adverse comments to this action. A detailed rationale for the approval is set forth in the direct final rule. If no relevant adverse comments are received in response to this action, no further activity is contemplated in relation to this action. If EPA receives relevant adverse comments, the direct final rule will be withdrawn and all public comments received will be addressed in a subsequent final rule based on this proposed action. EPA will not institute a second comment period on this action. Any parties interested in commenting on this action should do so at this time.

DATES: Comments on this proposed action must be received in writing by September 27, 2002.
