

management objectives, such carryover adjustments may be apportioned to fishing categories and/or to the reserve. Any adjustments to the 12-month directed fishery quota will be apportioned equally between the two semiannual fishing seasons. NMFS will file with the Office of the Federal Register for publication notification of any adjustment or apportionment made under this paragraph (c)(3)(ii).

(iii) The dressed weight equivalent of the amount by which dead discards exceed the allowance specified at paragraph (c)(1)(i)(C) of this section shall be subtracted from the landings quota in the following fishing year or from the reserve category. NMFS will file with the Office of the Federal Register for publication notification of any adjustment made under this paragraph (c)(3)(iii).

4. Section 635.45 is revised to read as follows:

§ 635.45 Products denied entry.

(a) All shipments of Atlantic swordfish, or its products, in any form, harvested by a vessel under the jurisdiction of Belize or Honduras will be denied entry into the United States.

(b) All shipments of Atlantic bluefin tuna, or its products, in any form, harvested by a vessel under the jurisdiction of Belize, Honduras, or Equatorial Guinea will be denied entry into the United States.

(c) All shipments of Atlantic bigeye tuna, or its products, in any form, harvested by a vessel under the jurisdiction of Belize, Cambodia, Equatorial Guinea, or St. Vincent and the Grenadines will be denied entry into the United States. It is a rebuttable presumption that any shipment containing bigeye tuna or its products offered for entry or imported into the United States has been harvested by a vessel or vessels of the exporting nation.

5. Section 635.47 is revised to read as follows:

§ 635.47 Ports of entry.

NMFS shall monitor imported shipments of bluefin tuna, bigeye tuna, and swordfish into the United States. If NMFS determines that the diversity of handling practices at certain ports at which any of these species is being imported into the United States allows for circumvention of the bluefin tuna statistical document, swordfish Certificate of Eligibility requirements, or trade restrictions for these species or for Atlantic bigeye tuna, NMFS may designate, after consultation with the U.S. Customs Service, those ports at which these species may be lawfully imported into the United States. NMFS

shall announce the names of such designated ports and the effective dates of entry restrictions through publication of a notice in the **Federal Register**.

6. In § 635.71, paragraphs (a)(24) and (a)(29) are revised, and a new paragraph (a)(38) is added, to read as follows:

§ 635.71 Prohibitions.

* * * * *

(a) * * *

(24) Import, or attempt to import, any fish or fish products regulated under this part in a manner contrary to any import requirements or import restrictions specified at §§ 635.40, 635.41, 635.45, and 635.46, or at other than an authorized port of entry designated by NMFS under § 635.47.

* * * * *

(29) Land, transship, ship, transport, purchase, sell, offer for sale, import, export, or have in custody, possession, or control:

(i) Any fish that the person knows, or should have known, was taken, retained, possessed, or landed contrary to this part, without regard to the citizenship of the person or registry of the fishing vessel that harvested the fish.

(ii) Any fish of a species regulated pursuant to a recommendation of ICCAT that was harvested, retained, or possessed in a manner contrary to the regulations of another country.

* * * * *

(38) Fish for, or possess on board a fishing vessel, species regulated under this part in unauthorized fishing areas as specified in § 635.25.

BILLING CODE 3510-22-S

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 648

[Docket No. 020313058-2094-02; I.D. 111302H]

Fisheries of the Northeastern United States; Spiny Dogfish Fishery; Commercial Annual Quota Harvested

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Closure; commercial fishery.

SUMMARY: NMFS announces that the annual spiny dogfish commercial quota available to the coastal states from

Maine through Florida for the fishing year, May 1, 2002 - April 30, 2003, has been harvested. Federally permitted commercial vessels may no longer land spiny dogfish for the duration of the fishing year (through April 30, 2003). Regulations governing the spiny dogfish fishery require publication of this notification to advise the coastal states from Maine through Florida that the quota has been harvested and to advise vessel permit holders and dealer permit holders that no commercial quota is available for landing spiny dogfish in these states.

DATES: Effective 0001 hrs local time, November 21, 2002, through 2400 hrs local time, April 30, 2003.

FOR FURTHER INFORMATION CONTACT: Hannah Goodale, Supervisory Fishery Policy Analyst, at (978) 281-9101.

SUPPLEMENTARY INFORMATION:

Regulations governing the spiny dogfish fishery are found at 50 CFR part 648. The regulations require annual specification of a commercial quota, which is allocated into two quota periods based upon percentages of the annual quota. The commercial quota is distributed to the coastal states from Maine through Florida as described in § 648.230.

The initial total commercial quota for spiny dogfish for the 2002 fishing year was 4,000,000 lb (1,814 mt) (67 FR 30614, May 7, 2002). The commercial quota is allocated into two periods (May 1 through October 31, and November 1 through April 30), with trip limits intended to preclude directed fishing. Quota period 1 was allocated 2,316,000 lb (1,050 mt) and quota period 2 was allocated 1,684,000 lb (764 mt) of the commercial quota, respectively. The total quota cannot be exceeded, so landings in excess of the amount allocated to quota period 1 have the effect of reducing the quota available to the fishery during quota period 2.

The Administrator, Northeast Region, NMFS (Regional Administrator) monitors the commercial spiny dogfish quota for each quota period and, based upon dealer reports, state data and other available information, determines when the total commercial quota has been harvested. NMFS is required to publish a notification in the **Federal Register** advising and notifying commercial vessels and dealer permit holders that, effective upon a specific date, the spiny dogfish commercial quota has been harvested and no commercial quota is available for landing spiny dogfish for the remainder of a given quota period. The Regional Administrator has determined, based upon dealer reports and other available information, that the

2002 annual commercial quota for spiny dogfish has been harvested.

Section 648.4(b) provides that Federal spiny dogfish permit holders agree, as a condition of the permit, not to land spiny dogfish in any state after NMFS has published notification in the **Federal Register** that the commercial quota has been harvested and that no commercial quota for the spiny dogfish fishery is available. Therefore, effective 0001 hrs local time, November 21, 2002, landings of spiny dogfish in coastal states from Maine seab 29355 through

Florida by vessels holding commercial Federal fisheries permits are prohibited through April 30, 2003, 2400 hrs local time. The fishing year 2003 quota for commercial spiny dogfish harvest on May 1, 2003. Effective November 21, 2002, through April 30, 2003, federally permitted dealers are also advised that they may not purchase spiny dogfish from vessels issued Federal spiny dogfish permits that land in coastal states from Maine through Florida.

Classification

This action is required by 50 CFR part 648 and is exempt from review under Executive Order 12866.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: November 14, 2002.

Bruce C. Morehead,

Acting Director, Office of Sustainable Fisheries, National Marine Fisheries Service.
