Discussion Topics for Technical Conference on Performance Measurement of Demand Response in the PJM Capacity Market, July 29, 2011

I. Reliability Issues

1. Whether the customer baseline load (CBL) or peak load contribution (PLC) is a more accurate capacity market performance measure of what a demand response customer would have consumed in the absence of an instruction to reduce load.

2. Whether a demand response resource should be obligated to reduce below its PLC during an emergency event, even if the magnitude of supply that the resource is providing is otherwise equivalent to its capacity commitment.

3. Whether the current PJM add-back process under the guaranteed load drop (GLD) option, which is used to calculate peak load for capacity for the following delivery year, accurately reflects the fact that the load reduction of an over-performing demand response customer (a customer that provides a level of response greater than the MW nominated for it in the capacity auction) has been used to support an under-performing customer (a customer that provides a level of response less than the nominated MW) in a portfolio aggregated to meet the capacity commitment.

4. Whether PJM dispatchers account for PLCs during an emergency.

5. Whether any load in PJM can be at load levels in excess of PLC during an emergency.

II. Capacity Obligations

6. Discuss the capacity obligations of end-use customers whose demand response resources have been committed in a prior RPM auction.

7. Whether the PLC limit on nominations in the capacity auction should serve as a basis for requiring load reductions of capacity resources to be below PLC.

III. Load Reductions and Incentives

8. Whether the same MW reduction that is voluntarily made by a peak shaving customer in order to reduce capacity costs should also be eligible to receive incentives from PJM's Load Management programs.

9. Whether the current GLD option provides an incentive for aggregators to offset under-performing resources with resources that over-perform.

IV. Impact of PJM's Proposal

10. Whether PJM's proposal undermines the GLD methodology.

11. Whether PJM's proposal unduly discriminates against resources on days other than the coincident peak days and whether PJM's proposal negatively affects Annual Demand Resource aggregations.

DEPARTMENT OF ENERGY

Federal Energy Regulatory Commission

[Docket No. TS11-4-000]

The Connecticut Transmission Municipal Electric Energy Cooperative; Notice of Request for Waiver or Exemption

Take notice that on June 8, 2011, the Connecticut Transmission Municipal Electric Energy Cooperative filed a petition requesting full waiver or exemption from any reciprocity-based standards of conduct requirements under Order Nos. 899, FERC Stats. & Regs. ¶ 31,035 (2006), or Order No. 717, FERC Stats. & Regs. ¶ 31,280 (2008).

Any person desiring to intervene or to protest in any of the above proceedings must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211 and 385.214) on or before 5:00 p.m. Eastern time on the specified comment date. It is not necessary to separately intervene again in a subdocket related to a compliance filing if you have previously intervened in the same docket. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Anyone filing a motion to intervene or protest must serve a copy of that document on the Applicant. In reference to filings initiating a new proceeding, interventions or protests submitted on or before the comment deadline need not be served on persons other than the Applicant.

The Commission encourages electronic submission of protests and interventions in lieu of paper, using the FERC Online links at <http://www.ferc.gov>. To facilitate electronic service, persons with Internet access who will eFile a document and/or be listed as a contact for an intervenor must create and validate an eRegistration account using the eRegistration link. Select the eFiling link to log on and submit the intervention or protests.

Persons unable to file electronically should submit an original and 14 copies of the intervention or protest to the Federal Energy Regulatory Commission, 888 First St., NE., Washington, DC 20426.

The filings in the above proceedings are accessible in the Commission's eLibrary system by clicking on the appropriate link in the above list. They are also available for review in the Commission's Public Reference Room in Washington, DC. There is an

eSubscription link on the Web site that enables subscribers to receive e-mail notification when a document is added to a subscribed docket(s). For assistance with any FERC Online service, please e-mail FERCOnlineSupport@ferc.gov. or call (866) 208-3676 (toll free). For TTY, call (202) 502-8659.

Intervention and Protest Date: 5 p.m. Eastern Time on Wednesday June 29, 2011.

Dated: June 22, 2011.
