SUPPLEMENTARY INFORMATION:

I. Abstract

The Leahy-Smith America Invents Act (AIA) was enacted into law on September 16, 2011. See Public Law 112-29, 125 Stat. 283 (2011). Section 3 of the AIA, *inter alia*, amended 35 U.S.C. 102 and 103 consistent with the objectives of the AIA, including the conversion of the United States patent system from a "first to invent" system to a "first inventor to file" system. The changes in section 3 of the AIA went into effect on March 16, 2013, but apply only to certain applications filed on or after March 16, 2013.

37 CFR 1.55(j), 1.78(a)(6) and 1.78(d)(6) require information needed to assist the USPTO in determining whether an application is subject to 35 U.S.C. 102 and 103 as amended by the AIA or 35 U.S.C. 102 and 103 in effect on March 15, 2013. 37 CFR 1.110 requires information needed to identify the inventor, and ownership on the effective filing date, of each claimed invention in an application or patent with more than one named inventor, when necessary for purposes of a USPTO proceeding. 37 CFR 1.130, 1.131, and 1.132 provide for the submission of affidavits or declarations needed (i) to show that a disclosure was by the inventor or joint inventor, or was by a party who obtained the subject matter from the inventor or a joint inventor (1.130), (ii) to show that there was a prior public disclosure by the inventor or a joint inventor, or by a party who obtained the subject matter from the inventor or a joint inventor (1.130), (iii) to establish prior invention or to disqualify a commonly owned patent or published application as prior art (1.131), or (iv) to submit evidence to traverse a rejection or objection on a basis not otherwise provided for (1.132).

The USPTO accounts for both electronic and paper submissions in this collection.

II. Method of Collection

Electronically when using the USPTO online filing system EFS-Web, or by mail, facsimile, or hand delivery.

III. Data

OMB Number: 0651-0071.
IC Instruments and Forms: The individual instruments in this collection, as well as any associated forms, are listed in the hourly cost burden table below.

Type of Review: Revision of a Previously Existing Information Collection.

Affected Public: Individuals or households; businesses or other for-profits; and not-for-profit institutions.

Estimated Number of Respondents: The USPTO estimates that it will receive a total of approximately 50,150 responses per year for this collection, of which approximately 12,538 will be filed by small entities. The USPTO estimates that approximately 48,646 of the responses for this collection will be submitted electronically via EFS-Web.

These estimates are based on the Agency's long-standing institutional knowledge of and experience with the type of information collected by these items.

Estimated Time per Response: The USPTO estimates that the responses in this collection will take the public from 2 to 10 hours to complete. This includes the time to gather the necessary information, create the document, and submit the completed request to the USPTO. Specifically, the USPTO estimates that: (1) Preparing an affidavit or declaration under 37 CFR 1.130, 1.131, or 1.132 will require, on average, 10 hours; (2) identifying under 37 CFR 1.55(j), 1.78(a)(6), or 1.78(d)(6) whether there is any claim or subject matter not disclosed in the prior foreign, provisional, or non-provisional application will require, on average, 2 hours; and (3) identifying under 37 CFR 1.110 inventorship and ownership of the subject matter of claims will require, on average, 2 hours. The USPTO calculates that, on balance, it takes the same amount of time to gather the necessary information, create the document, and submit it to the USPTO, whether the applicant submits the information in paper form or electronically.

These estimates are based on the Agency's long-standing institutional knowledge of and experience with the type of information collected and the length of time necessary to complete responses containing similar or like information.

Estimated Total Annual Respondent Burden Hours: 340,300 hours.

Estimated Total Annual Respondent (Hourly) Cost Burden: \$132,376,700. The USPTO expects that attorneys will complete the instruments associated with this information collection. The professional hourly rate for attorneys is \$389. Using this hourly rate, the USPTO estimates \$132,376,700 per year for the total hourly costs associated with respondents.

Total			50,150	340,300	

Estimated Total Annual (Non-hour) Cost Burden: \$8,475.50. The USPTO estimates that the total annualized (non-hour) cost burden for this collection is due to postage costs of \$8,475.50 per year. Customers may incur postage costs when submitting some of the items covered by this collection to the USPTO by mail. The USPTO expects that approximately 97 percent of the responses in this collection will be submitted electronically. Of the remaining 3 percent, the vast majority—98 percent—will be submitted by mail, for a total of 1,474 mailed submissions. The average first class USPS postage cost for these items is estimated at \$5.75; the cost of a one pound mailed submission in a flat rate envelope. Therefore, the USPTO estimates that the postage costs for the mailed submissions in this collection will total \$8,475.50.
