

CFR part 60, subparts N and Na. In general, all NSPS standards require initial notifications, performance tests, and periodic reports by the owners/operators of the affected facilities. They are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility or any period during which the monitoring system is inoperative. These notifications, reports, and records are essential in determining compliance, and are required of all affected facilities subject to NSPS.

Form numbers: None.

Respondents/affected entities: Iron and steel plants that utilize basic oxygen furnaces.

Respondent's obligation to respond: Mandatory (40 CFR part 60, subparts N and Na).

Estimated number of respondents: 2 (total).

Frequency of response: Initially and semiannually.

Total estimated burden: 628 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$83,000 (per year), which includes \$3,830 annualized capital or operation & maintenance costs.

Changes in the estimates: There is a decrease of 3,932 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. This decrease is an adjustment due to a decrease in the number of sources. The previous ICR included sources that were constructed, reconstructed, or modified before the date of promulgation of Subpart N. These sources have been removed from the burden and cost calculations of this renewal. Additionally, the Capital/Startup and O&M costs have decreased due to the decrease in number of sources.

Courtney Kerwin,

Director, Information Engagement Division.

ENVIRONMENTAL PROTECTION AGENCY

[EPA-HQ-OW-2020-0276; FRL-12660-01-OMS]

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; Clean Water Act Section 404 State-Assumed Programs (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), Clean Water Act Section 404 State-Assumed Programs (OMB Control Number 2040-0168; EPA ICR Number 0220.18) to the Office of Management and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through February 28, 2025. Public comments were previously requested via the **Federal Register** on August 14, 2023, during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before March 31, 2025.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA-HQ-OW-2020-0276, to EPA online using www.regulations.gov (our preferred method), or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460.

EPA's policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Christine Maietta, Oceans, Wetlands, and Communities Division, Office of Wetlands, Oceans, and Watersheds, (Mail Code 4504T), Environmental Protection Agency, 1200 Pennsylvania Ave. NW, Washington, DC 20460; telephone number: (202) 564-3351; email address: 404g-rulemaking@epa.gov.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through February 28, 2025. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on August 14, 2023 during a 60-day comment period (88 FR 55276). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. The telephone number for the Docket Center is 202-566-1744. For additional information about EPA's public docket, visit <http://www.epa.gov/dockets>.

Abstract: This information collection request describes the burden (hours) and labor cost (dollars) associated with 40 CFR 233, the regulations that implement *Clean Water Act* Section 404(g). The Clean Water Act authorizes states [tribes] to assume the section 404 permit program for discharges of dredged or fill material into certain waters of the U.S. Implementing regulations establish specific information that must be submitted to EPA when a state/tribe requests program assumption and while administering the program. There are three types of information collected for different needs. The three parts are: (1) Information needed for EPA to review and approve state or tribal requests to assume the program; (2) information needed from permit applicants for reviewing and processing the permit application; and (3) information the state or tribe must submit to EPA in their annual report summarizing program administration.

Form Numbers: None.

Respondents/affected entities: Tribes, states, and the regulated community (*i.e.*, permittees)

Respondent's obligation to respond: Required to obtain or retain benefits. (40 CFR 233)

Estimated number of respondents: During the three-year collection period, the agency estimated a total of three (3) states will be approved to administer the Section 404 program (noting that two states have already received approval to administer a Section 404 program, and the agency assumed one (1) state and zero (0) Tribes will submit a new request during this collection period); and a total of 15,237 permittees are expected to seek a Section 404 permit across the three states approved to administer the Section 404 programs.

Frequency of response: Frequency of information collected from Tribes, states, and permittees depends on the

associated activity. Collection frequencies vary from regular to irregular or rare.

Total estimated burden: 130,600 (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$6,576,054 (per year), includes \$0 annualized capital or operation & maintenance costs.

Changes in the estimates: There is a decrease of 88,281 hours in the total estimated respondent burden compared with the ICR currently approved by OMB. The primary factor contributing to the overall decrease in burden and labor costs between this renewal and the previous ICR was the reduction in the number of Tribes and states seeking assumption and administering a Section 404 program. Other factors that influenced the overall burden and costs estimates included revising scaling factors for individual activities (e.g., completing and reviewing permit applications, and program modification) and updating labor costs to 2024 hourly wages. Additionally, the agency recognized the seven state feasibility studies provided useful information to inform burden and costs associated with Section 404 program assumption. For this reason, this collection request incorporates data from those studies and presents a summary of that information in a new “pre-submission activities” category.

Courtney Kerwin,

Director, Information Engagement Division.

Agency Information Collection Activities; Submission to the Office of Management and Budget for Review and Approval; Comment Request; NESHAP for Benzene Emissions From Benzene Storage Vessels and Coke Oven By-Product Recovery Plants (Renewal)

AGENCY: Environmental Protection Agency (EPA).

ACTION: Notice.

SUMMARY: The Environmental Protection Agency (EPA) has submitted an information collection request (ICR), NESHAP for Benzene Emissions from Benzene Storage Vessels and Coke Oven By-Product Recovery Plants (EPA ICR Number 1080.17, OMB Control Number 2060–0185) to the Office of Management

and Budget (OMB) for review and approval in accordance with the Paperwork Reduction Act. This is a proposed extension of the ICR, which is currently approved through February 28, 2025. Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment period. This notice allows for an additional 30 days for public comments.

DATES: Comments may be submitted on or before March 31, 2025.

ADDRESSES: Submit your comments, referencing Docket ID Number EPA–HQ–OAR–2023–0117, to EPA online using www.regulations.gov (our preferred method), by email to a-and-r-docket@epa.gov or by mail to: EPA Docket Center, Environmental Protection Agency, Mail Code 28221T, 1200 Pennsylvania Ave. NW, Washington, DC 20460. EPA’s policy is that all comments received will be included in the public docket without change including any personal information provided, unless the comment includes profanity, threats, information claimed to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute.

Submit written comments and recommendations to OMB for the proposed information collection within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION: This is a proposed extension of the ICR, which is currently approved through February 28, 2025. An agency may not conduct or sponsor and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Public comments were previously requested via the **Federal Register** on May 18, 2023 during a 60-day comment period (88 FR 31748). This notice allows for an additional 30 days for public comments. Supporting documents, which explain in detail the information that the EPA will be collecting, are

available in the public docket for this ICR. The docket can be viewed online at www.regulations.gov or in person at the EPA Docket Center, WJC West, Room 3334, 1301 Constitution Ave. NW, Washington, DC. The telephone number for the Docket Center is 202–566–1744. For additional information about EPA’s public docket, visit <http://www.epa.gov/dockets>.

Abstract: The NESHAP for Coke Oven By-Product Recovery Plants (40 CFR part 61, subpart L) were promulgated on September 14, 1989 (54 FR 38073) and amended on February 12, 1999 (64 FR 7458). These regulations apply to each of the following benzene emission sources at furnace and foundry coke by-product recovery plants: tar decanters, tar storage tanks, tar-intercepting sumps, flushing-liquor circulation tanks, light-oil sumps, light-oil condensers, light-oil decanters, wash-oil decanters, wash-oil circulation tanks, naphthalene processing, final coolers, final-cooler cooling towers, and equipment intended to operate in benzene service, including: pumps, valves, exhausters, pressure relief devices, sampling connection systems, open-ended valves or lines, flanges or other connectors, and other control devices or systems. The provisions of this subpart also apply to benzene storage tanks, BTX (benzene-toluene-xylene) storage tanks, light-oil storage tanks, and excess ammonia-liquor storage tanks at furnace coke by-product recovery plants. This information is being collected to assure compliance with 40 CFR part 61, subpart L.

The NESHAP for Benzene Emissions from Benzene Storage Vessels (40 CFR part 61, subpart Y) were promulgated on September 14, 1989 (54 FR 38077) and amended on December 14, 2000 (65 FR 78268). These standards apply to each benzene storage vessel with a design storage capacity greater than or equal to 38 cubic meters (10,000 gallons). This subpart does not apply to: (1) storage vessels used for storing benzene at coke by-product facilities; (2) vessels permanently attached to motor vehicles—such as trucks, rail cars, barges or ships; and (3) pressure vessels designed to operate in excess of 204.9 kPa (29.72 psia) and without emissions to the atmosphere. This information is being collected to assure compliance with 40 CFR part 61, subpart Y.

Form Numbers: None.

Respondents/affected entities: Benzene storage vessels and coke by-product recovery plants.

Respondent’s obligation to respond: Mandatory (40 CFR part 61, subparts L and Y).
