[Docket No. FAA-2007-27390; Amendment No. 101-8]

RIN 2120-A188

Requirements for Amateur Rocket Activities

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final rule; correction.

SUMMARY: The FAA is making an editorial change to the amateur rocket regulations. This action corrects an unintentional error in the difference between statute and nautical miles. The intent is to ensure the regulations are clear and accurate.

DATES: This amendment is effective September 16, 2009.

Brinkman, Licensing and Safety Division (AST-200), Commercial Space Transportation, Federal Aviation Administration, 800 Independence Avenue, Washington, DC 20591, telephone (202) 267-7715, e-mail Phil.Brinkman@faa.gov. SUPPLEMENTARY INFORMATION:

Background

On Friday, July 31, 2009 (74 FR 38092), the FAA published a technical amendment to the final rule "Requirements for Amateur Rocket Activities." The final rule was published on December 4, 2008 (73 FR 73768). During the review process, we

determined that an additional minor amendment is needed in part 101.

In the first line of § 101.25(e), the number "8" (kilometers) is changed to "9.26" to correct the metric conversion when the word "statute" is replaced with the word "nautical".

Technical Correction

This technical correction merely ensures correct placement of miscellaneous words. There are no other changes to the existing regulatory text.

Justification for Immediate Adoption

Because this action is editorial, the FAA finds that notice and public comment under 5 U.S.C. section 553(b) is unnecessary. For the same reason, the FAA finds good cause exists under 5 U.S.C. section 553(d) for making this rule effective upon publication.

The supplemental NADA is approved as of August 25, 2009, and the regulations are amended in 21 CFR 524.590 to reflect the approval.

Approval of this supplemental NADA did not require review of additional safety or effectiveness data or information. Therefore, a freedom of information summary is not required.

The collection of information is voluntary to obtain a benefit.

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number.

Background

This document contains amendments to 26 CFR part 1 under section 860G of the Internal Revenue Code (Code). In Notice 2007–17 (2007–1 CB 748 (March 19, 2007)), the IRS and the Treasury Department requested input on whether the present REMIC regulations should be amended to permit additional types of modifications incurred in connection with commercial mortgage loans. See § 601.601(d)(2)(ii)(b). The IRS and the Treasury Department received several comments in response to this request (the Notice 2007–17 Comments). After consideration of the Notice 2007–17 Comments, the IRS and the Treasury Department published in the **Federal Register** (72 FR 63523) on November 9, 2007, proposed regulations (REG–127770–07) that would expand the list of permitted loan modifications to include certain modifications that are often made to commercial mortgages. The IRS and the Treasury Department received additional comments in response to the proposed regulations (the Proposed Regulation Comments). A public hearing was requested and was

held on April 4, 2008 (73 FR 12041). After consideration of the Proposed Regulation Comments, the proposed regulations are adopted as revised by this Treasury decision.

Summary of Comments and Explanation of Provisions

Except as specifically provided in § 1.860G–2(b)(3), if there is a significant modification of an obligation that is held by a REMIC, then the modified obligation is treated as one that was newly issued in exchange for the unmodified obligation that it replaced. See § 1.860G–2(b)(1). For this purpose, the rules in § 1.1001–3(e) determine whether a modification is “significant.” See § 1.860G–2(b)(2). Because of when it is treated as having been acquired in the deemed exchange, a significantly modified obligation generally fails to be a qualified mortgage. Section 1.860G–2(b)(3), however, contains a list of modifications that are expressly permitted without regard to the section 1001 modification rules.

The final regulations expand this list of permitted exceptions to include changes in collateral, guarantees, and credit enhancement of an obligation and changes to the recourse nature of an obligation. These changes are permitted so long as the obligation continues to be principally secured by an interest in real property. The final regulations also clarify when a release of a lien on real property securing a qualified mortgage does not disqualify the mortgage.

The Proposed Regulation Comments included requests for clarification and recommendations relating to the following: (i) The lien release rule; (ii) the requirement to retest the collateral value; (iii) the appraisal requirement; (iv) changes in the nature of an obligation from nonrecourse to recourse; (v) investment trusts; and (vi) other proposals set forth in the Notice 2007–17 Comments that were not included in the proposed regulations.

1. The Lien Release Rule

The proposed regulations would provide that a lien release pursuant to certain changes in collateral would not cause a qualified mortgage to cease to be a qualified mortgage on the date the lien is released. Commentators indicated that, as drafted, the proposed regulations could be interpreted to prohibit other types of lien releases, including lien releases that are occasioned by a default or reasonably foreseeable default under § 1.860G–2(b)(3)(i) and lien releases that are permitted pursuant to the terms of the mortgage loan and are not modifications for purposes of § 1.1001–3.
