In 1996, Congress authorized the raising of levees along the American River in the Mayhew

Drain area under the American River Common Features project.

Subsequently, section 366 of the Water Resources Development Act of 1999 authorized the raising of the left bank of the non-Federal levee upstream of the Mayhew Drain for a distance of 4,300 feet and the installation of gates to the existing Mayhew Drain culvert.

DATES: A public meeting will be held on May 23, 2005, from 6 p.m. to 8 p.m., Sacramento, CA.

3. Scoping Process: a. The project study plan provides for a scoping meeting to be held in May 2005 (*see DATES & ADDRESSES*). The Corps has initiated a process to involve concerned individuals, and local, State, and Federal agencies.

b. Significant issues to be analyzed in depth in the draft EIS/EIR include adverse effects on vegetation and wildlife resources, special-status species, esthetics, cultural resources, recreation, land use, air quality, and cumulative effects of related projects in the study area.
