

Point Blue's activities would have a negligible impact on the affected species or stocks and that the authorized take numbers of each species or stock were small relative to the relevant stocks (*e.g.*, less than 13 percent for all stocks). The numbers of California sea lions, harbor seals, and northern elephant seals proposed to be taken are identical to those authorized in the 2018–2019 IHA, while the numbers of Steller sea lions proposed to be taken have increased slightly. However, the increased numbers of Steller sea lions result in only minor increased percentage of stock proposed to be taken (*e.g.*, from 0.10 to 0.14 percent of the Eastern U.S. stock of Steller sea lions) and NMFS has preliminarily determined that the proposed take is still considered small relative to the relevant stock abundances. The mitigation measures and monitoring and reporting requirements as described above are identical to the initial IHA.

NMFS has preliminarily concluded that there is no new information suggesting that our analysis or findings should change from those reached for the initial IHA. This includes consideration of the estimated abundance of the California sea lion stock decreasing slightly and the increased estimated take of Steller sea lions. Based on the information contained here and in the referenced documents, NMFS has preliminarily determined the following: (1) The required mitigation measures will effect the least practicable impact on marine mammal species or stocks and their habitat; (2) the proposed authorized takes will have a negligible impact on the affected marine mammal species or stocks; (3) the proposed authorized takes represent small numbers of marine mammals relative to the affected stock abundances; and (4) Point Blue's activities will not have an unmitigable adverse impact on taking for subsistence purposes as no relevant subsistence uses of marine mammals are implicated by this action, and (5) appropriate monitoring and reporting requirements are included.

Endangered Species Act (ESA)

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. No incidental take of ESA-listed species is authorized or expected to result from

this activity. Therefore, NMFS has determined that formal consultation under section 7 of the ESA is not required for this action.

Proposed Authorization

As a result of these preliminary determinations, NMFS proposes to issue an IHA to Point Blue for conducting seabird research and monitoring activities in central California for a period of one year from the date of issuance, provided the previously mentioned mitigation, monitoring, and reporting requirements are incorporated. A draft of the proposed IHA can be found at <https://www.fisheries.noaa.gov/permit/incidental-take-authorizations-under-marine-mammal-protection-act>.

Request for Public Comments

We request comment on our analyses (included in both this document and the referenced documents supporting the 2018–2019 IHA), the proposed authorization, and any other aspect of this notice of proposed IHA for the proposed seabird research and monitoring activities. Please include with your comments any supporting data or literature citations to help inform our final decision on the request for MMPA authorization.

Dated: August 21, 2020.

Donna S. Wieting,

*Director, Office of Protected Resources,

Mid-Atlantic Fishery Management Council (MAFMC); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; public meeting.

SUMMARY: The Mid-Atlantic Fishery Management Council's Spiny Dogfish Monitoring Committee will hold a public meeting to review annual specifications and management measures, and make any appropriate recommendations.

DATES: The meeting will be held Monday, September 14, 2020, from 1 p.m. to 4 p.m.

ADDRESSES: The meeting will be held via webinar; the webinar link is: <http://mafmc.adobeconnect.com/spinydogmc-2020/>.

Council address: Mid-Atlantic Fishery Management Council, 800 N. State St., Suite 201, Dover, DE 19901; telephone: (302) 674–2331.

FOR FURTHER INFORMATION CONTACT:

Christopher M. Moore, Ph.D. Executive Director, Mid-Atlantic Fishery Management Council; telephone: (302) 526–5255. The Council's website, www.mafmc.org also has details on the proposed agenda, webinar access, and any briefing materials.

SUPPLEMENTARY INFORMATION:

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aid should be directed to M. Jan Saunders, (302) 526–5251, at least 5 days prior to the meeting date.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: August 25, 2020.

Tracey L. Thompson,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

South Atlantic Fishery Management Council; Public Meetings

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of public meetings.

SUMMARY: The South Atlantic Fishery Management Council (Council) will hold meetings of the following: Snapper Grouper Committee; Southeast Data, Assessment and Review (SEDAR) Committee; Dolphin Wahoo Committee; and Executive Committee (partially Closed Session). The meeting week will also include a formal public comment session and a meeting of the Full Council (with a partially Closed Session). Due to public health concerns associated with COVID–19 and current travel restrictions, the meeting originally planned for Charleston, SC will be held via webinar.

DATES: The Council meeting will be held from 9 a.m. on Monday, September
