

**What is the next step in the process for this ICR?**

The EPA will consider the comments received and amend the ICR as appropriate. The final ICR package will then be submitted to OMB for review and approval pursuant to 5 CFR 1320.12. At that time, the EPA will issue another **Federal Register** notice pursuant to 5 CFR 1320.5(a)(1)(iv) to announce the submission of the ICR to OMB and the opportunity to submit additional comments to OMB. If you have any questions about this ICR or the approval process, please contact the technical person listed under **FOR FURTHER INFORMATION CONTACT**.

Dated: June 22, 2011.

**Agency Information Collection Activities; Submission to OMB for Review and Approval; Comment Request; NESHAP for Solvent Extraction for Vegetable Oil Production (Renewal)**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** In compliance with the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*), this document announces that an Information Collection Request (ICR) has been forwarded to the Office of Management and Budget (OMB) for review and approval. This is a request to renew an existing approved collection. The ICR which is abstracted below describes the nature of the collection and the estimated burden and cost.

**DATES:** Additional comments may be submitted on or before July 27, 2011.

**ADDRESSES:** Submit your comments, referencing docket ID number EPA-HQ-OECA-2010-0377, to (1) EPA online using <http://www.regulations.gov> (our preferred method), or by e-mail to [docket.oeca@epa.gov](mailto:docket.oeca@epa.gov), or by mail to: EPA Docket Center (EPA/DC), Environmental Protection Agency, Enforcement and Compliance Docket and Information Center, mail code 28221T, 1200 Pennsylvania Avenue, NW., Washington, DC 20460, and (2) OMB at: Office of Information and Regulatory Affairs, Office of Management and

Budget (OMB), *Attention:* Desk Officer for EPA, 725 17th Street, NW., Washington, DC 20503.

**FOR FURTHER INFORMATION CONTACT:** Learia Williams, Monitoring, Assistance, and Media Programs Division, Office of Compliance, Mail Code 2223A, Environmental Protection Agency, 1200 Pennsylvania Avenue, NW., Washington, DC 20460; telephone number: (202) 564-4113; fax number: (202) 564-0050; e-mail address: [williams.learia@epa.gov](mailto:williams.learia@epa.gov).

**SUPPLEMENTARY INFORMATION:** EPA has submitted the following ICR to OMB for review and approval according to the procedures prescribed in 5 CFR 1320.12. On June 2, 2010 (75 FR 30812), EPA sought comments on this ICR pursuant to 5 CFR 1320.8(d). EPA received no comments. Any additional comments on this ICR should be submitted to EPA and OMB within 30 days of this notice.

EPA has established a public docket for this ICR under docket ID number EPA-HQ-OECA-2010-0377, which is available for public viewing online at <http://www.regulations.gov>, or in person viewing at the Enforcement and Compliance Docket in the EPA Docket Center (EPA/DC), EPA West, Room 3334, 1301 Constitution Avenue, NW., Washington, DC. The EPA Docket Center Public Reading Room is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding legal holidays. The telephone number for the Reading Room is (202) 566-1744, and the telephone number for the Enforcement and Compliance Docket is (202) 566-1752.

Use EPA's electronic docket and comment system at <http://www.regulations.gov> to submit or view public comments, access the index listing of the contents of the docket, and to access those documents in the docket that are available electronically. Once in the system, select "docket search," then key in the docket ID number identified above. Please note that EPA's policy is that public comments, whether submitted electronically or in paper, will be made available for public viewing at <http://www.regulations.gov> as EPA receives them and without change, unless the comment contains copyrighted material, Confidential Business Information (CBI), or other information whose public disclosure is restricted by statute. For further information about the electronic docket, go to <http://www.regulations.gov>.

**Title:** NESHAP for Solvent Extraction for Vegetable Oil Production (Renewal).  
**ICR Numbers:** EPA ICR Number 1947.05, OMB Control Number 2060-0471.

**ICR Status:** This ICR is scheduled to expire on July 31, 2011. Under OMB regulations, the Agency may continue to conduct or sponsor the collection of information while this submission is pending at OMB. An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number. The OMB control numbers for EPA's regulations in title 40 of the CFR, after appearing in the **Federal Register** when approved, are listed in 40 CFR part 9, and displayed either by publication in the **Federal Register** or by other appropriate means, such as on the related collection instrument or form, if applicable. The display of OMB control numbers in certain EPA regulations is consolidated in 40 CFR part 9.

**Abstract:** The affected entities are subject to the General Provisions of the NESHAP at 40 CFR part 63, subpart A, and any changes, or additions to the Provisions specified at 40 CFR part 63, subpart GGGG.

Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports, at a minimum, are required semiannually.

**Burden Statement:** The annual public reporting and recordkeeping burden for this collection of information is estimated to average 185 hours per response. Burden means the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide information to or for a Federal agency. This includes the time needed to review instructions; develop, acquire, install, and utilize technology and systems for the purposes of collecting, validating, and verifying information, processing and maintaining information, and disclosing and providing information; adjust the existing ways to comply with any previously applicable instructions and requirements which have subsequently changed; train personnel to be able to respond to a collection of information; search data sources; complete and review the collection of information; and transmit or otherwise disclose the information.

**Respondents/Affected Entities:** Owners or operators of vegetable oil production facilities.

*Estimated Number of Respondents:* 101.

*Frequency of Response:* Initially, on occasion and annually.

*Estimated Total Annual Hour Burden:* 39,385.

*Estimated Total Annual Cost:* \$2,512,947, which includes \$2,512,947 in labor costs, no capital/startup costs, and no operation and maintenance (O&M) costs.

*Changes in the Estimates:* There is no change in the labor hours or cost in the ICR compared to the previous ICR. This is due to two considerations: (1) The regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the industry is very low, negative or non-existent. Therefore, the labor hours and cost figures in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR.

Dated: June 21, 2011.

**John Moses,**

Director, Collection Strategies Division.

## **ENVIRONMENTAL PROTECTION AGENCY**

[EPA-R07-OW-2011-0540; FRL-9324-5]

### **Notice of a Regional Project Waiver of Section 1605 (Buy American) of the American Recovery and Reinvestment Act of 2009 (ARRA) to the City of Columbia, MO**

**AGENCY:** Environmental Protection Agency (EPA).

**ACTION:** Notice.

**SUMMARY:** The EPA is hereby granting a waiver of the Buy American requirements of ARRA Section 1605 under the authority of Section 1605(b) (2) [manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality] to the City of Columbia, MO ("City") for the purchase of several foreign manufactured components of heating/ventilation/air conditioning systems (HVAC Systems) in Columbia, Missouri. This HVAC system consists of three (3) heat pumps and the associated packaged air handlers and one (1) air conditioning system condensing unit. The system is manufactured by Trane Commercial Systems in Monterrey, Mexico. This is a project specific waiver and only applies to the use of the specified product for the ARRA project being proposed. Any other ARRA recipient

that wishes to use the same product must apply for a separate waiver based on project specific circumstances. Based upon critical performance requirements and project specifications for the HVAC systems, a list of potential manufacturers and project schedule submitted by the City and its consulting engineer, it has been determined that there are currently no domestically manufactured HVAC systems available to meet the City's project specifications. The Regional Administrator is making this determination based on the review and recommendations of the Clean Water State Revolving Fund (CWSRF) staff. The Assistant Administrator of the Office of Administration and Resources Management has concurred on this decision to make an exception to Section 1605 of ARRA. This action permits the purchase of the Trane Commercial Systems foreign manufactured HVAC systems. The City of Columbia, MO has provided sufficient documentation to support their waiver request.

**DATES:** *Effective Date:* June 27, 2011.

**FOR FURTHER INFORMATION CONTACT:** Christopher Simmons, Environmental Engineer, Water Wetlands and Pesticides Division (WWPD), (913) 551-7237, U.S. EPA, Region 7, 901 N. Fifth Street, Kansas City, KS 66101.

**SUPPLEMENTARY INFORMATION:** In accordance with ARRA Section 1605(c), the EPA hereby provides notice that it is granting a project waiver of the requirements of Section 1605 (a) of Public Law 111-5, Buy American requirements, to the City of Columbia, MO ("City") for the purchase of non-domestically manufactured Trane HVAC systems consisting of three (3) heat pumps and the associated packaged air handlers and one (1) air conditioning system condensing unit, to meet the City's design and performance specifications as part of its proposed Wastewater Treatment Facility Phase 1 Improvement Project in Columbia, MO.

Section 1605 of the ARRA requires that none of the appropriated funds may be used for the construction, alteration, maintenance, or repair of a public building or a public works project unless all of the iron, steel, and manufactured goods used in the project is produced in the United States, or unless a waiver is provided to the recipient by the head of the appropriate agency, here the EPA. A waiver may be provided if EPA determines that (1) Applying these requirements would be inconsistent with the public interest; (2) iron, steel, and the relevant manufactured goods are not produced in the United States in sufficient and

reasonably available quantities and of a satisfactory quality; or (3) inclusion of iron, steel, and the relevant manufactured goods produced in the United States will increase the cost of the overall project by more than 25 percent.

The City of Columbia, MO is proposing a Wastewater Treatment Facility (WWTF) Phase 1 Improvement Project that includes the use of non-domestically manufactured Trane HVAC systems. The new HVAC systems to be installed in the WWTF provides adequate indoor air quality by conditioning the air in the occupied space, diluting and removing contaminants from indoor air while providing proper pressurization. Project specifications for a density analyzer require the following to meet the design and performance criteria:

(1) Each component of the HVAC system must be compatible with all other parts of the system;

(2) Where two (2) or more units of the same class of equipment are required, they shall be the product of the same manufacturer.

The Clean Water State Revolving Fund (CWSRF) staff has reviewed this waiver request and has determined that the supporting documentation provided by the City of Columbia, MO establishes both a proper basis to specify a particular manufactured good, and that there is no domestic manufactured good currently available. The information provided is sufficient to meet the following criteria listed under Section 1605(b) of the ARRA and in the April 28, 2009 Memorandum: Iron, steel, and the manufactured goods are not produced in the United States in sufficient and reasonably available quantities and of a satisfactory quality.

The Heating/Ventilation/Air Conditioning (HVAC) systems are manufactured non-domestically by the Trane Commercial Systems located in Monterrey, Mexico. All supporting documentation and independent research and communication with manufacturers of HVAC systems conducted by EPA's national contractor demonstrate that there are no U.S. manufacturers able to meet the project specifications. None of the companies contacted by EPA's national contractor manufacture HVAC systems, which can meet the specifications, in the United States.

EPA has also evaluated Columbia, MO's waiver request to determine if its submission is considered late or if it could be considered timely, as per the OMB Guidance at 2 CFR 176.120. EPA will generally regard waiver requests with respect to components that were
