

Qualifications of Applicant

Thomas G. Deke

Mr. Deke, age 51, has had ITDM since 2002. He has had no hypoglycemic reactions resulting in loss of consciousness, requiring the assistance of another person, or resulting in impaired cognitive function that occurred without warning in the past 5 years. His endocrinologist examined him in 2005 and stated, "Mr. Deke has demonstrated excellent willingness to monitor and manage his diabetes since starting on insulin in October, 2005". Mr. Deke meets the requirements of the vision standard at 49 CFR 391.41(b)(10). His ophthalmologist examined him in 2005 and certified that he does not have diabetic retinopathy. He holds a Class A CDL from Montana.

Request for Comments

In accordance with 49 U.S.C. 31315 and 31136(e), FMCSA requests public comment from all interested persons on Mr. Deke's exemption application. We will consider all comments received before the close of business on the closing date indicated earlier in the notice.

FMCSA notes that Section 4129 of the Safe, Accountable, Flexible and Efficient Transportation Equity Act: A Legacy for Users (SAFETEA-LU) requires the Secretary to revise its diabetes exemption program established on September 3, 2003 (68 FR 52441).¹ The revision must provide for individual assessment of drivers with diabetes mellitus, and be consistent with the criteria described in section 4018 of the Transportation Equity Act for the 21st Century (49 U.S.C. 31305).

Section 4129 requires: (1) the elimination of the requirement for three years of experience operating CMVs while being treated with insulin; and (2) the establishment of a specified minimum period of insulin use to demonstrate stable control of diabetes before being allowed to operate a CMV.

In response to section 4129, FMCSA made immediate revisions to the diabetes exemption program established by the September 3, 2003 Notice. FMCSA discontinued use of the 3-year driving experience criterion and fulfilled the requirements of section 4129 while continuing to ensure that operation of CMVs by drivers with ITDM will achieve the requisite level of safety required of all exemptions granted under 49 USC 31136 (e).

Section 4129(d) also directed FMCSA to ensure that drivers of CMVs with ITDM are not held to a higher standard than other drivers, with the exception of limited operating, monitoring and medical requirements that are deemed medically necessary. FMCSA concluded that all of the operating, monitoring and medical requirements set out in the September 3, 2003 Notice, except as modified, were in compliance with section 4129(d). Therefore, all of the requirements set out in the September 3, 2003 Notice, except as modified in the notice in the **Federal Register** on November 8, 2005 (70 FR 67777), remain in effect.

Issued on: March 31, 2006.

Associate Administrator, Policy and Program Development.
