SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-65535; File No. SR-BX-2011-069]

Self-Regulatory Organizations; NASDAQ OMX BX, Inc.; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Modify the Minimum Quantity Order

October 12, 2011.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 ("Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on September 30, 2011, NASDAQ OMX BX, Inc. ("BX") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by BX. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

BX is filing this proposed rule change to modify the operation of its Minimum Quantity Order. BX proposes to implement the rule change on a date that is at least thirty days after the date of the filing, but prior to November 30, 2011. The text of the proposed rule change is available at <http://nasdaqomxbx.cchwallstreet.com>, at

BX's principal office, and at the Commission's Public Reference Room.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in Sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

In order to provide enhanced functionality, BX is proposing to modify the functionality of its Minimum Quantity Order. Minimum Quantity Orders allow a market participant to specify a minimum share amount that the market participant seeks to obtain; accordingly, a Minimum Quantity Order will not execute unless the volume of liquidity available to execute against the order exceeds the designated minimum. A Minimum Quantity Order provides a means by which a market participant may avoid partial executions of orders at sizes that it considers inadequate to achieve its purposes. For example, a market participant seeking to sell a large position in a trading session with high volatility may use the order type to avoid selling only a small portion of the order at the price it considers acceptable.

Currently, Minimum Quantity Orders must be designated with a time-in-force of System Hours Immediate or Cancel or Market Hours Immediate or Cancel. As a result, the order can only be used to "ping" the BX book to see if there is any posted liquidity that would allow the minimum execution. BX is proposing to remove this restriction so that a Minimum Quantity Order could post to the book if it cannot be executed immediately. Once posted, the order will execute if an incoming order that is marketable against it would satisfy its minimum quantity requirement. A Minimum Quantity Order that posts to the book is not displayed. Upon entry, a Minimum Quantity Order must have a size and a minimum quantity condition of at least one round lot.

In the event that the shares remaining in the size of a Minimum Quantity Order following a partial execution are less than the minimum quantity specified by the market participant entering the order, the minimum quantity value of the order will be reduced to the number of shares remaining. Thus, for example, if a market participant entered a Minimum Quantity Order with a size of 1,000 and a minimum quantity of 500, and the order was marketable against a 600 share order on the book, the remaining 400 shares of the Minimum Quantity Order would post to the book with a minimum quantity restriction of 400 shares.

2. Statutory Basis

BX believes that the proposed rule change is consistent with the provisions of Section 6 of the Act,³ in general, and with Section 6(b)(5) of the Act,⁴ in particular, in that the proposal is designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Specifically, BX believes that the change to the functioning of the Minimum Quantity Order will provide market participants with better control over their trading patterns, thereby providing them with greater potential to improve the quality of their order executions.

B. Self-Regulatory Organization's Statement on Burden on Competition

BX does not believe that the proposed rule change will result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act, as amended. The changes to the Minimum Quantity Order will enhance the functionality offered by BX to its members, thereby promoting its competitiveness with other exchanges and non-exchange trading venues that already offer similar functionality.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act⁵ and Rule 19b-4(f)(6) thereunder.⁶

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

[Release No. 34-65534; File No. SR-ISE-2011-58]

Self-Regulatory Organizations; International Securities Exchange, LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to Competitive Market Maker Trading Rights

October 12, 2011.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),¹ and Rule 19b-4 thereunder,² notice is hereby given that on October 3, 2011, the International Securities Exchange, LLC (the "Exchange" or the "ISE") filed with the Securities and Exchange Commission ("Commission") the proposed rule change as described in Items I and II below, which items

have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to refine how it assigns point values to options classes for purposes of Competitive Market Maker trading rights. The text of the proposed rule change is as follows, with deletions marked in [brackets] and additions in *italics*:

Rule 802. Appointment of Market Makers

(a) No change.

(b) No change.

(c) Appointments to Competitive Market Makers. Competitive market makers may request appointments to options classes traded on the Exchange, subject to the trading licensing requirements of Rule 2013 with respect to index options and Rule 2213 with respect to foreign currency options.

(1) On a quarterly basis, the Exchange shall assign points to each options class equal to its percentage of overall industry volume (not including exclusively traded index options), rounded down to the nearest [tenth] *one hundredth* of a percentage *with a maximum of 15 points*. New listings [with no industry volume in the previous quarter] will be assigned a point value of zero *for the remainder of the quarter in which it was listed*.

(2) No change.

(3) No change.

(d) The Exchange may suspend or terminate any appointment of a market maker under this Rule and may make additional appointments *whenever, in the Exchange's judgment*, the interests of a fair and orderly market are best served by such action. In the case of an Index-Based Product, during the term of that appointment, the Exchange may also base a decision to suspend or terminate a Primary Market Maker's appointment on the failure of the Primary Market Maker to meet the terms of its commitments under paragraph (b)(1) above.

(e) Market Maker Performance. In making appointments to market makers, the Exchange may evaluate the performance of market makers relating to, among other things, quality of markets, competition among market makers, observance of ethical standards, and administrative factors. The Exchange may consider any relevant information, including but not limited to the results of a market maker evaluation questionnaire, trading data, a market maker's regulatory history and such other factors and data as may be pertinent in the circumstances. Moreover, failure by a market maker to meet minimum performance standards may result in, among other things: (1) suspension, termination or restriction of an appointment to one or more of the options classes *appointed to the market maker* [within the market maker's appointed Group]; (2) restriction of appointments to
