INSTRUCTIONS FOR SUMMARY INFORMATION FOR RANKING
NATIONAL COASTAL WETLANDS CONSERVATION GRANT PROGRAM PROPOSALS

A. Prepare your grant proposal.

B. Guidance and examples for calculation for question #11.

NOTE TO APPLICANTS AND REVIEWERS: *The purpose of this criteria is to increase the amount of match dollars from non-Federal sources. This decreases the need for Federal match dollars, so that Federal dollars can help more projects.*

Documentation of each partner's financial commitment must accompany the proposal to receive points.

If the State itself provides the excess match they should receive credit for reducing the Federal share.

Each 5 percent above the required match would be approximately equal to 1 point.

The following two examples, using both a 50 and 75 percent Federal match share, define a 10 percent increase in a State's match amount.

EXAMPLE 1 - 50 Percent Federal Match

If the total project costs are:	\$ 100,000
Then the required State match share is:	\$ 50,000
If the State or a partner provides an additional cash contribution equal to 10 percent of the \$50,000*:	\$5,000

This is defined as a 10 percent increase in the State match

EXAMPLE 2 - 75 Percent Federal Match

If the total project costs are:	\$ 100,000
Then the required State match share is:	\$ 25,000
If the State or a partner provides an additional cash contribution equal to 10 percent of the \$25,000*:	\$2,500

This is defined as a 10 percent increase in the State match.

** From sources other than Federal agencies. Natural Resource Damage Assessment funds may in some cases be defined as "non-Federal." See discussion under 50 CFR 84.46 "What are the cost sharing requirements?"*
