

connectivity restrictions are already in place on the Exchange.²¹ Furthermore, the Exchange believes that proposed Rule 6.18(f) is consistent with Section 6(b)(7)²² of the Act, which requires the Exchange to adopt rules that provide a fair procedure for the disciplining of members and persons associated with members, the denial of membership to any person seeking membership therein, the barring of any person from becoming associated with a member thereof, and the prohibition or limitation by the exchange of any person with respect to access to services offered by the exchange or a member thereof. The Exchange notes that proposed Rule 6.18(f) is not aimed at denying access to a particular TPH, but rather making sure that the Exchange remains accessible to all other TPHs that do not threaten the Exchange's ability to conduct normal business operations. The Exchange notes that as soon as the Exchange, working with the TPH organization that poses a threat to the Exchange, were able to confirm that the TPH organization no longer posed such a threat, access to the Exchange would be restored to that TPH. The Exchange believes that this is a fair result and is [sic] the best interests of all market participants, investors, and the general public.

The Exchange also believes that the proposed rule change promotes just and equitable principles of trade by adding detail and clarity to the Rules. The proposed rule change seeks to provide additional clarity to the Exchange's disaster recovery rules, putting all market participants on notice as to how the Exchange will function in case of significant systems disruption or other disaster situation. The Exchange is continuously updating the Rules to provide additional detail, clarity, and transparency regarding its operations and trading systems and regulatory authority. The Exchange believes that the adoption of detailed, clear, and transparent rules reduces burdens on competition and promotes just and equitable principles of trade. The Exchange also believes that adding greater detail to the Rules regarding the Exchange's ability to ensure the continuous operation of the market and preserve the ability to conduct business on the Exchange will increase confidence in the markets and encourage wider participation in the markets and greater investment.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. Rather, the proposed rule change will help ensure that competitive markets remain operative in the event of a systems failure or other disaster event. The Exchange notes that the proposed rule change is designed to provide the Exchange with authority to require market participants to participate in, and provide necessary liquidity to, the market to ensure that the Exchange functions in a fair and orderly manner in the event of a significant systems failure, disaster, or other unusual circumstances. Accordingly, the Exchange believes that the proposed rule change is designed to ensure fair and competitive markets at time when they may be most needed.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

The Exchange neither solicited nor received written comments on the proposed rule change.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Within 45 days of the date of publication of this notice in the **Federal Register** or within such longer period up to 90 days (i) as the Commission may designate if it finds such longer period to be appropriate and publishes its reasons for so finding or (ii) as to which the Exchange consents, the Commission will:

- A. By order approve or disapprove such proposed rule change, or
- B. institute proceedings to determine whether the proposed rule change should be disapproved.

The information filed with the Commission permits the verification of compliance with securities law requirements and assures the public availability and dissemination of the information.

Estimates of average burden hours and costs are made solely for purposes of the Paperwork Reduction Act, and are not derived from a comprehensive or even representative survey or study of the costs of Commission rules and forms. Compliance with the information collection requirements of Form N-CSR is mandatory. Responses to the

collection of information will not be kept confidential. An agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a currently valid OMB control number.

Written comments are invited on: (a) Whether the collection of information is necessary for the proper performance of the functions of the Commission, including whether the information has practical utility; (b) the accuracy of the Commission's estimate of the burden of the collection of information; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.
