

stations must conduct various engineering measurements to demonstrate that the antenna system operates as authorized. The data is used by station engineers to correct the operating parameters of an antenna. The data is also used by FCC staff in field operations to ensure that stations are in compliance with the technical requirements of the Commission's rules. Federal Communications Commission.

Marlene H. Dortch,
Secretary.

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Agency for Healthcare Research and Quality

Contract Review Meeting

In accordance with section 10(a) of the Federal Advisory Committee Act as amended (5 U.S.C., Appendix 2),

announcement is made of an Agency for Healthcare Research and Quality (AHRQ) Technical Review Committee (TRC) meeting. This TRC's charge is to review contract proposals and provide recommendations to the Director, AHRQ, with respect to the technical merit of proposals submitted in response to a Request for Proposals (RFP) regarding "Integrating Cost-Effectiveness Considerations in Health Policy Decisions". The RFP was published in the Federal Business Opportunities on December 20, 2004.

The upcoming TRC meeting will be closed to the public in accordance with the Federal Advisory Committee Act (FACA), section 10(d) of 5 U.S.C., Appendix 2, FACA regulations, 41 CFR 101-6.1023 and procurement regulations, 48 CFR 315.604(d). The discussions at this meeting of contract proposals submitted in response to the above-referenced RFP are likely to reveal proprietary information and personal information concerning individuals associated with the proposals. Such information is exempt from disclosure under the above-cited FACA provision and procurement rules that protect the free exchange of candid views and facilitate Department and Committee operations.

Name of TRC: The Agency for Healthcare Research and Quality—"Integrating Cost-Effectiveness Considerations in Health Policy Decisions."

Date: March 7, 2005 (Closed to the public).

Place: Agency for Healthcare Research & Quality, 540 Gaither Road, Conference Center, Rockville, Maryland 20850.

Contact Person: Anyone wishing to obtain information regarding this meeting should contact Joanna Siegel, Center for Outcomes and Evidence, Agency for Healthcare Research and Quality, 540 Gaither Road, Rockville, Maryland 20850, (301) 427-1491.

Dated: February 22, 2005.

Carolyn M. Clancy,
Director.

Centers for Disease Control and Prevention

Enhancing Healthcare Provider's Ability To Prevent Sexual Violence

Announcement Type: New.
Funding Opportunity Number: RFA 05040.

Catalog of Federal Domestic Assistance Number: 93.136.

Key Dates:

Letter of Intent Deadline: April 4, 2005.

Application Deadline: May 3, 2005.

I. Funding Opportunity Description

Authority: This program is authorized under section 391(a)(1) and (2) of the Public Health Service Act and, 42 U.S.C. 280b(a)(1) and (2) and Section 393 of the Public Health Service Act, 42 U.S.C. 280b-1a.

Background: The Centers for Disease Control and Prevention (CDC) is collaborating with its partners to better address sexual violence prevention within the health care sector. CDC and its partners have been discussing strategies for incorporating more of a health care focus into existing Sexual Assault Awareness Month (SAAM) activities. SAAM, held each year in April, is an opportunity to engage providers and raise awareness about the devastating effects of sexual violence. CDC is interested in a variety of topics, including the impact of sexual violence on public health, the role of health care providers, and the importance of prevention. The agency is in the process of creating a five-year strategic plan for how SAAM activities can be used as a catalyst for addressing sexual violence prevention in the health care sector. All recommended activities will complement those already developed by partner organizations for advocates and the general public.

Purpose: The Centers for Disease Control and Prevention (CDC) announces the availability of fiscal year (FY) 2005 cooperative agreement funds to expand the capacity of national professional organizations to address the topic of sexual violence prevention within their constituency of licensed healthcare providers.

The purpose of this funding is to support the creation of education and support materials that address sexual violence prevention within an organization that regularly provides professional development opportunities to its constituents. The products will foster the knowledge, skills, and abilities necessary for licensed healthcare providers to address sexual violence prevention in their practices.

Research suggests that sexual violence is characterized by risk and protective factors across multiple domains of influence, as represented by the ecological model presented in the World Report on Violence and Health (Krug, *et al.*, 2002). The domains of influence include individual, relationship, community, and society. Sexual
