

(2) To seek permission to enter, contact the COTP or the COTP's representative by telephone at 410-576-2693 or on Marine Band Radio VHF-FM channel 16 (156.8 MHz). The Coast Guard vessels enforcing this section can be contacted on Marine Band Radio VHF-FM channel 16 (156.8 MHz).

(3) Those in the safety zone must comply with all lawful orders or directions given to them by the COTP or the COTP's designated representative.

(d) *Enforcement officials.* The U.S. Coast Guard may be assisted in the patrol and enforcement of the safety zone by Federal, State, and local agencies.

(e) *Enforcement period.* This section will be enforced from 8 p.m. to 10:30 p.m. on July 16, 2022.

Dated: May 13, 2022.

David E. O'Connell,

Captain, U.S. Coast Guard, Captain of the Port Maryland-National Capital Region.

[Docket No. USCG-2014-0063]

RIN 1625-AC16

Requirements for MODUs and Other Vessels Conducting Outer Continental Shelf Activities With Dynamic Positioning Systems

AGENCY: Coast Guard, DHS.

ACTION: Notice of proposed rulemaking; withdrawal.

SUMMARY: The Coast Guard is withdrawing the proposed rule entitled "Requirements for MODUs and Other Vessels Conducting Outer Continental Shelf Activities with Dynamic Positioning Systems" published on November 28, 2014. We are taking this action because there have been changes in the industry in the past 7 years, including new standards and technologies, and the rule we proposed in 2014 is no longer appropriate in light of those changes. The Coast Guard may issue a new rulemaking in the future if warranted.

DATES: The notice of proposed rulemaking published on November 28, 2014 (79 FR 70943); comment period extended on February 6, 2015 (80 FR 6679); notice of public meeting and

request for comments (80 FR 12784, March 11, 2015); and notice of availability published on July 29, 2016 (81 FR 49908), is withdrawn as of May 20, 2022.

ADDRESSES: The Docket for this withdrawal is available at the Federal eRulemaking Portal at <https://www.regulations.gov>. Please search for Docket Number USCG-2014-0063.

FOR FURTHER INFORMATION CONTACT: For information about this document call or email Lieutenant Commander Dimitri Wiener, Staff Engineer, Naval Architecture Division, CG-ENG, Coast Guard; telephone 202-372-1414, email Dimitrios.N.Wiener@uscg.mil.

SUPPLEMENTARY INFORMATION:

Background

On November 28, 2014, Coast Guard published a notice of proposed rulemaking titled "Requirements for MODUs and Other Vessels Conducting Outer Continental Shelf Activities with Dynamic Positioning Systems" in the **Federal Register** (79 FR 70943).¹ The proposed rulemaking sought to establish minimum design, operation, training, and manning standards for mobile offshore drilling units (MODUs) and other vessels using dynamic positioning systems to engage in Outer Continental Shelf activities. We viewed establishing these minimum standards as necessary at the time to improve the safety of people and property involved in such operations, and the protection of the environment in which they operate. The notice of proposed rulemaking sought to decrease the risk of a loss of position by a dynamically positioned MODU or other vessel that could result in a fire, explosion, or subsea spill, and to support the Coast Guard's strategic goals of maritime safety and protection of natural resources.

Withdrawal

The Coast Guard is withdrawing the proposed rule published on November 28, 2014. Upon further review of current dynamic positioning system technologies, industry use of updated third-party standards, and the engineering and survey activities performed by recognized organizations, it is evident that significant change has occurred in the industry and that the

¹ The Coast Guard published three additional documents related to the 2014 NPRM. The comment period of the 2014 NPRM was extended on February 6, 2015 at 80 FR 6679. A notice of public meeting was published at 80 FR 12784, (March 11, 2015) and notice discussing the availability of three industry accepted training certification programs for dynamic positioning was published on July 29, 2016 (81 FR 49908).

original proposal is no longer appropriate.

The Coast Guard will continue to assess the risks associated with the use of dynamic positioning by vessels engaged in OCS activities, support the continuing development of third-party standards, oversee the work of recognized organizations, and request input from our Federal advisory committees, as appropriate. The Coast Guard may decide to develop new rulemaking proposals in the future, but Unified Agenda item 1625-AC16 will be completed once this notice is published.

This notice is issued under authority of 5 U.S.C. 552(a).

Dated: May 13, 2022.

W.R. Arguin,

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Prevention Policy.

40 CFR Part 55

[EPA-R02-OAR-2022-0400; FRL 9785-01-R2]

Outer Continental Shelf Air Regulations Update To Include New York State Requirements

AGENCY: Environmental Protection Agency.

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to update a portion of the Outer Continental Shelf (OCS) Air Regulations. Requirements applying to OCS sources located within 25 miles of states' seaward boundaries must be updated periodically to remain consistent with the requirements of the corresponding onshore area (COA), as mandated by section 328(a)(1) of the Clean Air Act (CAA). The portion of the OCS air regulations that is being updated pertains to the requirements for OCS sources for which the State of New York is the COA. The intended effect of approving the OCS requirements for the State of New York is to regulate emissions from OCS sources in accordance with the requirements onshore. The requirements discussed below are proposed to be incorporated by reference into the Code of Federal Regulations and are listed in the appendix to the OCS air regulations.

DATES: Written comments must be received on or before June 21, 2022.

ADDRESSES: Submit your comments, identified by Docket ID Number EPA-

R02–OAR–2022–0400 at <https://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. The EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. The EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <https://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT:

Viorica Petriman, Air Programs Branch, Permitting Section, U.S. Environmental Protection Agency, Region 2, 290 Broadway, New York, New York 10007, (212) 637–4021, petriman.viorica@epa.gov.

SUPPLEMENTARY INFORMATION:

Table of Contents

- I. Background and Purpose
- II. The EPA's Evaluation
- III. The EPA's Proposed Action
- IV. Incorporation by Reference
- V. Statutory and Executive Order Reviews

I. Background and Purpose

On September 4, 1992, EPA promulgated 40 CFR part 55 (“Part 55”),¹ which established requirements to control air pollution from Outer Continental Shelf (OCS) sources in order to attain and maintain Federal and State ambient air quality standards (AAQS) and to comply with the provisions of part C of title I of the Clean Air Act (CAA). The Part 55 regulations apply to all OCS sources offshore of the states except those located in the Gulf of Mexico west of 87.5 degrees longitude.

Section 328(a) of the CAA requires that for such OCS sources located within 25 miles of a State’s seaward

boundary, the requirements shall be the same as would be applicable if the sources were located in the corresponding onshore area (COA). Because the OCS requirements are based on onshore requirements, and onshore requirements may change, CAA section 328(a)(1) requires that the EPA update the OCS requirements as necessary to maintain consistency with onshore requirements. To comply with this statutory mandate, the EPA must incorporate by reference into Part 55 all relevant state rules in effect for onshore sources, so they can be applied to OCS sources located offshore. This limits EPA’s flexibility in deciding which requirements will be incorporated into 40 CFR part 55 and prevents EPA from making substantive changes to the requirements it incorporates. As a result, EPA may be incorporating rules into 40 CFR part 55 that do not conform to all of EPA’s state implementation plan (SIP) guidance or certain requirements of the CAA. Inclusion in the OCS rule does not imply that a rule meets the requirements of the CAA for SIP approval, nor does it imply that the rule will be approved by EPA for inclusion in the SIP.

40 CFR 55.12 specifies certain times at which part 55’s incorporation by reference of a state’s rules must be updated. One time such a “consistency update” must occur is when any OCS source applicant submits a Notice of Intent (NOI) under 40 CFR 55.4 for a new or a modified OCS source. 40 CFR 55.4(a) requires that any OCS source applicant must submit to EPA an NOI before performing any physical change or change in method of operation that results in an increase in emissions. EPA must conduct any necessary consistency update when it receives an NOI, and prior to receiving any application for a preconstruction permit from the OCS source applicant. 40 CFR 55.6(b)(2) and 55.12(f). This proposed action is being taken in response to the submittal of an NOI to EPA, with copies provided to certain state agencies, by March 14, 2022, by Empire Wind Offshore, LLC, which proposes to submit an OCS permit application for the construction of a new OCS source (a wind energy project) about 14 miles offshore New York.

II. The EPA’s Evaluation

In updating 40 CFR part 55, the EPA reviewed the New York State Department of Environmental Conservation (“NYSDEC”) air rules currently in effect, to ensure that they are rationally related to the attainment or maintenance of Federal and State AAQS or part C of title I of the CAA,

that they are not designed expressly to prevent exploration and development of the OCS, and that they are applicable to OCS sources. *See* 40 CFR 55.1. The EPA has also evaluated the rules to ensure they are not arbitrary and capricious. *See* 40 CFR 55.12(e). The EPA has excluded New York’s administrative or procedural rules,² and requirements that regulate toxics which are not related to the attainment and maintenance of Federal and State AAQS.

III. The EPA’s Proposed Action

In today’s action, the EPA is proposing to update the “New York” section of Appendix A to 40 CFR part 55 to incorporate by reference relevant New York air pollution control rules that are found at various locations in Chapter III of Title 6 of the New York Codes, Rules and Regulations (NYCRR), and are currently in effect. The specific provisions being incorporated by reference are identified in the proposed regulatory language at the end of this proposed rule.

IV. Incorporation by Reference

In this proposed rule, the EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with the requirements of 1 CFR 51.5, the EPA is proposing to incorporate by reference the NYSDEC air rules that are applicable to OCS sources and which are currently in effect. These regulations are described in Section III (“The EPA’s Proposed Action”) of this preamble. The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 2 Office. Please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information.

V. Statutory and Executive Order Reviews

Under the Clean Air Act, the Administrator is required to establish requirements to control air pollution from OCS sources located within 25 miles of states’ seaward boundaries that are the same as onshore air control requirements. To comply with this statutory mandate, the EPA must incorporate applicable onshore rules into part 55 as they exist onshore. 42

² Each COA which has been delegated the authority to implement and enforce part 55 will use its administrative and procedural rules as onshore. However, in those instances where EPA has not delegated authority to implement and enforce part 55, as is the case in New York, EPA will use its own administrative and procedural requirements to implement the substantive requirements. *See* 40 CFR 55.14(c)(4).

¹ The reader may refer to the Proposed Rulemaking, December 5, 1991 (56 FR 63774), and the preamble to the final rule promulgated September 4, 1992 (57 FR 40792) for further background and information on the OCS regulations.

U.S.C. 7627(a)(1); 40 CFR 55.12. Thus, in promulgating OCS consistency updates, the EPA's role is to maintain consistency between OCS regulations and the regulations of onshore areas, provided that they meet the criteria of the Clean Air Act. Accordingly, this action simply updates the existing OCS requirements to make them consistent with requirements onshore, without the exercise of any policy discretion by the EPA.

a. Executive Order 12866, Regulatory Planning and Review

This action is not a "significant regulatory action" under the terms of Executive Orders (E.O.) 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011) and is therefore not subject to review under the E.O.

b. Paperwork Reduction Act (PRA)

This action does not impose any new information collection burden under PRA because this action only updates the state rules that are incorporated by reference into 40 CFR part 55, Appendix A. OMB has previously approved the information collection activities contained in the existing regulations at 40 CFR part 55 and, by extension, this update to 40 CFR part 55, and has assigned OMB control number 2060-0249. This action does not impose a new information burden under PRA because this action only updates the state rules that are incorporated by reference into 40 CFR part 55, Appendix A.

c. Regulatory Flexibility Act (RFA)

I certify that this action will not have a significant impact on a substantial number of small entities under the RFA. This proposed rule does not impose any requirements or create impacts on small entities. This proposed consistency update under CAA section 328 will not create any new requirements but simply proposes to update the State requirements incorporated by reference into 40 CFR part 55 to match the current State requirements.

d. Unfunded Mandates Reform Act (UMRA)

This action does not contain any unfunded mandate or significantly or uniquely affect small governments as described in UMRA, 2 U.S.C. 1531-1538. The action imposes no enforceable duty on any state, local or tribal governments.

e. Executive Order 13132, Federalism

This action does not have federalism implications. It will not have substantial

direct effects on the states, on the relationship between the national government and the states, or on the distribution of power and responsibilities among the various levels of government.

f. Executive Order 13175, Coordination With Indian Tribal Governments

This action does not have tribal implications, as specified in Executive Order 13175 (65 FR 67249, November 9, 2000), because it does not have a substantial direct effect on one or more Indian tribes, on the relationship between the Federal Government and Indian tribes, or on the distribution of power and responsibilities between the Federal Government and Indian tribes, nor does it impose substantial direct costs on tribal governments, nor preempt tribal law. It merely updated the State law incorporated by reference into 40 CFR part 55 to match current State requirements.

g. Executive Order 13045, Protection of Children From Environmental Health Risks and Safety Risks

EPA interprets Executive Order 13045 as applying only to those regulatory actions that concern health or safety risks that the EPA has reason to believe may disproportionately affect children, per the definition of "covered regulatory action" in section 2-202 of the Executive Order. This action is not subject to Executive Order 13045 because it is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 and simply proposes to update the State requirements incorporated by reference into 40 CFR part 55 to match the current State requirements.

h. Executive Order 13211, Actions That Significantly Affect Energy Supply, Distribution, or Use.

This proposed rule is not subject to Executive Order 13211 because it is not a significant regulatory action under Executive Order 12866.

i. National Technology Transfer and Advancement Act

This rulemaking is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the Clean Air Act.

j. Executive Order 12898: Federal Actions To Address Environmental Justice in Minority Populations and Low-Income Population

The EPA believes that this action is not subject to Executive Order 12898 (59 FR 7629, February 16, 1994) because it does not provide the EPA with the discretionary authority to address, as appropriate, disproportionate human health, or environmental effects, using practicable and legally permissible methods.

List of Subjects in 40 CFR Part 55

Environmental protection, Administrative practice and procedures, Air pollution control, Hydrocarbons, Incorporation by reference, Intergovernmental relations, Nitrogen dioxide, Nitrogen oxides, Outer Continental Shelf, Ozone, Particulate matter, Permits, Reporting and recordkeeping requirements, Sulfur oxides.

Lisa Garcia,

Regional Administrator, Region 2.

For the reasons set out in the preamble, title 40 of the Code of Federal Regulations, part 55, is proposed to be amended as follows.

PART 55—[AMENDED]

■ 1. The authority citation for 40 CFR part 55 continues to read as follows:

Authority: Section 328 of the Clean Air Act (42 U.S.C. 7401, *et seq.*) as amended by Public Law 101-549.

■ 2. Section 55.14 is amended by revising the paragraph (e)(16)(i)(A) to read as follows:

§ 55.14 Requirements that apply to OCS sources located within 25 miles of States' seaward boundaries, by State.

* * * * *

(e) * * *

(16) * * *

(i) * * *

(A) State of New York Requirements Applicable to OCS Sources, March 10, 2022.

* * * * *

■ 3. Appendix A to 40 CFR part 55 is amended by revising the entry for "New York" to read as follows:

Appendix A to Part 55—Listing of State and Local Requirements Incorporated by Reference Into Part 55, by State

* * * * *

New York

(a) State requirements.

(1) The following State of New York requirements are applicable to OCS Sources, as of March 10, 2022. New York Environmental Conservation Law—

Department of Environmental Conservation.
The following sections of Title 6, Chapter III:

Subchapter A. Prevention and Control of Air Contamination and Air Pollution

Part 200. General Provisions
