SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (PRA, 44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other federal agencies with an opportunity to comment on new, proposed, revised,

and continuing collections of information. This helps us assess the impact of our information collection requirements and minimize the public’s reporting burden. It also helps the public understand our information collection requirements and provide the requested data in the desired format.

On April 6, 2023, we published the 60-day **Federal Register** Notice in the **Federal Register** (88 FR 20548) to request OMB to approve the renewal of the information collection associated with the Youth Conservation Corps Application and Medical History Forms. We solicited public comments for 60 days, ending June 5, 2023. We did not receive any comments from the public.

As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other federal agencies on the proposed ICR that is described below. We are especially interested in public comment addressing the following:

(1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;

(2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;

(3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

(4) How might the agency minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, *e.g.*, permitting electronic submission of response.

Comments that you submit in response to this notice are a matter of public record. Before including your address, phone number, email address, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Abstract: The Youth Conservation Corps (YCC) is a summer youth employment program that engages young people in meaningful work experiences at national parks, forests, wildlife refuges, and fish hatcheries while developing an ethic of

environmental stewardship and civic responsibility. YCC programs are generally eight to ten weeks and members are paid at least the state or federal minimum wage (whichever is higher) for a 40-hour work week. YCC opportunities provide paid daytime work activities with members who commute to the federal unit daily. Authorized by the Youth Conservation Corps Act of August 13, 1970, as amended (U.S. 1701–1706), participating agencies (National Park Service, U.S. Fish and Wildlife Service, Forest Service) use common forms: DI–4014, “Youth Conservation Corps Application” and DI–4015, “Youth Conservation Corps Medical History” to collect information to determine the eligibility of each youth for employment with the YCC. Parents or guardians must sign both forms if the applicant is under 18 years of age.
