AGENCY: Transportation Security Administration, DHS.

ACTION: Notice.

SUMMARY: This notice announces that the Transportation Security Administration (TSA) has forwarded the Information Collection Request (ICR) abstracted below to the Office of Management and Budget (OMB) for review and approval of an extension of the currently approved collection under the Paperwork Reduction Act. The ICR describes the nature of the information collection and its expected burden. TSA published a **Federal Register** notice, with a 60-day comment period soliciting comments, of the following collection of information on December 3, 2007, 72 FR 67945. The collection mechanisms include (1) a Disclosure Form that requires a TWIC applicant to certify his/her eligibility and provide basic biographic information and (2) a customer satisfaction survey that evaluates an applicant's entire enrollment experience.

DATES: Send your comments by March 26, 2008. A comment to OMB is most effective if OMB receives it within 30 days of publication.

ADDRESSES: Interested persons are invited to submit written comments on the proposed information collection to the Office of Information and Regulatory Affairs, Office of Management and Budget. Comments should be addressed to Nathan Lesser, Desk Officer, Department of Homeland Security/TSA, and sent via electronic mail to oir_submission@omb.eop.gov or faxed to (202) 395-6974.

SUPPLEMENTARY INFORMATION:

Comments Invited

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), an agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a valid OMB control number. The ICR documentation is available at <http://www.reginfo.gov>. Therefore, in preparation for OMB review and approval of the following information collection, TSA is soliciting comments to—

- (1) Evaluate whether the proposed information requirement is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) Evaluate the accuracy of the agency's estimate of the burden;
- (3) Enhance the quality, utility, and clarity of the information to be collected; and
- (4) Minimize the burden of the collection of information on those who are to respond, including using appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Information Collection Requirement

TSA developed the TWIC program to mitigate security threats and vulnerabilities in the national maritime system. The TWIC is a biometric credential that is issued to all mariners and individuals who require unescorted access to maritime facilities and vessels. Before issuing an individual a credential, TSA performs a security threat assessment, which requires the collection of certain biographic and biometric information during the enrollment process. Each TWIC applicant must complete the TWIC

Disclosure and Certification Form. This form provides the applicant a Privacy Act Notice and a Paperwork Reduction Act Statement, explains how an applicant's biographic information will be used, and requires each applicant to certify his/her eligibility for a TWIC, as required in the TWIC final rule. The TWIC Enrollment Customer Satisfaction Survey is entirely voluntary. However, participation is recommended to all applicants in order to provide the government key insights regarding the quality of each applicant's enrollment experience (initial enrollment through completion of card activation). The data collected from the surveys will be used for process improvements and contractor performance reviews.

The TWIC program implements authorities set forth in the Maritime Transportation Security Act of 2002 (MTSA) (Pub. L. 107-295; Nov. 25, 2002; sec. 102), and the Safe, Accountable, Flexible, Efficient Transportation Equity Act—A Legacy for Users (SAFETEA-LU) (Pub. L. 109-59; Aug. 10, 2005; sec. 7105), codified at 49 U.S.C. 5103a(g). TSA and the United States Coast Guard (Coast Guard) issued a joint final rule on January 25, 2007, cited in the **Federal Register**, 72 FR 3492.

Applicants may provide enrollment data electronically during an optional pre-enrollment step, via an enrollment Web site which streamlines the applicant's enrollment experience. Applicants who pre-enroll are able to provide all of the biographic information electronically that is required to complete enrollment and make an appointment at the enrollment center where enrollment must be completed in-person. During in-person enrollment, applicants pay the enrollment fee, complete a TWIC Disclosure and Certification Form (required of all applicants), provide and verify biographic information (if not already provided during pre-enrollment) and a complete set of fingerprints, and sit for a digital photograph. All applicants are required to provide acceptable documents to verify their identity and immigration status (if required) at this time as well. These documents are reviewed by the Trusted Agent and scanned into the electronic enrollment record. The current estimated annualized reporting burden is 1,353,100 hours and the estimated annualized cost burden is \$14,779,500 (low)/\$18,063,833 (high).

This information allows TSA to complete a comprehensive security threat assessment.

Background

The Department of Homeland Security (DHS), through the United States Coast Guard and the Transportation Security Administration (TSA), issued a joint final rule (72 FR 3492; January 25, 2007) pursuant to the Maritime Transportation Security Act (MTSA), Pub. This rule requires all credentialed merchant mariners and individuals with unescorted access to secure areas of a regulated facility or vessel to obtain a TWIC. In this final rule, on page 3510, TSA and Coast Guard stated that a phased enrollment approach based upon risk assessment and cost/benefit would be used to implement the program nationwide, and that TSA would publish a notice in the **Federal Register** indicating when enrollment at a specific location will begin and when it is expected to terminate.
