Description: This is a one-time information collection consisting of a survey of sponsors of registered apprenticeship programs, using a stratified random sample with over sampling of sponsors in high growth industries who have recently begun apprenticeship programs. The survey will be conducted by phone or Internet at the respondent's choice. The findings from the survey will fill a gap in knowledge by providing, for the first time, systematic information on the views of sponsors' views re: Costs and benefits and on interactions with other parts of the workforce development system.
