

Remote access to the Department of State network from non-Department owned systems is authorized only through a Department approved access program. Remote access to the network is configured with the Office of Management and Budget Memorandum M-07-16 security requirements, which include but are not limited to two-factor authentication and time-out function.

All Department of State employees and contractors with authorized access have undergone a thorough background security investigation. Access to the Department of State, its annexes and posts abroad is controlled by security guards and admission is limited to those individuals possessing a valid identification card or individuals under proper escort. All paper records containing personal information are maintained in secured file cabinets in restricted areas, access to which is limited to authorized personnel only. Access to computerized files is password-protected and under the direct supervision of the system manager. The system manager has the capability of printing audit trails of access from the computer media, thereby permitting regular and ad hoc monitoring of computer usage.

When it is determined that a user no longer needs access, the user account is disabled.

An electronic copy of this document may be downloaded from the **Federal Register's** home page at: <http://www.archives.gov> and the Government Printing Office's database at: <http://www.access.gpo.gov/nara>.

Background

The FHWA's Buy America policy in 23 CFR 635.410 requires a domestic manufacturing process for any steel or iron products (including protective coatings) that are permanently incorporated in a Federal-aid construction project. The regulation also provides for a waiver of the Buy America requirements when the application would be inconsistent with the public interest or when satisfactory quality domestic steel and iron products are not sufficiently available. This notice provides information regarding the FHWA's finding that a Buy America waiver is appropriate to use non-domestic $\frac{1}{2}$ " \times 0.008 steel fiber with ultimate tensile strength of 290ksi for experimental use in UHPC in Oregon and New York.

In accordance with Division A, section 123 of the "Consolidated Appropriations Act, 2010" (Pub. L. 111-117), the FHWA published a notice of intent to issue a waiver on its Web site for $\frac{1}{2}$ " \times 0.008 steel fiber with ultimate tensile strength of 290ksi for experimental use in UHPC in Oregon and New York (<http://www.fhwa.dot.gov/construction/contracts/waivers.cfm?id=55>) on April 4th. The FHWA received seven comments in response to the publication. Three commenters opposed the waiver request but did not provide information about domestic manufacturers. Three other commenters were in support of the waiver and suggested that domestic manufacturers of steel fibers should have been in production by now. Oregon Department of Transportation responded to each comment received for this waiver request. During the 15-day comment period, the FHWA conducted additional nationwide review to locate potential domestic manufacturers for $\frac{1}{2}$ " \times 0.008 steel fiber with ultimate tensile strength of 290ksi for experimental use in UHPC in Oregon and New York. Based on all the information available to the agency, the FHWA concludes that there are no domestic manufacturers of $\frac{1}{2}$ " \times 0.008 steel fiber with ultimate tensile strength of 290ksi for experimental use in UHPC in Oregon and New York.

In accordance with the provisions of section 117 of the SAFETEA-LU Technical Corrections Act of 2008 (Pub.

L. 110–244, 122 Stat. 1572), the FHWA is providing this notice as its finding that a waiver of Buy America requirements is appropriate. The FHWA invites public comment on this finding for an additional 15 days following the effective date of the finding. Comments may be submitted to the FHWA's Web site via the link provided to the Oregon/New York waiver page noted above.

The FHWA received three comments in response to the publication. Two of the comments inquired for more detailed information about the project and the purpose of using the stud link chain on the project. The third comment, by the Louisiana Department of Transportation, responded to the first two comments. The response provided additional information about the project, including the purpose for the use of the 5 3/8" stud link chain. During the 15-day comment period, the FHWA conducted additional nationwide review to locate potential domestic manufacturers for 5 3/8" stud link chain.
