

processed blue mussels from Canada are being, or are likely to be, sold at less than fair value.

Allegations and Evidence of Material Injury and Causation

The petition alleges that the U.S. industry producing the domestic like product is being materially injured, or is threatened with material injury, by reason of the individual and cumulated imports of the subject merchandise sold at less than NV. The petitioner contends that the industry's injured condition is evident in the declining trends in net operating profits, net sales volumes, profit to sales ratios, and capacity utilization. The allegations of injury and causation are supported by relevant evidence including the U.S. Customs' import statistics and the *Seafood Report* which indicate that imports of blue mussels from Canada in 2000 grew by at least 30 percent compared to the prior year. *See Seafood Report*, at vol. 5, numbers 9 and 12 (attached to the petition). According to the petitioner, the trend of Canadian imports registered similar growth rates in the past four years, while during the same period petitioner's sales have been declining. We have assessed the allegations and supporting evidence regarding material injury and causation, and have determined that these allegations are properly supported by accurate and adequate evidence and meet the statutory requirements for initiation (*see Initiation Checklist* at Attachment Re: Material Injury).

Initiation of Antidumping Investigation

Based upon our examination of the petition on live processed blue mussels, and the petitioner's response to our supplemental questionnaire clarifying the petition, as well as our conversations with industry experts who provided information concerning various aspects of the petition, we have found that they meet the requirements of section 732 of the Act. *See Industry Support Memorandum*. Therefore, we are initiating an antidumping duty investigation to determine whether imports of live processed blue mussels from Canada are being, or are likely to be, sold in the United States at less than fair value. Unless this deadline is extended, we will make our preliminary determination no later than 140 days after the date of this initiation.

Distribution of Copies of the Petitions

In accordance with section 732(b)(3)(A) of the Act, a copy of the public version of this petition has been provided to the representatives of the Government of Canada. We will attempt

to provide a copy of the public version to each exporter named in the petition, as appropriate.

International Trade Commission Notification

We have notified the ITC of our initiation, as required by section 732(d) of the Act.

Preliminary Determinations by the ITC

The ITC will determine, no later than April 26, 2001, whether there is a reasonable indication that imports of live processed blue mussels from Canada are causing material injury, or threatening to cause material injury, to a U.S. industry. A negative ITC determination will result in the investigation being terminated; otherwise, this investigation will proceed according to statutory and regulatory time limits.

This notice is issued and published pursuant to section 777(i) of the Act. Effective January 20, 2001, Bernard T. Carreau is fulfilling the duties of the Assistant Secretary for Import Administration.

Dated: April 2, 2001.
