

a. The name, mailing address, telephone number, and interest of the person filing the protest.

b. A statement of the part or parts of the plan and the issue or issues being protested.

c. A copy of all documents addressing the issue(s) that the protesting party submitted during the planning process or a statement of the date they were discussed for the record.

d. A concise statement explaining why the protestor believes the New Mexico BLM State Director's decision is wrong.

E-mail and faxed protests will not be accepted as valid protests unless the protesting party also provides the original letter by either regular or overnight mail postmarked by the close of the protest period. Under these conditions, BLM will consider the e-mail or faxed protest as an advance copy and it will receive full consideration. If you wish to provide BLM with such advance notification, please direct faxed protests to the attention of the BLM protest coordinator at 202-452-5112, and e-mails to Brenda_Hudgens-Williams@blm.gov.

Plan approval will be documented in a Record of Decision that will be made available to the public and mailed to all interested parties. The Camino Real Administration plans to use the CMP as the framework for pursuing collaborative management of trail resources. Comprehensive management plan implementation usually involves on-the-ground management actions and permitted uses that require further analysis and decision making including public involvement and allows for appeals of decisions under applicable regulations.

Acting State Director, BLM—New Mexico/Oklahoma/Texas.

National Park Service

Notice of Availability of a Final Environmental Impact Statement for the Lackawanna Valley National Heritage Area Management Plan

AGENCY: National Park Service, Department of the Interior.

ACTION: Availability of the final environmental impact statement for the

Lackawanna Valley National Heritage Area Management Plan.

SUMMARY: Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the National Park Service (NPS) announces the availability of a Final Environmental Impact Statement (FEIS) for Lackawanna Valley National Heritage Area Management Plan. The Lackawanna Valley National Heritage Area Act of 2000 requires the Lackawanna Heritage Valley Authority, with guidance from the NPS, to prepare a Plan for the Lackawanna Heritage Valley. The Management Plan is expected to: (A) Take into consideration State, county, and local plans; (B) involve residents, public agencies, and private organizations working in the Heritage Area, (C) include actions to be undertaken by units of government and private organizations to protect the resources of the Heritage Area and specify the existing and potential sources of funding available to protect, manage, and develop the Heritage Area.; (D) develop an inventory of the resources contained in the Heritage Area, including a list of any property in the Heritage Area that is related to the purposes of the Heritage Area and that should be preserved, restored, managed, developed, or maintained because of its historical, cultural, natural, recreational, or scenic significance; (E) recommend policies for resource management that considers and details application of appropriate land and water management techniques, including the development of intergovernmental cooperative agreements to protect the historical, cultural, natural, and recreational resources of the Heritage Area in a manner that is consistent with the support of appropriate and compatible economic viability, (F) establish a program for implementation of the management plan by the management entity that includes plans for restoration and construction and specific commitments of the partners for the first 5 years of operation; (G) perform an analysis of ways in which local, State, and Federal programs may best be coordinated to protect the heritage resources, and (H) develop an interpretation plan for the Heritage Area.

The study area, designated as the Lackawanna Valley National Heritage Area, includes parts of the counties of Lackawanna, Luzerne, Wayne, and Susquehanna County, in northeastern Pennsylvania as associated with the Lackawanna River corridor.

The NPS maintains one park site within the region: Steamtown National Historic Site in Scranton. Otherwise the

majority of land is non-federal and the NPS assumes a management role only within their park units. Instead, conservation, interpretation and other activities are managed by partnerships among federal, state, and local governments and private nonprofit organizations. The Lackawanna Heritage Valley Authority manages the national heritage area. The NPS has been authorized by Congress to provide technical and financial assistance for a limited period. The Act prohibits the Secretary of the Interior from providing any grant or other assistance pursuant to the Act after September 30, 2012.

DATES: The FEIS will remain on Public Review for thirty days from the publication of the notice in the **Federal Register** by the Environmental Protection Agency.
