

SUPPLEMENTARY INFORMATION: Meeting information, including the agenda, overview, briefing book materials, and an online public comment form will be posted on the Council's website at: <https://safmc.net/advisory-panel-meetings/> two weeks prior to the meeting. The meeting is open to the public and available via webinar as it occurs. The webinar registration link will be available from the Council's website. Public comment will also be taken during the meeting.

The agenda for the Snapper Grouper AP meeting includes: updating the Fishery Performance Report for gag; recommending stock risk ratings for gag and black sea bass; discussion of management changes considered for black sea bass, golden tilefish, and for-hire reporting; an exercise to help design the Council's Lines of Communication stakeholder meetings; review of the Council's 2023–2027 Research and Monitoring Plan; and a presentation on research conducted in South Atlantic Spawning Special Management Zones. The AP will also receive updates on the developing or upcoming amendments to the Snapper Grouper Fishery Management Plan for the South Atlantic, provide input and recommendations on agenda items for the Council's consideration, and address other items as needed.

Special Accommodations

The meeting is physically accessible to people with disabilities. Requests for auxiliary aids should be directed to the Council office (see **ADDRESSES**) 3 days prior to the meeting.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 13, 2025.

Key Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

[RTID 0648–XE696]

Marine Mammals; File No. 28912

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice; receipt of application.

SUMMARY: Notice is hereby given that Daniel Costa, Ph.D., University of California at Santa Cruz, 130 McAlister Way, Santa Cruz, CA 95060, has applied in due form for a permit to conduct research on California sea lions (*Zalophus californianus*).

DATES: Written comments must be received on or before April 17, 2025.

ADDRESSES: The application and related documents are available for review by selecting “Records Open for Public Comment” from the “Features” box on the Applications and Permits for Protected Species home page, <https://apps.nmfs.noaa.gov>, and then selecting File No. 28912 from the list of available applications. These documents are also available upon written request via email to NMFS.Pr1Comments@noaa.gov.

Written comments on this application should be submitted via email to NMFS.Pr1Comments@noaa.gov. Please include File No. 28912 in the subject line of the email comment.

Those individuals requesting a public hearing should submit a written request via email to NMFS.Pr1Comments@noaa.gov. The request should set forth the specific reasons why a hearing on this application would be appropriate.

FOR FURTHER INFORMATION CONTACT: Sara Young or Shasta McClenahan, Ph.D., (301) 427–8401.

SUPPLEMENTARY INFORMATION: The subject permit is requested under the authority of the Marine Mammal Protection Act of 1972, as amended (MMPA; 16 U.S.C. 1361 *et seq.*), the regulations governing the taking and importing of marine mammals (50 CFR part 216), and the Fur Seal Act of 1966, as amended (16 U.S.C. 1151 *et seq.*).

The applicant proposes to conduct research on California sea lions throughout their range to investigate their foraging ecology, habitat use, and health. Proposed activities include: unmanned aircraft system, vessel and ground surveys for counts, photography, observations, and acoustic playbacks; captures, including sedation, anesthesia, restraint, morphometrics, marking, external instrument attachment, biological sampling, and ultrasound; and collection, import, export, and receipt of pinniped parts. The applicant requests up to three unintentional mortalities annually, not to exceed 20 over the duration of the permit. Ten non-target species of non-ESA listed cetaceans and four non-target non-ESA listed species of pinnipeds may be disturbed during these studies. See the application for complete numbers of animals requested by species and procedure. The requested duration of this permit is 10 years.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 *et seq.*), an initial determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Concurrent with the publication of this notice in the **Federal Register**, NMFS is forwarding copies of the application to the Marine Mammal Commission and its Committee of Scientific Advisors.

Dated: March 13, 2025.

Amy Sloan,

Acting Chief, Permits and Conservation Division, Office of Protected Resources, National Marine Fisheries Service.

[RTID 0648–XE768]

Fisheries of the U.S. Caribbean; Southeast Data, Assessment, and Review (SEDAR); Public Meeting

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of SEDAR 101 Pre-Data Workshop Webinar for Highly Migratory Species (HMS) Sandbar Sharks.

SUMMARY: The SEDAR 101 assessment process of HMS sandbar sharks will consist of a Data Workshop, an Assessment Workshop and a Center for Independent Experts (CIE) Desk Review. See **SUPPLEMENTARY INFORMATION**.

DATES: The SEDAR 101 Pre-Data Workshop webinar will be held April 7, 2025, from 10 a.m. to 12 p.m., Eastern Time.

ADDRESSES:

Meeting address: The meeting will be held via webinar. The webinar is open to members of the public. Those interested in participating should contact Emily Ott at SEDAR (see **FOR FURTHER INFORMATION CONTACT**) to request an invitation providing webinar access information. Please request webinar invitations at least 24 hours in advance of each webinar.

SEDAR address: 4055 Faber Place Drive, Suite 201, North Charleston, SC 29405.

FOR FURTHER INFORMATION CONTACT: Emily Ott, SEDAR Coordinator; (843) 302–8434; email: Emily.Ott@safmc.net.

SUPPLEMENTARY INFORMATION: The Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils, in conjunction with NOAA Fisheries and the Atlantic and Gulf States Marine Fisheries Commissions have implemented the Southeast Data, Assessment and Review (SEDAR) process, a multi-step method for determining the status of fish stocks in the Southeast Region. SEDAR is a multi-step process including: (1) Data Workshop, (2) a series of assessment webinars or Assessment Workshop, and (3) A Review Workshop or CIE Desk Review. The product of the Data Workshop is a report that compiles and evaluates potential datasets and recommends which datasets are appropriate for assessment analyses. The assessment webinars or Assessment Workshop produce a report that describes the fisheries, evaluates the status of the stock, estimates biological benchmarks, projects future population conditions, and recommends research and monitoring needs. The product of the Review Workshop is an Assessment Summary documenting panel opinions regarding the strengths and weaknesses of the stock assessment and input data. Participants for SEDAR Workshops are appointed by the Gulf of Mexico, South Atlantic, and Caribbean Fishery Management Councils and NOAA Fisheries Southeast Regional Office, HMS Management Division, and Southeast Fisheries Science Center. Participants include data collectors and database managers; stock assessment scientists, biologists, and researchers; constituency representatives including fishermen, environmentalists, and NGO's; International experts; and staff of Councils, Commissions, and state and federal agencies.

The items of discussion during the pre-Data Workshop webinar are as follows:

Participants will discuss what data may be available for use in the assessment.

Although non-emergency issues not contained in this agenda may come before this group for discussion, those issues may not be the subject of formal action during this meeting. Action will be restricted to those issues specifically identified in this notice and any issues arising after publication of this notice that require emergency action under section 305(c) of the Magnuson-Stevens Fishery Conservation and Management Act, provided the public has been notified of the intent to take final action to address the emergency.

Special Accommodations

These meetings are physically accessible to people with disabilities. Requests for sign language interpretation or other auxiliary aids should be directed to the Council office (see **ADDRESSES**) at least 5 business days prior to each workshop.

Note: The times and sequence specified in this agenda are subject to change.

Authority: 16 U.S.C. 1801 *et seq.*

Dated: March 13, 2025.

Rey Israel Marquez,

Acting Deputy Director, Office of Sustainable Fisheries, National Marine Fisheries Service.

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

Agency Information Collection Activities; Submission to the Office of Management and Budget (OMB) for Review and Approval; Comment Request; Collection of High-Resolution Spatial and Temporal Fishery Dependent Data to Support Scientific Research

AGENCY: National Oceanic & Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of information collection, request for comment.

SUMMARY: The Department of Commerce, in accordance with the Paperwork Reduction Act of 1995 (PRA), invites the general public and other Federal agencies to comment on proposed, and continuing information collections, which helps us assess the impact of our information collection requirements and minimize the public's reporting burden. The purpose of this notice is to allow for 60 days of public comment preceding submission of the collection to OMB.

DATES: To ensure consideration, comments regarding this proposed information collection must be received on or before May 19, 2025.

ADDRESSES: Interested persons are invited to submit written comments to Adrienne Thomas, NOAA PRA Officer, at NOAA.PRA@noaa.gov. Please reference OMB Control Number 0648-0803 in the subject line of your comments. All comments received are part of the public record and will generally be posted on <https://www.regulations.gov> without change. Do not submit Confidential Business

Information or otherwise sensitive or protected information.

FOR FURTHER INFORMATION CONTACT:

Requests for additional information or specific questions related to collection activities should be directed to Katie Burchard, Marine Resources Management Specialist, Northeast Fisheries Science Center, 28 Tarwell Drive, Narragansett Rhode Island, 401-299-9587, Katie.Burchard@noaa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

This is an extension of an existing information collection with no changes.

Commercial fishers from the Northeast and Mid-Atlantic will collaborate with NOAA Fisheries, Northeast Fisheries Science Center (NEFSC) Cooperative Research Branch, to voluntarily collect detailed fishery-dependent data during commercial fishing trips. Collection of information regarding commercial fisheries is necessary to fulfill the following statutory requirements: the Magnuson-Stevens Fishery Conservation and Management Act (16 U.S.C. 1801 *et seq.*).

Fishers will use the Fisheries Logbook Data Reporting Software (FLDRS) to collect high-resolution information on fishing effort and catch. The goal is to enable fishers to collect more accurate and precise data on where and how many fish are caught, and how much effort was expended. This high-resolution data will lead to improved accuracy of commercial fisheries data and better understanding of fishery dynamics. The FLDRS software was designed to record data at the haul (effort) level, similar to the level of data collected by the Northeast Fisheries Observer Program (NEFOP), but can be used to collect sub-trip level data and is approved for federal Electronic Vessel Trip Reporting (eVTR). FLDRS can be integrated with Global Positioning Systems (GPS), Vessel Monitoring Systems (VMS), depth sounders, and temperature/depth sensors. The FLDRS software can use the VMS to transmit a trip data file to NEFSC email account where it is ultimately uploaded to NEFSC database. Alternatively, the vessel operator can choose to manually upload trip files using the web-based application Vessel Electronic Reporting Web Portal (VERS).

Temperature and Depth (TD) data will be collected opportunistically and dependent on fisher interest. TD probes will be used to monitor the duration of time gear is fished in addition to collecting temperature and depth data. The high-resolution catch data in
