NUCLEAR REGULATORY COMMISSION

[NRC-2013-0252; Docket Nos. 50-220, 50-410; License Nos. DPR-63, NPF-69]

Nine Mile Point Nuclear Station, LLC; Exelon Generation Company, LLC (Nine Mile Point Nuclear Station, Units 1 and 2); Order Approving Direct Transfer of Licenses and Conforming Amendments

I

Nine Mile Point Nuclear Power Station, LLC (Nine Mile Point, LLC or the licensee) is the holder of Renewed Facility Operating License No. DPR-63, which authorizes the possession, use, and operation of Nine Mile Point Nuclear Station, Unit 1 (Nine Mile Point 1), including an Independent Spent Fuel Storage Installation (ISFSI) with a general license. Nine Mile Point, LLC is also the 82 percent owner and the licensed operator of Renewed Facility

Operating License No. NPF-69, which authorizes the possession, use, and operation of Nine Mile Point Nuclear Station, Unit 2 (Nine Mile Point 2). Long Island Power Authority owns the remaining 18 percent of Nine Mile Point 2. Nine Mile Point 1 and 2 (the facility) is located in Oswego County, New York.

II

By application dated August 6, 2013, as supplemented by letters and emails dated August 14, 2013, September 23 and 26, 2013, December 17, 2013, January 9, 2014, and February 5, 10, 14, and 21, 2014 (together, the application), Constellation Energy Nuclear Group, LLC (CENG) requested on behalf of itself, its subsidiary, Nine Mile Point, LLC, and Exelon Generation Company, LLC (Exelon Generation) (together, the applicants), that the U.S. Nuclear Regulatory Commission (NRC) approve the proposed direct transfer of operating authority of the facility to Exelon Generation. The applicants also requested approval of conforming license amendments that would reflect the proposed transfer of operating authority to Exelon Generation. Prior to the transfer, Exelon Generation was an intermediate 50.01 percent parent company of CENG, which is the parent company owner of Nine Mile Point, LLC. After completion of the proposed transfer, Exelon Generation would remain an intermediate parent company and also become the co-licensee of Nine Mile Point, LLC and the operator of Nine Mile Point 1 and 2. Exelon Generation will assume direct licensed responsibility for the operation of the facility and its ISFSI, but the ownership will not be affected. There will be no physical changes to the facility and no adverse changes in day-to-day operations.

Approval of the direct transfer of the renewed facility operating licenses and the conforming amendments was requested by the applicants pursuant to Sections 50.80 and 50.90 of Title 10 of the *Code of Federal Regulations* (10 CFR). A notice entitled, "Consideration of Approval of Transfer of Renewed Facility Operating Licenses, Materials Licenses, and Conforming Amendments Containing Sensitive Unclassified Non-Safeguards Information," was published in the **Federal Register** on December 26, 2013 (78 FR 78411). No comments or hearing requests were received.

Pursuant to 10 CFR 50.80, no license, or any right thereunder, shall be transferred, directly or indirectly, through transfer of control of the license, unless the NRC shall give its consent in writing. Upon review of the information in the application, and
