

notice announces the U.S. Election Assistance Commission's (EAC) intention to request an extension and revision of a currently approved collection. The information collection was previously published in the **Federal Register** on January 24, 2007, at 72 FR 3127. The notice allowed for a 60-day public comment period. No comments were received on this information collection. The purpose of this notice is to allow an additional 30 days for public comments. Comments are encouraged and will be accepted until April 27, 2007. This process is conducted in accordance with 5 CFR 1320.10. Comments are invited on: (a) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information shall have practical utility; (b) the accuracy of the agency's estimate of the burden of the proposed information collection; (c) ways to enhance the quality, utility, and clarity of the information to be collected; and (d) ways to minimize the burden of the information collection on respondents, including through the use of automated collection techniques or other forms of information technology.

DATES: Written comments must be submitted on or before April 27, 2007.

ADDRESSES: Written comments and recommendations on the proposed information collection should be sent to *OMB Reviewer:* Alexander T. Hunt, Office of Management and Budget, Room 10235, New Executive Office Building, Washington, DC 20503, (202) 395-7316.

FOR FURTHER INFORMATION CONTACT: To request more information on this proposed information collection or to obtain a copy of the proposal and associated collection instruments, please write to the above address or call Mr. Brian Hancock at (202) 566-3100.

SUPPLEMENTARY INFORMATION:

Title: EAC Voting System Testing and Certification Program Manual.

OMB Number: 3265-0004.

Type of Review: Extension with change of a currently approved collection.

Needs and Uses: HAVA requires that the EAC certify and decertify voting systems (42 U.S.C. 15371). Section 231(a)(1) of HAVA specifically requires the EAC to “* * * provide for the certification, decertification and recertification of voting system hardware and software by accredited laboratories.” The EAC will perform this mandated function through the use of its Voting System Testing and Certification Program. Voting systems certified by the EAC will be used by

citizens to cast votes in Federal Elections. Therefore, it is paramount that the program operates in a reliable and effective manner. In order to certify a voting system, it is necessary for the EAC to (1) Require voting system manufacturers to submit information about their organization and the voting systems they submit for testing and certification; (2) require voting system manufacturers to retain voting system technical and test records; and (3) to provide a mechanism for election officials to report events which may effect a voting system's certification.

Affected Public: Business or other for-profit institutions and state and local election officials.

Estimated Number of Respondents: 94 annually.

Total Annual Responses: 99 annually.

Estimated Total Annual Burden Hours: 119 hours.

Donetta L. Davidson,

Chair, U.S. Election Assistance Commission.

STATUS: Audio recordings of working subcommittee teleconferences are

available upon conclusion of each meeting at: http://vote.nist.gov/subcomm_mtg.htm. Agendas for each teleconference will be posted one week in advance of each meeting at the above Web site.

SUMMARY: The Technical Guidelines Development Committee (the “Development Committee”) was established to act in the public interest to assist the Executive Director of the U.S. Election Assistance Commission (EAC) in the development of voluntary voting system guidelines. The Committee held their first plenary meeting on July 9, 2004. At this meeting, the Development Committee agreed to a resolution forming three working groups: (1) Human Factors & Privacy; (2) Security & Transparency; and (3) Core Requirements & Testing to gather and analyze information on relevant issues. These working subcommittees propose resolutions to the TGDC on best practices, specifications and standards. Specifically, NIST staff and Committee members will meet via the above scheduled teleconferences to review and discuss progress on tasks defined in resolutions passed at Development Committee plenary meetings. The resolutions define technical work tasks for NIST that will assist the Committee in developing recommendations for voluntary voting system guidelines. The Committee met in its eighth plenary session on March 22-23, 2007. Documents and transcriptions of Committee proceedings are available at: <http://vote.nist.gov/PublicHearingsandMeeting.html>.

SUPPLEMENTARY INFORMATION: The Technical Guidelines Development Committee (the “Development Committee”) was established pursuant to 42 U.S.C. 15361, to act in the public interest to assist the Executive Director of the Election Assistance Commission in the development of the voluntary voting system guidelines. The information gathered and analyzed by the working subcommittees during their teleconference meetings will be reviewed at future Development Committee plenary meetings.

FOR FURTHER INFORMATION CONTACT: Allan Eustis 301-975-5099. If a member of the public would like to submit written comments concerning the Committee's affairs at any time before or after subcommittee teleconference meetings, written comments should be

addressed to the contact person indicated above, or to voting@nist.gov.

Thomas R. Wilkey,

Executive Director, U.S. Election Assistance Commission.
