

considerations specified in 33 U.S.C. 2251 for the selection of representative organizations to the Board, and certain terms used therein, have been interpreted, supplemented, or otherwise clarified as follows:

(1) *Carriers and Shippers.* 33 U.S.C. 2251 uses the terms “primary users and shippers.” Primary users have been interpreted to mean the providers of transportation services on inland waterways such as barge or towboat operators. Shippers have been interpreted to mean the purchasers of such services for the movement of commodities they own or control. Representative companies are appointed to the Board, and they must be either a carrier or shipper or both. For that purpose, a trade or regional association is neither a shipper nor primary user.

(2) *Geographical Representation.* The law specifies “various” regions. For the purposes of the Board, the waterways subjected to fuel taxes and described in Public Law 95–502, as amended, have been aggregated into six regions. They are (1) the Upper Mississippi River and its tributaries above the mouth of the Ohio; (2) the Lower Mississippi River and its tributaries below the mouth of the Ohio and above Baton Rouge; (3) the Ohio River and its tributaries; (4) the Gulf Intracoastal Waterway in Louisiana and Texas; (5) the Gulf Intracoastal Waterway east of New Orleans and associated fuel-taxed waterways including the Tennessee-Tombigbee, plus the Atlantic Intracoastal Waterway below Norfolk; and (6) the Columbia-Snake Rivers System and Upper Willamette. The intent is that each region shall be represented by at least one representative organization, with that representation determined by the regional concentration of the firm’s traffic on the waterways.

(3) *Commodity Representation.* Waterway commerce has been aggregated into six commodity categories based on “inland” ton-miles shown in Waterborne Commerce of the United States. These categories are (1) Farm and Food Products; (2) Coal and Coke; (3) Petroleum, Crude and Products; (4) Minerals, Ores, and Primary Metals and Mineral Products; (5) Chemicals and Allied Products; and (6) All Other. A consideration in the selection of representative organizations to the Board will be that the commodities carried or shipped by those firms will be reasonably representative of the above commodity categories.

d. *Nomination.* Individuals, firms, or associations may nominate representative organizations to serve on the Board. Nominations will:

(1) Include the commercial operations of the carrier and/or shipper representative organization being nominated. This commercial operations information will show the actual or estimated ton-miles of each commodity carried or shipped on the inland waterways system in the most recent year (or years), using the waterway regions and commodity categories previously listed. Only ton-miles will be accepted.

(2) State the region(s) to be represented.

(3) State whether the nominated representative organization is a carrier, shipper or both.

(4) Provide the name of an individual to be the principal person representing the organization and information pertaining to their personal qualifications, to include a current within six months biography or resume.

Previous nominations received in response to the published document 2025–07787 (90 FR 18971) in the **Federal Register** filed on May 2, 2025, will be retained for consideration. Previous nominations received prior to May 2, 2025, will not be retained for consideration.

e. *Deadline for Nominations.* All nominations must be received at the address shown above no later than August 3, 2025.
