National Oceanic and Atmospheric Administration

[RTID 0648–XA552]

Endangered and Threatened Species; Take of Anadromous Fish

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Notice of availability.

SUMMARY: Notice is hereby given that the Final Environmental Assessment (EA) and Finding of No Significant Impact (FONSI) associated with the Bureau of Reclamation (Reclamation) and the California Department of Fish and Wildlife (CDFW)'s Trinity River Hatchery and Genetic Management Plan (HGMP) for Southern Oregon Northern California Coast coho salmon hatchery production is now available to the public. The Trinity River Hatchery is located in Trinity County, California.

ADDRESSES: The Final Environmental Assessment, Finding of No Significant Impact, and supporting documents are available by visiting the NMFS website (www.fisheries.noaa.gov/west-coast/laws-and-policies/west-coast-region-national-environmental-policy-act-documents) or by contacting Seth Naman at Seth.Naman@noaa.gov

FOR FURTHER INFORMATION CONTACT: Seth Naman at: (707) 825–5180, or via email: Seth.Naman@noaa.gov.

SUPPLEMENTARY INFORMATION:

ESA-Listed Species Covered in This Notice

Southern Oregon/Northern California Coast (SONCC) Coho Salmon (*Oncorhynchus kisutch*).

Background

Reclamation and CDFW submitted the Trinity River Coho Salmon HGMP to NMFS for determination on whether the HGMP meets Limit 5 criteria of the 4(d) Rule. Reclamation and CDFW's HGMP for Trinity River coho salmon provides

the framework through which Reclamation and CDFW can manage hatchery operations, monitoring, and evaluation activities, while meeting requirements specified under the ESA. The hatchery program will propagate coho salmon derived from the Upper Trinity River population in the Trinity River, incorporating natural-origin coho salmon into the hatchery broodstock to help reduce the genetic divergence between hatchery-origin coho salmon and their natural counterparts. Measures will be applied in the hatchery program to reduce the risk of incidental adverse genetic, ecological, and demographic effects on natural-origin steelhead and salmon populations.

NMFS published notification of the HGMP and draft EA's availability for public review and comment on November 7, 2018 for 30-days (83 FR 55697). NMFS received two comment letters. All comments were considered, and where appropriate, changes were made to the final EA.

Authority

Under section 4 of the ESA, the Secretary of Commerce is required to adopt such regulations as he deems necessary and advisable for the conservation of species listed as threatened. The ESA salmon and steelhead 4(d) rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005) specifies categories of activities that contribute to the conservation of listed salmonids and sets out the criteria for such activities. Limit 5 of the updated 4(d) rule (50 CFR 223.203(b)(5)) further provides that the prohibitions of paragraph (a) of the updated 4(d) rule (50 CFR 223.203(a)) do not apply to activities associated with artificial propagation programs provided that an HGMP has been approved by NMFS to be in accordance with the salmon and steelhead 4(d) rule (65 FR 42422, July 10, 2000, as updated in 70 FR 37160, June 28, 2005).

Dated: October 8, 2020.

Chief, Endangered Species Division, Office
of Protected Resources, National Marine
Fisheries Service.

SUPPLEMENTARY INFORMATION:

Summary of Change in Control

SPL states that it is a wholly-owned, indirect subsidiary of Cheniere Energy Partners, L.P. (CQP), which is a publicly traded Delaware limited partnership. The general partner interest in CQP is owned by Cheniere Energy Partners GP, LLC, which is a wholly-owned indirect subsidiary of Cheniere Energy, Inc. (Cheniere), a publicly traded corporation. As of August 31, 2020, the limited partnership interest in CQP was owned approximately 49.6% by Cheniere, about 8.5% by the public, and 42% by The Blackstone Group, Inc. (Blackstone) through various affiliated entities involved in the transaction described below.

On August 22, 2020, certain Blackstone entities agreed to sell a portion of their limited partner ownership interest in CQP, indirect owner of SPL, to certain entities of Brookfield Asset Management Inc. (Brookfield), with the remainder to be acquired by affiliated Blackstone entities. Specifically, BX CQP SuperHoldCo Holdings Manager L.L.C., BX CQP Common Holdco Holdings Manager L.L.C., and BX Rockies Platform Co Holdings Manager L.L.C. agreed to sell all of the limited liability company interests in BX CQP Target Holdco L.L.C., which in turn owns all of the equity interests in each of BX CQP SuperHoldCo Parent L.P., BX CQP Common Holdco Parent L.P., and BX Rockies Platform Co LLC (each of which directly or indirectly beneficially owns CQP common units), to an entity jointly

owned by BIP Aggregator Q L.P., a Delaware limited partnership, BIP Aggregator II L.P., a Delaware limited partnership (together with BIP Aggregator Q L.P., (Blackstone Infrastructure Partners)) and BIF IV Cypress Aggregator (Delaware) LLC, a Delaware limited liability company (Brookfield Infrastructure) (the Transaction). Following the closing of the Transaction, Blackstone Infrastructure Partners and Brookfield Infrastructure are expected to directly or indirectly own 50.01% and 49.99% of the equity interest in BX CQP Target Holdco L.L.C., respectively.¹ SPL states that following the Transaction, the Blackstone and Brookfield entities now jointly own the approximately 42 percent of CQP limited partnership interest currently held by Blackstone, without modifying the other existing ownership of limited partner or general partner interests in CQP.

Blackstone Infrastructure Partners' and Brookfield Infrastructure's respective governance rights over BX CQP Holdco L.L.C. mean that they share beneficial ownership of all of the CQP common units that are now beneficially owned by Blackstone. Blackstone Infrastructure Partners and Brookfield Infrastructure share certain limited governance rights, including the exercise of director nomination rights previously held by Blackstone with respect to the board of the general partner of the SPL and of Cheniere.

Additional details can be found in SPL's Notice, posted on the DOE/FE website at: https://www.energy.gov/sites/prod/files/2020/09/f79/Sabine%20Pass_Blackstone_Brookfield_CIC_notification.pdf.

DOE/FE Evaluation

DOE/FE will review SPL's Notice in accordance with its Procedures for Changes in Control Affecting Applications and Authorizations to Import or Export Natural Gas (CIC Procedures).² Consistent with the CIC Procedures, this notice addresses SPL's authorizations to export liquefied natural gas (LNG) to non-free trade agreement (non-FTA) countries, granted in DOE/FE Order Nos. 2961-A (FE Docket No. 10-111-LNG), 3669 (FE Docket Nos. 13-30-LNG, 13-42-LNG, 13-121-LNG), 3792 (FE Docket No. 15-63-LNG), 4487 (FE Docket No. 19-133-LNG), 4545 (FE Docket No. 20-28-

¹ SPL informed DOE/FE that the Transaction closed on September 24, 2020. See Email from J. Patrick Nevins, Partner, Latham & Watkins LLP, to DOE/FE, Update to Notification Regarding Change in Indirect Equity Ownership (Sept. 24, 2020).
