

members on State orders and U.S. citizens who have never resided in the United States. These individuals had previously been listed as U.S. citizens otherwise granted military/overseas voting rights. The overseas citizen selection previously described as "I am a U.S. citizen residing outside the U.S., and I do not intend to return" has been reworded for citizens who are unsure of their future plans or are hesitant to sign that they do not intend to return to the country. The intent to return language remains on the form due to the October 2008 National Association Secretaries of State (NASS) Survey of State Statutes that shows the majority of States have intent as a prerequisite for obtaining a State ballot. Block 7 has been reworded back to the 2005 form language of "my voting residence address" to ensure military voters with more than one potential U.S. address are not registering in the wrong jurisdiction. Block 8 has been reworded to "where to send my voting materials" to ensure voters are using their mailing address and not their U.S. voting address. The Affirmation has been modified so that voters do not have to reaffirm information already found on the form. The signature block has been highlighted and the text previously found on the signature and date lines has been moved below it so local election officials can easily read signatures and dates. The mailing envelope has been modified to include a space to identify which election their ballot is being submitted for. This will ensure local election officials do not accidentally count a general election ballot for a primary election and disenfranchise a voter because their ballot was not counted in their preferred election. The mailing envelope instructions have been clarified to highlight that the ballot security envelope and mailing envelope are not the same and two envelopes are required.

Needs and Uses: The information collection requirement is necessary to fulfill the requirement of the Uniformed and Overseas Absentee Voting Act (UOCAVA), 46 U.S.C. 1973ff wherein the Secretary of Defense is to prescribe an official postcard form, containing an absentee voter registration application and an absentee ballot request application for use by the States.

Affected Public: Individuals or Households: Uniformed Services members, eligible family members, U.S. citizens residing outside the U.S.

Annual Burden Hours: 300,000.

Number of Respondents: 1,200,000.

Responses per Respondent: 1.

Average Burden per Response: 15 minutes.

Frequency: On occasion.

SUPPLEMENTARY INFORMATION:

Summary of Information Collection

Respondents are UOCAVA citizens who desire to apply for voter registration and/or request an absentee ballot from their state of residency. The information provided by these citizens is used by the states to determine if the citizen is a resident of a jurisdiction within that state, and therefore eligible to vote within that jurisdiction and to provide absentee ballots to these citizens for Federal elections held within each calendar year. This form is mandated by 42 U.S.C. 1973ff. The Department of Defense does not receive, collect nor maintain any data provided on the form by these citizens; this data is collected and maintained by the individual states. The burden in the collection of this data resides in the individual States. If the form is not provided, UOCAVA citizens may not be able to register to vote in their State of residency nor be able to request absentee ballots and thus may be disenfranchised from their right as a U.S. citizen to participate in the electoral process. The previous Federal Post Card Application is the edition dated 08-2011. The form has been

updated for usability and consistency. The most significant changes on the form are as follows: Block 1 classification has been clarified to include activated National Guard members on State orders and U.S. citizens who have never resided in the United States. These individuals had previously been listed as U.S. citizens otherwise granted military/overseas voting rights. The overseas citizen selection previously described as "I am a U.S. citizen residing outside the U.S., and I do not intend to return" has been reworded for citizens who are unsure of their future plans or are hesitant to sign that they do not intend to return to the country. The intent-to-return language remains on the form due to the October 2008 National Association Secretaries of State (NASS) Survey of State Statutes that shows the majority of States have intent as a prerequisite for obtaining a State ballot. Block 7 has been reworded back to the 2005 FPCA language of "my voting residence address" to ensure military voters with more than one potential U.S. address are not registering in the wrong jurisdiction. Block 8 has been reworded to "where to send my ballot" to ensure voters are using their mailing address and not their U.S. voting address. The Affirmation has been modified so that voters do not have to reaffirm information already found on the form. The signature block has been highlighted and the text previously found on the signature and date lines has been moved below it so local election officials can easily read signatures and dates. The Agency Disclosure Statement has been added to the instruction page of the form as per OMB guidance.
