NATIONAL SCIENCE FOUNDATION

Committee Management Notice of Reestablishment

The Deputy Director of the National Science Foundation has determined that the reestablishment of the Oversight Council for the International Arctic Research Center is necessary and in the public interest in connection with the performance of the duties imposed upon the National Science Foundation (NSF) by 42 USC 1861 *et seq.* This determination follows consultation with the Committee Management Secretariat, General Services Administration.

Name of Committee: Oversight Council for the International Arctic Research Center (9535).

Nature/Purpose: The Oversight Council will advise NSF and the University of Alaska, Fairbanks on scientific, policy, and management issues relating to the operation of the IARC. The Oversight Council will review annual program plans of the IARC before submission to NSF.

Responsible NSF Official: Thomas Pyle, Head, Arctic Science Section, Office of Polar Programs, National Science Foundation, 4201 Wilson Boulevard, Suite 755, Arlington, VA 22230. Telephone: 703/292-8030.

Dated: February 26, 2004.

Susanne E. Bolton,

Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-395]

South Carolina Electric and Gas Company, Virgil C. Summer Nuclear Station; Notice of Availability of the Final Supplement 15 to the Generic Environmental Impact Statement Regarding License Renewal for the Virgil C. Summer Nuclear Station

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has published a final plant-specific supplement to the "Generic Environmental Impact Statement (GEIS)", NUREG-1437, regarding the renewal of operating license NPF-12 for Virgil C. Summer

Nuclear Station (V.C. Summer), for an additional 20 years of operation. V.C. Summer is owned by South Carolina Electric and Gas Company (SCE&G), and is located in Fairfield County, South Carolina, approximately 26 miles northwest of Columbia, South Carolina. Possible alternatives to the proposed action (license renewal) include no action and reasonable alternative methods of power generation.

It is stated in Section 9.3 of the report:

Based on (1) The analysis and findings in the GEIS (NRC 1996; 1999); (2) the Environmental Report submitted by SCE&G (SCE&G 2002b); (3) consultation with Federal, State, and local agencies; (4) the staff's own independent review; and (5) the staff's consideration of public comments, the staff recommends that the Commission determine that the adverse environmental impacts of license renewal for V.C. Summer are not so great that preserving the option of license renewal for energy planning decisionmakers would be unreasonable.

The final Supplement 15 to the GEIS is available for public inspection in the NRC Public Document Room (PDR) located at One White Flint North, 11555 Rockville Pike (first floor), Rockville, Maryland 20852, or from the Publicly Available Records (PARS) component of NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm.html> (the Public Electronic Reading Room). Persons who do not have access to ADAMS, or who encounter problems in accessing the documents located in ADAMS, should contact the PDR reference staff at 1-800-397-4209, 301-415-4737, or by e-mail to pdr@nrc.gov. The final supplement to the GEIS is also available for public inspection at the Thomas Cooper Library, 1322 Greene Street, Columbia, South Carolina 29208, and at the Fairfield County Library, 300 Washington Street, Winnsboro, South Carolina 29180.

FOR FURTHER INFORMATION CONTACT: Mr. William Dam, License Renewal and Environmental Impacts Program, Division of Regulatory Improvement Programs, U.S. Nuclear Regulatory Commission, Mail Stop O-11 F1, Washington, DC 20555. Mr. Dam may be contacted at (301) 415-4014 or WLD@nrc.gov.

Dated at Rockville, Maryland, this 23rd day of February, 2004.
