The R&O modified 47 CFR 76.64(f) to provide that stations that return their analog spectrum and broadcast only in digital format are entitled to elect must-carry or retransmission consent status following the procedures previously applicable to new television stations. The R&O also provided only carriage rights for a very limited number of digital-only television broadcast station (DTV) and may result in voluntary carriage for a subset of other DTV stations. Furthermore, the R&O established a framework for voluntary retransmission consent agreements between DTV station licensees and multi-channel video programming distributors and modified several sections of the rules accordingly. The FNPRM sought additional comments on carriage requirements relating to digital television stations generally, as proposed in the initial NPRM.
