Abstract: The authority for EPA's oil pollution prevention requirements is derived from section 311(j)(1)(C) of the Clean Water Act, as amended by the Oil Pollution Act of 1990. EPA's regulation is codified at 40 CFR part 112. An SPCC Plan will help an owner or operator identify the necessary procedures, equipment, and resources to prevent an oil spill and to respond to an oil spill

in a timely manner. If implemented effectively, the SPCC Plan is expected to prevent and reduce the impact and severity, of oil spills. Although the owner or operator is the primary data user, EPA may also require the owner or operator to submit data to the Agency in certain situations to ensure facilities comply with the SPCC regulation and to help allocate response resources. The data, which are not generally available elsewhere, can assist State and local governments in several ways, including when information on certain oil discharges must be sent to relevant State and local agencies (section 112.4(a)), and with local emergency preparedness planning efforts. EPA does not require an owner or operator to submit their SPCC Plan but may request the SPCC Plan during a facility inspection or an oil spill incident for review. The SPCC regulation requires the owner or operator to maintain a complete copy of the Plan at the facility if the facility is normally attended at least four hours per day or at the nearest field office if the facility is not so attended. The rule also requires that the Plan be available to the Regional Administrator for on-site review during normal working hours (40 CFR 112.3(e)).

Form Numbers: None.

Respondents/affected entities:

Owners or operators of facilities that are required to have a SPCC Plan under the Oil Pollution Prevention regulation (40 CFR part 112).

Respondent's obligation to respond:

Mandatory, pursuant to 40 CFR 112.3(e).

Estimated number of respondents:

549,785 (total).

Frequency of response: Facilities must prepare and implement an SPCC Plan before beginning operations, and review, evaluate and update the SPCC Plan every five years.

Total estimated burden: 6,309,523 hours (per year). Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$857,835,543 (per year), includes \$201,002,128 annualized capital or operation & maintenance costs.

Changes in Estimates: The burden hour estimate presented in this ICR renewal has increased by approximately 130,000 hours from the ICR currently approved by OMB. This increase is attributable to the net change in the universe of regulated facilities after accounting for changes in the numbers of existing and newly regulated facilities in the ICR renewal period.

Annual O&M costs are estimated to increase by approximately \$17,841,833 compared to the costs currently approved by OMB. These increases are due to the combination of the higher

number of regulated facilities projected between 2019 through 2021 compared to the number of facilities between 2016 through 2018 estimated from the ICR currently approved by OMB, as well as higher capital and O&M unit costs due to inflation.

Director, Regulatory Support Division.

Abstract: EPA tips and complaints web form is intended to provide an easy and convenient means by which members of the public can supply information to EPA regarding suspected violations of environmental law. The decision to provide a tip or complaint is entirely voluntary and use of the webform when supplying a tip or complaint is also entirely voluntary. Tipsters need not supply contact information or other personal identifiers. Those who do supply such information, however, should know that this information may be shared by EPA with appropriate administrative, law enforcement, and judicial entities engaged in investigating or adjudicating the tip or complaint.

Form Numbers: None.

Respondents/affected entities:

Anyone wishing to file a tip or complaint.

Respondent's obligation to respond: Voluntary.

Estimated number of respondents: 17,172 (total).

Frequency of response: Once.

Total estimated burden: 8,586 hours.

Burden is defined at 5 CFR 1320.03(b).

Total estimated cost: \$400,347 (per year), which includes no annualized capital or operation & maintenance costs.

Changes in the Estimates: There is an increase of 3,443 hours in the total

estimated respondent burden compared with that identified in the ICR currently approved by OMB. This increase reflects the fact that tips and complaints are being filed at a higher rate than originally anticipated, a strong indication of the success of this program. There has been no change in the information being reported or the estimated burden per respondent.
