

Knowledge Person for child respondents in the ACBS, and to move it to the BRFSS state-added questions section.

Also, in response to the 2017 Terms of Clearance, the NACP undertook efforts to streamline the 2021 ACBS questionnaire, reduce unnecessary burden, and ensure that the question wording is synchronized with more recent studies. The questionnaires were

re-evaluated by ACBS questionnaire working groups and the ACBS recipients.

The time burden estimates are based on the 2016 ACBS data collection, which is the most recent data released. The burden table reflects the landline and cell phone data collection methods used in 2016 and later years.

Additionally, the time burden accounts

for reporting burden incurred by the states for the monthly or quarterly adult and child ACBS data submissions to CDC. The total estimated annualized time burden for all respondents is 6,615 hours. Participation in the ACBS is voluntary and there are no costs to respondents other than their time.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
BRFSS Adults	ACBS Landline Screener—Adult	17,800	1	1/60
	ACBS Cell Phone Screener—Adult	16,733	1	1/60
BRFSS Parents or Guardians of Children	ACBS Landline Screener—Child	2,576	1	1/60
	ACBS Cell Phone Screener—Child	3,824	1	1/60
ACBS Adults	ACBS Adult Consent and Questionnaire	23,166	1	10/60
ACBS Parents or Guardians of Children	ACBS Child Consent and Questionnaire	3,787	1	10/60
State BRFSS Coordinators	ACBS Adult Data Submission Layout	40	12	155/60
	ACBS Child Data Submission Layout	40	12	25/60

Agency Forms Undergoing Paperwork Reduction Act Review

In accordance with the Paperwork Reduction Act of 1995, the Centers for Disease Control and Prevention (CDC) has submitted the information collection request titled National Vital Statistics Report Forms to the Office of Management and Budget (OMB) for review and approval. CDC previously published a “Proposed Data Collection Submitted for Public Comment and Recommendations” notice on June 5, 2020 to obtain comments from the public and affected agencies. CDC did not receive any comments related to the previous notice. This notice serves to allow an additional 30 days for public and affected agency comments.

CDC will accept all comments for this proposed information collection project. The Office of Management and Budget is particularly interested in comments that:

(a) Evaluate whether the proposed collection of information is necessary for the proper performance of the

functions of the agency, including whether the information will have practical utility;

(b) Evaluate the accuracy of the agencies estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;

(c) Enhance the quality, utility, and clarity of the information to be collected;

(d) Minimize the burden of the collection of information on those who are to respond, including, through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submission of responses; and

(e) Assess information collection costs.

To request additional information on the proposed project or to obtain a copy of the information collection plan and instruments, call (404) 639-7570. Comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function. Direct written comments and/or suggestions regarding the items contained in this notice to the Attention: CDC Desk Officer, Office of Management and Budget, 725 17th Street NW, Washington, DC 20503 or by fax to (202) 395-5806. Provide written

comments within 30 days of notice publication.

Proposed Project

National Vital Statistics Report Forms (OMB Control No. 0920-0213, Exp. 04/30/2021)—Extension — National Center for Health Statistics (NCHS), Centers for Disease Control and Prevention (CDC).

Background and Brief Description

The compilation of national vital statistics dates back to the beginning of the 20th century and has been conducted since 1960 by the Division of Vital Statistics of the National Center for Health Statistics, CDC. The collection of the data is authorized by 42 U.S.C. 242k. This submission requests approval to collect monthly and annual summary statistics for three years.

The Monthly Vital Statistics Report forms provide counts of monthly occurrences of births, deaths, and infant deaths. Similar data have been published since 1937 and are the sole source of these data at the National level. The data are used by the Department of Health and Human Services and by other government, academic, and private research and commercial organizations in tracking changes in trends of vital events. Respondents for the Monthly Vital Statistics Reports Form are registration officials in each State and Territory, the District of Columbia, and New York City. In addition, local (county) officials in New Mexico who record marriages occurring, and divorces and annulments granted in each county of New Mexico will use this form. This form is also

designed to collect counts of monthly occurrences of births, deaths, and infant deaths immediately following the month of occurrence.

The Annual Vital Statistics Occurrence Report Form collects final annual counts of marriages and divorces by month for the United States and for each State. These final counts are

usually available from State or county officials about eight months after the end of the data year. The data are widely used by government, academic, private research, and commercial organizations in tracking changes in trends of family formation and dissolution. Respondents for the Annual

Vital Statistics Occurrence Report Form are registration officials in each State and Territory, the District of Columbia, and New York City.

There are no costs to respondents other than their time.

The total annualized burden hours are 139.

ESTIMATED ANNUALIZED BURDEN HOURS

Type of respondents	Form name	Number of respondents	Number of responses per respondent	Average burden per response (in hours)
State, Territory, and New Mexico County Officials.	Monthly Vital Statistics Report	91	12	8/60
State, Territory, and other officials	Annual Vital Statistics Occurrence Report	58	1	30/60

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Centers for Disease Control and Prevention

[60Day-20-20NK; Docket No. CDC-2020-0094]

Proposed Data Collection Submitted for Public Comment and Recommendations

AGENCY: Centers for Disease Control and Prevention (CDC), Department of Health and Human Services (HHS).

ACTION: Notice with comment period.

SUMMARY: The Centers for Disease Control and Prevention (CDC), as part of its continuing effort to reduce public burden and maximize the utility of government information, invites the general public and other Federal agencies to take this opportunity to comment on proposed and/or continuing information collection, as required by the Paperwork Reduction Act of 1995. This notice invites comment on a proposed information collection project titled NCHS Research and Development Survey (RANDS). RANDS will leverage commercially-created and maintained survey panels to supplement and expand NCHS' methodological research, allowing NCHS to quickly obtain and disseminate information about the ongoing coronavirus outbreak and provide documentation supporting the validity of outbreak-related survey questions.

DATES: Written comments must be received on or before October 19, 2020.

ADDRESSES: You may submit comments, identified by Docket No. CDC-2020-0094 by any of the following methods:

- *Federal eRulemaking Portal: Regulations.gov.* Follow the instructions for submitting comments.

- *Mail:* Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329.

Instructions: All submissions received must include the agency name and Docket Number. All relevant comments received will be posted without change to *Regulations.gov*, including any personal information provided. For access to the docket to read background documents or comments received, go to *Regulations.gov*.

Please note: All public comment should be submitted through the Federal eRulemaking portal (*regulations.gov*) or by U.S. mail to the address listed above.

FOR FURTHER INFORMATION CONTACT: To request more information on the proposed project or to obtain a copy of the information collection plan and instruments, contact Jeffrey M. Zirger, Information Collection Review Office, Centers for Disease Control and Prevention, 1600 Clifton Road NE, MS-D74, Atlanta, Georgia 30329; phone: 404-639-7570; Email: *omb@cdc.gov*.

SUPPLEMENTARY INFORMATION: Under the Paperwork Reduction Act of 1995 (PRA) (44 U.S.C. 3501-3520), Federal agencies must obtain approval from the Office of Management and Budget (OMB) for each collection of information they conduct or sponsor. In addition, the PRA also requires Federal agencies to provide a 60-day notice in the **Federal Register** concerning each proposed collection of information, including each new

proposed collection, each proposed extension of existing collection of information, and each reinstatement of previously approved information collection before submitting the collection to OMB for approval. To comply with this requirement, we are publishing this notice of a proposed data collection as described below.

The OMB is particularly interested in comments that will help:

1. Evaluate whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
2. Evaluate the accuracy of the agency's estimate of the burden of the proposed collection of information, including the validity of the methodology and assumptions used;
3. Enhance the quality, utility, and clarity of the information to be collected; and
4. Minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology, e.g., permitting electronic submissions of responses.
5. Assess information collection costs.
