SUPPLEMENTARY INFORMATION:**Background**

The Census Bureau's procedures for outreach, notice, and consultation ensure involvement of tribes, to the extent practicable and permitted by law, before making decisions or implementing policies, rules, or programs that affect federally recognized tribal governments. These meetings are open to citizens of federally recognized tribes by invitation.

The Census Bureau's Decennial Directorate and the Intergovernmental Affairs Office are responsible for the development and implementation of outreach and promotion activities to assist in obtaining a complete and accurate census count in 2020 among all residents, including the American Indian and Alaska Native populations. This program is one part of the overall outreach and promotion efforts directed at building awareness about the importance of the Census Bureau's commitment to produce quality 2020 American Indian and Alaska Native data for all tribal communities and organizations.

In accordance with Executive Order 13175, Consultation and Coordination with Indian Tribal Governments, issued November 6, 2000, the Census Bureau is adhering to its tribal consultation policy by seeking the input of tribal governments in the planning and implementation of the 2020 Census with the goal of ensuring the most accurate counts and data for the American Indian and Alaska Native population. In that regard, we are seeking comments to the following operational topics:

1. 2020 Disclosure Avoidance System
2. American Indian and Alaska Native Geography Hierarchy

Through the national tribal consultation webinar, Census Bureau staff will provide tribal communities with further details on disclosure avoidance methodology. SUPPLEMENTARY INFORMATION:

Background

On March 30, 2020, Commerce published the *Preliminary Determination* of the countervailing

duty (CVD) investigation, which aligned the final determination in this CVD investigation with the final determination in the companion antidumping duty investigation of FSF from India.¹ On June 18, 2020, Commerce published the *Amended Preliminary Determination* in this investigation.²

A summary of the events that occurred since Commerce published the *Amended Preliminary Determination*, as well as a full discussion of the issues raised by parties for this final determination, are discussed in the Issues and Decision Memorandum, which is hereby adopted by this notice.³ The Issues and Decision Memorandum is a public document and is on file electronically via Enforcement and Compliance's Antidumping and Countervailing Duty Centralized Electronic Service System (ACCESS). ACCESS is available to registered users at <https://access.trade.gov>. In addition, a complete version of the Issues and Decision Memorandum can be accessed directly at <http://enforcement.trade.gov/frn/index.html>. The signed and electronic versions of the Issues and Decision Memorandum are identical in content.

Period of Investigation

The period of investigation is January 1, 2018 through December 31, 2018.

Scope of the Investigation

The products covered by this investigation are forged steel fittings from India. For a complete description of the scope of this investigation, see Appendix I.

Scope Comments

On May 20, 2020, Commerce issued an *Amended Preliminary Scope Memorandum*. We received comments from interested parties on the *Amended Preliminary Scope Memorandum*, which we address in the *Final Scope Decision Memorandum*, dated

contemporaneously with, and hereby adopted by, this final determination.⁴ Commerce is modifying the scope language as it appeared in the *Amended Preliminary Determination*. See the revised scope in Appendix I.

Analysis of Subsidy Programs and Comments Received

The subsidy programs under investigation and the issues raised in the case and rebuttal briefs by parties in this investigation are discussed in the Issues and Decision Memorandum. A list of the issues that parties raised is attached to this notice as Appendix II.

Methodology

Commerce conducted this investigation in accordance with section 701 of the Tariff Act of 1930, as amended (the Act). For each of the subsidy programs found countervailable, Commerce determines that there is a subsidy, *i.e.*, a financial contribution by an “authority” that gives rise to a benefit to the recipient, and that the subsidy is specific.⁵ For a full description of the methodology underlying our final determination, see the Issues and Decision Memorandum.

Verification

Commerce normally verifies information relied upon in making its final determination, pursuant to section 782(i)(1) of the Tariff Act of 1930, as amended (the Act). However, during the course of this investigation, we were unable to conduct on-site verification due to travel restrictions.⁶ Consistent
